INDIANA

HARDY LAKE

stateparks.IN.gov

Situated in scenic southeastern Indiana, Hardy Lake is the smallest state-operated reservoir but has Indiana's largest state-owned dam. Located in Scott and Jefferson counties, the lake is accessible from State Roads 256 and 3. The dam was constructed on Quick's Creek in 1970 for water supply and outdoor recreation. Hardy Lake was constructed in accordance with a long-range program developed by the Stucker Fork Conservancy District of Scott County to provide water for the surrounding community.

The property's total acreage is 2,449, including water surface area of 741 acres. Unlike most reservoirs, a stable pool elevation is maintained throughout the year. Hardy Lake is owned and operated by the Indiana DNR.

Surrounding areas also offer plenty of outdoor activities. Muscatatuck National Wildlife Refuge is located to the north, Crosley Fish & Wildlife Area to the northeast and Clifty Falls State Park to the east.
