INTERLAKE STATE RECREATION AREA

200 E. State Road 68 • Lynnville, Indiana 47619 • 812-922-0002
3,550 Acres Established 2000

POINT OF INTEREST (POI)

1. Rock Garden
   A specialty vehicle crawl area. The rock garden is designed with four stages, from easy to extreme. Most 4WDs and ORVs can traverse stages 1 and 2. Stages 3 and 4 require experienced drivers and modified vehicles.

2. Overlook Hill
   One of the most beautiful vistas at Interlake. Easily accessed by any vehicle or ORV, this hilltop is one of the highest in the area. You can see all of Interlake from here.

3. Hole in Rock
   A short walk from the trail, this is a remnant from the mining era. Boulders like this are the result of drilling and blasting during coal extraction.

4. Skinny Pedal Hill
   A 4WD fun spot. This narrow, steep hill challenges some of the best. Use caution to stay upright and on your wheels.

5. Marion Parking
   A focal point from the past. Marion Parking was a mine-equipment parking area. Heavy equipment, such as Big Kate (a dragline manufactured specifically for Interlake and still used today), was staged here before moving into the production line.

6. Football Field
   This basin is a fun mud-and-climb area for all levels of drivers. Although the mud changes as nearby mining affects the hydrology of the area, the hill climbs remain. This is a great location for teaching young drivers how to shift on a hill, in a safe location, and near easy trails.

7. Waterfall
   Close to single track trails and a short walk from the dual track. Interlake’s waterfall varies with the seasons and beaver activity. This impressive falls cascades from Perched Lake to the pit below. When it is in full stream, the sights and sounds rival those of many other falls in the state.

8. Trail 4 Overlook
   A serene stop along the trail. The view from this overlook is one of the finest, including the highwalls left from the mining operations and most of Interlake to the north and east.

9. Observation Deck (ADA Accessible)
   Located on the Observation hiking trail, near the main road and Trail 1. The deck overlooks a large wetland area that is an integral part of the biological water purification system established in 2008 to eliminate acidic drainage into the South Fork Patoka River. Migratory birds, beaver and other wildlife frequent the wetlands throughout the year. This is a great location for interpretive classes and school groups.

HIKING TRAILS

TRAIL & DESCRIPTION DISTANCE

Overlook Trail 1.29 miles
Meanders through a transition woods and along a scenic lake. Includes several picnic stops along the route. (enter from the office parking lot)

Observation Trail 1.07 miles
Has an ADA overlook for visitors to watch wildlife in the reclaimed headwaters of the South Fork Patoka. It extends into former coal spoils for a refreshing woodland hike. (enter off the main road near POI 9)

RIDE SMART, RIDE SAFE
Free ORV safety course with optional certification
www.offroad-ed.com/indiana

Please carry out all trash you produce in a pit or in provided bags and enjoy Interlake's forest and trail system by driving your vehicle safely. No ORVs allowed in park offices or on single track trails.

Stay on marked trails or in designated ORV areas.

Interlake State Recreation Area, Indiana's largest off-road vehicle property, is a 3,500-acre destination focused on trails. Located in Pike and Warrick counties near Lynnville, it boasts nearly 100 miles of trails open to ORVs, horses, mountain bikes and hikers. Several lakes are available for boating and fishing, and the restored coal mine provides excellent opportunities for hunting and mushrooming.

The terrain ranges from flat, to rolling, to steep hillside and fantastic views, all rolled into one. Please carry out all trash you produce and be proud of your riding experience. You are caring for the area so that others may enjoy it too.
