

LOCATION

Salamonie Lake is located in Huntington and Wabash counties in northeastern Indiana on the Salamonie River. Accessible from the following routes: State Road 524 on the west, U.S. 24 on the north, Interstate 69 on the east, and S.R. 124 on the south. S.R. 9 and S.R. 105 also cross the property north/south.

PURPOSE

As the second largest reservoir of the Upper Wabash Reservoirs, the U.S. Army Corps of Engineers regulates the water level and operates the dam for flood control. The DNR manages the multiple-use recreation and wildlife areas. This reservoir, along with Mississinewa to the west, and J. Edward Roush to the east, serves to reduce flood stages downstream. The three dams have saved millions of dollars in flood damages.

PARTNERSHIPS

The Corps of Engineers has developed a partnership in the management of the public land at Salamonie Lake. Under a lease agreement, the Indiana Department of Natural Resources operates and maintains the recreation facilities and wildlife areas at the lake, except the areas noted on the map.
