SHAKAMAK STATE PARK

This beautiful spot was once unmanaged forest and abandoned coal mines. In 1927-1929, Clay, Greene and Sullivan counties donated the land to the State of Indiana as a state park.

Shakamak owes its name to Native Americans, who played a prominent part in the history of this region until the close of the War of 1812, aiding Tecumseh in his efforts against the United States.

Early residents mined coal from shaft mines, farmed the rich Wabash Valley land, and operated several mills and brick plants. Brick was plentiful during the time the park was established, as evidenced by the many buildings and structures finished with brick.

In the early 1930s, the Civilian Conservation Corps workers developed much of the park, planting trees and doing erosion control in many areas. Many of the buildings and other structures still used today were built by the CCC. Shakamak offers various facilities to make a stay enjoyable. Picnickers have their choice of several picnic areas.
