

# Unconsolidated Limited Data and Nonaquifer Areas for Knox County, Indiana

## Shapefile

## Tags

No data zone, water wells, unconsolidated aquifer, Indiana Department of Natural Resources (IDNR), Division of Water (DOW), Knox County, Indiana, USA

## Summary

Display and/or analyses requiring spatial distribution of lack of static water levels in the unconsolidated aquifers of Knox County.

## Description

This file is a digital geospatial polygon coverage of the lack of available aquifer static water level data within unconsolidated aquifers for Knox County in Indiana.

## Credits

It is requested that the Indiana Department of Natural Resources, Division of Water be cited in any products generated from this data.

## Use limitations

Acknowledgement of the following agency in products derived from these data: Indiana Department of Natural Resources, Division of Water. This map was compiled by staff of the Indiana Department of Natural Resources, Division of Water using data believed to be reasonably accurate. However, a degree of error is inherent in all maps. This product is distributed "as-is" without warranties of any kind, either expressed or implied. The maps are intended for use only at the published scale. The information on these media is proprietary to the State of Indiana, Indiana Department of Natural Resources, Division of Water. Any copying, adaptation, or distribution of these data without the express written consent of IDNR-DOW is discouraged. It is not recommended that these data be used for purposes other than general estimate of static water level elevations. Site specific conditions may vary considerably from mapped estimates.

**DATA QUALITY REPORT - COMPLETENESS OMISSION** ▶**MEASURE DESCRIPTION**

In conducting the mapping, the author(s) evaluated hundreds of water well records, especially those having relatively complete information on well location, static water level, well depth, ground elevation, and lithology. This layer is based on areas in the county with sparse information because of lack of well records or incomplete records, or poorly producing aquifers.

*Hide Data quality report - Completeness omission* ▲

**DATA QUALITY REPORT - QUANTITATIVE ATTRIBUTE ACCURACY** ▶**MEASURE DESCRIPTION**

The layer was created after a thorough documentation of well locations and water well record details.

*Hide Data quality report - Quantitative attribute accuracy* ▲

**DATA QUALITY REPORT - ABSOLUTE EXTERNAL POSITIONAL ACCURACY** ▶**MEASURE DESCRIPTION**

The locations of many wells were field checked and the locations posted on 7.5 minute topographic maps. Visual confirmation of wells was not always possible. Many locations were based only on the street address, driving directions, or other location information provided on the well record.

## Lineage ►

### PROCESS STEP ►

WHEN THE PROCESS OCCURRED 2016-10-01 00:00:00

#### DESCRIPTION

Coverage was selected by careful evaluation of the lack of water well records within an area by determine a minimum of one mile from available data. Using field located wells that contained complete and reasonable information a half mile buffer was applied. Areas outside of the compiled buffer were considered a no data zone and delineated as such.
