Reporting Requirements

In accordance with Indiana Code (IC) 20-30-16-12, the Indiana Department of Education (IDOE) submits the following report to the Interim Study Committee on Education regarding the Indiana Course Access Portal (iCAP). This report includes:

- The number of authorized course providers;
- The number of approved course access program courses and the number of students enrolled in each course;
- The number of approved course access program courses available by subject matter;
- The number of students participating for the first time in approved course access program courses;
- The number of approved course access program courses each participating student is taking; and
- Student outcome data, including: (1) course access program course completion data; (2) student growth, performance, and growth to proficiency; and (3) student performance on state- or nationally-accepted assessments by subject area for each course provider. (Note: there is no growth or assessment data for the iCAP courses.)

Introduction

The Indiana Course Access Portal (iCAP) provides students in Indiana with options for taking online courses from a collection of offerings maintained by IDOE, in partnership with authorized course providers. Indiana school corporations can use these virtual opportunities in a variety of situations, including:

- Supplementing student schedules with desired courses;
- Expanding the range of courses offered at the local corporation; or
- Providing students with opportunities to complete a credential of value, including the Indiana College Core.

Schools and iCAP course providers are encouraged to work together for the success of enrolled students, as this collaboration is key to students' successful course completion. During the 2025-2026 school year, 4,142 unique students participated in iCAP, accounting for 7,902 course enrollments. There were 423 unique courses offered by nine providers available for student enrollment. On average, each participating student enrolled in an average of two courses. Of the 4,142 unique students participating in iCAP during the 2025-2026 school year, approximately 3,308 students (79.9%) participated in iCAP for the first time.[1]

[1] This estimate is based on matching student IDs and/or names between 2024-2025 and 2025-2026. Minor inconsistencies in the data may affect the comparison.

Students participating in iCAP represent the 159 Indiana school corporations outlined in Table 1.

Authorized Course Providers in iCAP

During the 2025-2026 enrollment period, there were nine authorized course providers in the iCAP catalog. Course providers must complete the IDOE application and demonstrate quality through an approved review process (such as Quality Matters or alignment with an Indiana higher-education catalog), along with evidence of successful experience serving high school students. They must also ensure Indiana-licensed instruction, alignment to state standards, accessibility compliance, clear enrollment/onboarding processes, data reporting, adherence to federal/state laws, and participate in a five-year reapproval process that verifies continued quality, accessibility, and updated program information.

These providers are listed below in Table 2 with the number of courses each provider offers. The cost per high school course, including Advanced Placement (AP) courses ranged from $250-$325, with an average cost of $286.07. Cost per college credit course, including dual enrollment and dual credit courses ranged from $150-$798.85 with an average cost of $407.98.

Total Approved Courses in iCAP and Enrollment

There are 423 approved courses currently listed in the iCAP course catalog. A list of all courses is available in Appendix A. There were 204 courses with one or more enrollments during the 2025-2026 school year, for a total of 7,902 enrollments.

- Of the 7,902 course enrollments, 6,122 (77%) of those courses were completed with a passing grade of 60% or higher.
- Students who completed and passed a course earned an average grade of 85.29%.

Courses and their enrollments are listed in Table 4.

Comparison Between School Years

The total number of available courses for the 2025-2026 school year was 423, with 204 courses having one or more enrollments. In total, there were 7,902 course enrollments - an increase of 441 course enrollments compared to the previous school year. First introduced in 2017, iCAP has vastly expanded available courses and enrollments. Details are included in Table 5.
