General Information

Number	Question	Answer
1	What is the Indiana Choice Scholarship Program?	The Choice Scholarship Program provides state funding to qualifying students that is used to offset tuition costs at participating Choice schools. Students qualify based on household income.
2	Can children be included in the household size if they are not listed on the tax forms for their household?	Yes. The household which serves as the child's primary residence should be used for purposes of applying for a Choice Scholarship. If a child is claimed by the other parent on taxes, documentation of this agreement should be kept in the student's file. More guidance for determining household size is available in the Income Verification Rules .
3	Who is responsible for determining a student's Choice Scholarship eligibility?	IDOE determines eligibility. The parent/guardian of the student must provide documentation establishing eligibility to the participating Choice school before the application is submitted. This documentation must be kept on file at the school.
4	How is the amount of the Choice Scholarship award determined?	The first period Choice Scholarship award amount is the lesser of: <ol style="list-style-type: none">1. Tuition and fees reported on the Choice student's application at the Choice school; or2. 90% of the state-per-student tuition support funding allocation, based on the student's school corporation of residence. The second period Choice Scholarship award amounts are one-half of the period one Choice Scholarship award amounts.
5	Where can I review the Choice Scholarship award amounts?	The award amounts for each school corporation are available on IDOE's Choice Scholarship Program webpage .

		Because per student tuition support funding is calculated using data that is reported later in the school year, the initial award amount is an estimated amount that can increase, decrease, or remain the same when the final award amounts are calculated. Final award amounts will be posted on IDOE's Choice Scholarship Program webpage upon availability.
6	How will families be notified of the Choice Scholarship awarded to their child?	The school will print the award or denial letter following application submission. The initial award letter is an estimated award amount; actual award amounts are calculated using information that is not available until later in the school year. A letter with the final award amounts will be available to the Choice school when the public tuition support payment amounts are final. Families should retain copies of all forms and letters.
7	Can a parent/guardian of a student apply for a Choice Scholarship at multiple schools?	A student can only have one application for a given period. If a student Choice Scholarship application has been submitted and a parent/guardian wishes to apply at a different school, the parent/guardian must withdraw the application at the original Choice school, then they may submit an application at the preferred school.

Tuition and Fees

Number	Question	Answer
8	Can participating schools charge tuition and fees in addition to what is covered by the Choice Scholarship award?	Yes, the parent/guardian is responsible for any tuition and fees that the participating school charges beyond the Choice Scholarship award amount. A parent/guardian should carefully read any agreement signed at a participating school. A Choice school is not allowed to charge Choice Scholarship students additional fees and costs that are not routinely charged to non-Choice eligible students.
9	Will the Choice school receive additional funding if a student receives special education services?	The parent or guardian of an eligible special education student will designate either the Choice school or the public-school corporation as the special education service provider. If the Choice school is selected as the service provider during the first period, they will be eligible to receive the state special education funding allocated for that student. This funding is to be used to provide special education services for the eligible student. If the Choice school is selected as the service provider during the second application period, the Choice school will

10	What should be included in the tuition and fees policy for the Choice school application?	The tuition and fees policy should include descriptions and amounts for all tuition, fees, and discounts used by the applying Choice school. The policy must be finalized for the 2024-2025 school year prior to the submission of the school application. The policy and amounts must be applied uniformly among Choice and non-Choice students.
11	Can a Choice school receive a Curricular Material Assistance (TB) payment for a Choice student?	Yes, they can receive TB payments provided that the Choice student qualifies for the Free/Reduced Lunch Program, was selected to receive curricular materials assistance, and the cost of curricular materials is not included in the tuition and fees amount covered by the Choice Scholarship.

Attendance and Payment Process

Number	Question	Answer

For a second period Choice Scholarship, a complete application must be submitted for the student on or before Wednesday, January 15.
13	Can a student who has been withdrawn from their Choice school return to the same school later in the school year and continue to receive their scholarship award? Review the participating school's policies concerning student withdrawal and tuition payment, as individual school policies vary and may require that tuition and fee costs be paid for the full month for which the student withdraws, or even for the full semester. In accordance with the school's policy, the family may be responsible for any unpaid tuition resulting from the state's process of prorating payments.
16	How does the payment process work?	To receive a payment, a student must have: <ol style="list-style-type: none"> 1. An approved Choice Scholarship, 2. Current enrollment record, 3. Be included in the Choice school's Membership for Vouchers (MV) submission, and 4.
