

2022-2023 Formative (Interim) Assessment Grant Guidance

<https://www.in.gov/doe/students/assessment/formative-interim-assessment-grant/>

Vision and Purpose

Eliciting and analyzing evidence of student learning to guide classroom instruction at the individual student level results in increased academic success. Indiana's Formative (Interim) Assessment Grant provides funding to schools for approved formative (interim) assessment programs to increase data-driven instructional practices and enrich learning for all students.

Indiana Code

Monies set aside for the Formative (Interim) Assessment Grant are governed by [Indiana Code 20-32-5.1-17](#).

Eligibility

All Indiana public school corporations, charter schools, and accredited nonpublic schools (including choice schools) for students grades K-10 are eligible. Schools which successfully submit an application for funds will receive funds based on the funding allocation rules. This is not a competitive grant.

Allowable Uses of Funds

- Approved mathematics and/or English/language arts formative/interim/benchmark (or similar) assessment programs.
Note: Visit the Formative Assessment Grant website for the current list of approved assessment programs.
 - Approved programs must include interim/benchmark assessments to be provided to students at intervals throughout the year.
 - Approved programs must measure student achievement and/or growth on Indiana Academic Standards over the course of the year.
 - Approved programs at grades kindergarten through two may include assessments focusing on literacy and numeracy. These programs may include dyslexia screeners required by Indiana Code 20-35.5-2-2. Approved programs for the Formative Assessment Grant do not replace the full list of dyslexia screeners available for use; however, they expand the list of dyslexia screeners which are funded through this grant.
 - Approved programs at grades eight through ten may include assessments focusing on college-and-career readiness aligned to Indiana's selected college entrance exam.
- Professional development and implementation support for selected approved assessment programs offered through the selected (approved) assessment program vendor.

Funding Allocations

The State of Indiana allocates \$11,711,344.00 for the 2022-2023 Formative Assessment Grant. Funding is allocated per student, per assessment program (i.e., a student may receive funding for mathematics as well as for English/language arts). The distribution algorithms are described in Table 1.

Table 1: Funding Allocations

Allocation per Assessment	$\frac{\$11,711,344.00}{\text{Total Number of Assessments (Math + ELA)}}$
Allocation per Student	$(\text{Allocation per Assessment}) \times (\text{Number of Assessments})$ <i>Note: The number of assessments is limited to 1 or 2 (Math and/or ELA)</i>
Allocation per Corporation	<i>Sum of All Student Allocations</i>

The **estimated** allocation per student per assessment for school year 2022-2023 is \$6.25. Therefore, a student could receive \$6.25 for Mathematics and \$6.25 for English/language arts for a total of \$12.50 per student. The actual amount may be higher or lower based on the total number of participants. Indiana State Board of Education approval of allocations is required annually prior to distribution.

Local Contracts

Funds from this grant are distributed directly to corporations. Corporations and schools will enter into local contracts with assessment program vendors from the approved assessment program list. Corporations may choose to contract with and implement formative assessments prior to fund distribution; however, the corporation would be responsible for any costs incurred above the final distribution amount.

Flexibility

Corporations and schools determine details regarding the use of grant funds. Corporations may determine:

- What schools are participating
- What grade levels are participating
- What content areas (mathematics and/or English/language arts) are being assessed
- What assessment programs are being used for each school/grade level
- When the programs are in use (i.e., when to enter into the contract within the school year, when testing windows occur, etc.)

Data Sharing Agreements

The Indiana Department of Education will collect student-level data from each corporation's selected assessment vendor following each interim assessment window (as required in updates to [Indiana Code 20-32-5.1-17](#)). Corporations must sign an agreement for data collection in order to submit an application and receive funds. Assessment program vendors must enter into a data

sharing agreement with the Indiana Department of Education prior to receiving approval from the Indiana State Board of Education for use under this program.

Dyslexia Screener Waivers and Requests for Funding

Corporations and schools that request Formative Assessment Grant funds to implement required dyslexia screeners in grades kindergarten through two (as required by Indiana Code 20-35.5-2-2) may not seek a 1003 waiver from the dyslexia screener requirement. Corporations and schools that previously requested a 1003 waiver from the dyslexia screener requirement may not request Formative Assessment Grant Funds for grades kindergarten through two with the intent to purchase a dyslexia screener.
