An Update From the Indiana Department of Education for April 5, 2024

Indiana Department of Education sent this bulletin at 04/05/2024 07:00 AM EDT

Indiana Department of Education

Dr. Katie Jenner, Secretary of Education

A Message from Dr. Katie Jenner

Last week, we took a giant step forward in the conversation regarding how we must [make the high school experience more flexible and relevant for students](#). In the coming weeks, I look forward to sharing some examples from across Indiana where several schools are already making big strides to increase the impactful opportunities for their students, including increased access to quality work-based learning and credentials of value (educational attainment). However, *today*, I'd like to call out something we've been planning for and talking about for months...the **ECLIPSE!**

While the weather is still being closely monitored, we know one thing for sure...depending on where you are in our state, sometime on Monday afternoon the moon will block the sun causing a clear view of a total eclipse right over many parts of Indiana. While our schools have been planning for awhile, I hope you also have a personal viewing plan. Speaking to the DNR Commissioner, he advised trying to get around nature (to hear the animals and insects shift into nighttime mode for a few short minutes in the middle of the day). My family plans to watch it together with neighbors in rural Indiana (around a lot of farms, fields, and nature). The main thing is to have a game plan...and use your specialized, protective glasses if you look directly at the eclipse!

Whether you're in school or eLearning, don't forget that there are eclipse resources ready to go and available to help you maximize this STEM learning opportunity. Below are links we have shared previously but wanted to be sure you have them handy for Monday:

- Created in partnership with NASA, the [2024 Total Solar Eclipse collection](#) in the Indiana Learning Lab has resources for elementary, middle, and high school audiences.
 - There are also four professional development sessions, offered in partnership with [Nextech](#), focused on high-quality instruction and eclipse learning opportunities aligned to Indiana's Academic Standards.
- IDOE's [Eclipse webpage](#) contains additional NASA resources, including links to [eye safety guidelines](#) to help you and your students view the eclipse safely.
- Additional resources and information can be found from our state agency partners including:
 - [The Indiana Department of Homeland Security](#)
 - [The Indiana Department of Natural Resources](#), and
 - [Visit Indiana](#)

And last, but certainly not least, I cannot close out today's message without a shout out to the **Indiana State Sycamores**, who were such a fun team to support and watch this season. In a tough fought battle last night, they were runner-up in the NIT Championship game and represented our state well. Also, best of luck to the **Purdue Boilermakers** who will play in the final four tomorrow night. I will absolutely be one of thousands tuned in and cheering you on!

Have a great weekend, and thank you for all you do for Indiana students!

Reminders for the Class of 2024

Armed Services Vocational Aptitude Battery (ASVAB) Graduation Pathway Requirements

Pursuant to Indiana Code (IC) 20-32-4-1.5, the Indiana State Board of Education (SBOE) established the use of the ASVAB to meet graduation pathway requirements. Beginning with the 2025 graduation cohort, HEA 1635 requires students electing to use the ASVAB as a means for meeting graduation pathway requirements to also fill out the [Military Enlistment Intent Form](#). Students graduating in the 2023 and 2024 cohorts who have earned a qualifying ASVAB score, as determined by SBOE, prior to July 1, 2023, will be able to utilize previously earned ASVAB scores without a signed Military Enlistment Intent Form to fulfill their graduation pathway requirements. Learn more [here](#). Contact IDOE's [Student Pathways team](#) with any questions.

Graduation Waiver Caps

As outlined in [Indiana Code \(IC\) 20-26-13-10](#), for purposes of calculating the [2024 graduation rate](#), Indiana schools may not count more than 9% of their graduation cohort as graduating if utilizing postsecondary ready competency waivers. Schools exceeding the 9% cap will receive an adjusted state graduation rate. Postsecondary ready competency graduation waivers will be capped at 6% for the 2025 cohort and 3% for the 2026 cohort and beyond. In December, schools received a letter with their 2023 graduation rates along their post-secondary competency waiver rates. The letter provided a breakdown of how the 9% cap would impact their graduation rate, which should be considered when helping the class of 2024 meet their graduation requirements. Contact IDOE's [Office of Student Pathways and Opportunities](#) with questions regarding postsecondary ready competency qualifications, or [Office of Accountability](#) with questions regarding the calculation of the graduation rate or the cohort report.
