## Indiana K-12 State Tuition Support

School funding follows a statutory formula created and revised by the Indiana General Assembly as part of the biennium budget process, outlined in [Indiana Code \(IC\) 20-43](#). State Tuition Support distributions are made to school corporations based on these statutory school funding calculations. This report provides an overview of the State Tuition Support formula from fiscal years 2023 to 2025.

References made to the term “school corporation” in state statute do not ordinarily include charter schools; however, with regard to state tuition support, [IC 20-43-1-23](#) defines the term “school corporation” to encompass both charter schools and any local public school corporation established under Indiana law. For the purposes of this report, any references made to school corporations will reflect the definition found on IC 20-43-1-23 and will therefore include charter schools unless explicitly noted otherwise.

### Appropriation

As outlined in [IC 20-43-2](#), the maximum amount of tuition support allowed to be distributed by the Indiana Department of Education (IDOE) is the amount appropriated by the General Assembly to be used on tuition support for any given year. If IDOE distributes less than the appropriation, the excess amount is returned to the state general fund. If tuition support distributions are calculated to exceed the amount appropriated by the General Assembly, the State Budget Agency may transfer enough money from the tuition reserve account to the state general fund to cover the difference, up to \$25 million.

The State Tuition Support appropriation supports three different programs:

- 1) State Tuition Support
- 2) Choice Scholarship program
- 3) The Mitch Daniels Early Graduation Scholarship program

The school funding formula only applies to State Tuition Support while the other two programs operate under different parameters. For the purposes of this report, mentions made regarding the school funding formula will only apply to State Tuition Support.

Table 1 below shows the State Tuition Support appropriations for fiscal years 2023 to 2025.

Table 1: State Tuition Support Appropriations		
FY2023	FY2024	FY2025
\$8,200,000,000	\$8,840,000,000	\$9,030,000,000

Table 2 below shows the actual State Tuition Support distributions broken down by grant, Choice Scholarship, and Mitch Daniels Early Graduation Scholarship from fiscal years 2023 to 2025.

State Tuition Support/Scholarship	FY2023	FY2024	FY2025
Basic Grant	\$6,934,365,977	\$7,292,244,947	\$7,384,689,785
Honors Diploma Grant	\$29,143,700	N/A	N/A
Academic Performance Grant	N/A	\$57,247,840	\$43,906,440
Special Education Grant	\$703,736,686	\$766,507,555	\$840,390,835
Career and Technical Grant	\$179,211,060	\$195,978,505	\$218,339,785
Non-English Speaking Program Grant	N/A	\$39,869,996	\$44,929,594
Subtotal: State Tuition Support	\$7,846,457,423	\$8,351,848,843	\$8,532,256,439
Choice Scholarships	\$311,814,032	\$439,051,454	\$497,195,861
Mitch Daniels Early Graduation Scholarship	\$656,000	\$-387,960 <sup>1</sup>	\$624,000
Grand Total	\$8,158,927,455	\$8,790,512,337	\$9,030,076,300 <sup>2</sup>

Table 3 below shows State Tuition Support distribution percentages, broken down by grant, Choice Scholarship, and Mitch Daniels Early Graduation Scholarship from fiscal years 2023 to 2025.

State Tuition Support/Scholarship	FY2023	FY2024	FY2025
Basic Grant	84.99%	82.96%	81.78%
Honors Diploma Grant	0.36%	N/A	N/A
Academic Performance Grant	N/A	0.65%	0.48%
Special Education Grant	8.63%	8.72%	9.31%
Career and Technical Grant	2.20%	2.23%	2.42%
Non-English Speaking Program Grant	N/A	0.45%	0.50%
Subtotal: State Tuition Support	96.17%	95.01%	94.49%
Choice Scholarships	3.82%	4.99%	5.50%

<sup>1</sup> This amount was negative due to a reconciliation of prior years.

<sup>2</sup> Due to current year choice refunds and other current year adjustments, the fiscal year 2025 appropriation was not actually exceeded.

State Tuition Support/Scholarship	FY2023	FY2024	FY2025
Mitch Daniels Early Graduation Scholarship	0.01%	0.00%	0.01%
	100.00%	100.00%	100.00%

*Appendices B through D provide a breakdown of the State Tuition Support totals by school corporation from fiscal years 2023 to 2025.*

## State Tuition Support Funding

[Indiana Code 20-43-2-1](#) requires IDOE to distribute State Tuition Support funds on a schedule that provides at least 12 payments annually with one payment made at least every 40 days. The payment schedule is set annually by the State Budget Agency and the Governor’s office.

Prior to fiscal year 2024, there were four grants: Basic Grant, Honors Diploma Grant, Special Education Grant, and the Career and Technical Grant. As of the 2024 fiscal year, the Honors Grant was replaced by the Academic Performance Grant and expanded to include incentives for schools whose graduates earn dual credit, the Indiana College Core, or an Associates Degree. In addition, the Career and Technical Education Grant was expanded to incentivize schools whose students earn an industry credential. Lastly, the new Non-English Speaking Program Grant provides funding for those students for whom English is not the primary language. The basic calculations for the Basic Grant and Special Education Grant were unchanged from the previous biennium.

In fiscal year 2024, five types of schools were funded through the tuition support formula: (1) traditional public schools, (2) charter schools, (3) virtual charter schools, (4) innovation network schools, and (5) innovation network charter schools.

IDOE directly distributes State Tuition Support funding to traditional public schools, charter schools, and virtual charter schools. Alternatively, State Tuition Support funding for the innovation network schools and the innovation network charter schools is distributed to the associated traditional public school corporations who then distribute the funding. Likewise, the students for these schools are incorporated into the funding formula for the traditional public school corporation that is distributing their funds for all but two of the innovation network charter schools. For purposes of this report, the funding for innovation network schools and innovation network charter schools are not reported separately but instead included in the funding of the public school corporation to which they belong, unless the calculations for the school were performed separately as part of the school funding formula.

## **Average Daily Membership (ADM)**

The school funding formula uses ADM to determine Basic Grant funding. ADM is a count of all kindergarten to grade 12 students who are enrolled and expected to attend an Indiana school corporation. Kindergarten students participating in a full-day kindergarten program count as a full ADM, while kindergarten students who were not participating in a full-day kindergarten program count as one-half student for ADM purposes.

Although similar to ADM in that it is a count of students being taught at a particular school corporation, the use and methodology between the October 1 Certified Pupil Enrollment Data (PE) count and the Fall/Spring ADM are different. For example, PE is the official federal count while the ADM is the official state count.

For funding purposes, the ADM count is taken twice a year. Beginning in fiscal year 2024, the first count date moved from the second Friday after Labor Day in September to October 1 or the next business day, as established by the State Board of Education and reflected in the Board's rule which can be found in 511 IAC 1-3-1. This count day is referred to as the "fall" count. The second ADM count is taken in February and is referred to as the "spring" count.

The school funding formula for fiscal year 2025 used both the spring and fall counts to determine Basic Grant funding. The fall membership count is used to calculate the Basic Grant funding for July to December while the spring membership count is used to calculate the Basic Grant funding for January to June.

The ADM is the sum of the following ADM types:

### **Resident Enrollment**

- Resident enrollees are students with legal settlement in the school corporation and who are enrolled in and attending the same school corporation. Foreign exchange students who resided in and attended the school corporation were also considered for resident enrollment. This does not include foreign exchange students enrolled and attending with an F-1 Visa. For charter schools, resident enrollment includes Indiana students who are enrolled in and attending an individual charter school, regardless of legal settlement.

### **Transfers Out**

- Students are considered a Transfer Out if they have legal settlement in a school corporation but are enrolled in and attending a different school corporation. This term does not apply to charter schools. To be considered a Transfer Out, students must be attending a school corporation outside of their legal settlement for at least one of the following reasons:
  - There is an agreement between the corporation of legal settlement and the servicing corporation.

- o There is a “better accommodation” student transfer agreement under [Indiana Code 20-26-11-5](#) between the corporation of legal settlement and the student’s parent(s).
- o There is a “better accommodation” order by the State Board of Education.
- o Students are attending a special education or vocational education cooperative located outside of the student’s school corporation of legal settlement for the purposes of best meeting the educational interests of the student.
- o Students are placed in a school district by a parent under [Indiana Code 20-26-11-8\(b\)](#).
- o Students are placed in a school corporation by a physician under [Indiana Code 20-26-11-11.5](#).

### **Cash Transfers**

- Students are considered a Cash Transfer if they have legal settlement in a school corporation but are enrolled in and attending a different school corporation based upon an agreement between the parent(s) and the enrolling school corporation. Students are cash transfers regardless of whether the parent(s) paid tuition to the enrolling school corporation. This term does not apply to charter schools.

### **State Obligations**

- Students are considered a State Obligation if they are enrolled in and attending a school corporation as a result of one of the following state actions:
  - o State placement into an institution located within the school corporation that is operated by the Division of Mental Health and Addiction or the Division of Disability, Aging, and Rehabilitative Services.
  - o State placement by either of the above agencies into an institution, a home, a group home, a public or private facility, or an alternative family setting within the school corporation.
  - o Students enrolled and attending the school corporation and who are children of state employees living on state property.

### **Placements In**

- Students are considered a Placement In if they are enrolled and attending school in a school corporation as a result of a placement by an Indiana county welfare office, state court, state licensed child-placing agency, or by a parent or guardian in a state licensed private or public health facility, childcare facility, or foster home that is located within the school corporation. Their placement in the corporation is for non-educational reasons. This term does not apply to charter schools.

### **Dual Enrollment**

- Students are considered Dual Enrollment if they are enrolled full time as a home school or non-public student but also enrolled in a charter school or the school corporation of legal settlement for less than 50 percent of the day. Dual Enrollment students are counted on a full-time equivalency basis depending on the number of instructional periods in a day that the student was taught by the school corporation.

The State Tuition Support formula is set by law, but the grant amounts distributed to a school corporation varies based on that school corporation’s data. Since current data is often collected the same year of the tuition support distribution, estimated data is used until current data becomes available. As actual data becomes available, IDOE adjusts the grant distributions so that the amount the school corporation receives is the same amount that would have been received if the actual data had been available immediately. This reconciliation process occurs periodically throughout the school year as new current year student data is collected. For fiscal year 2025, IDOE recalculated and reconciled Basic and Complexity related funding in November and April, special education funding in February, Career and Technical Education in December, and Academic Performance grant funding in January. For all fiscal years, the statewide distribution of funds is required to fit within the tuition support appropriation.

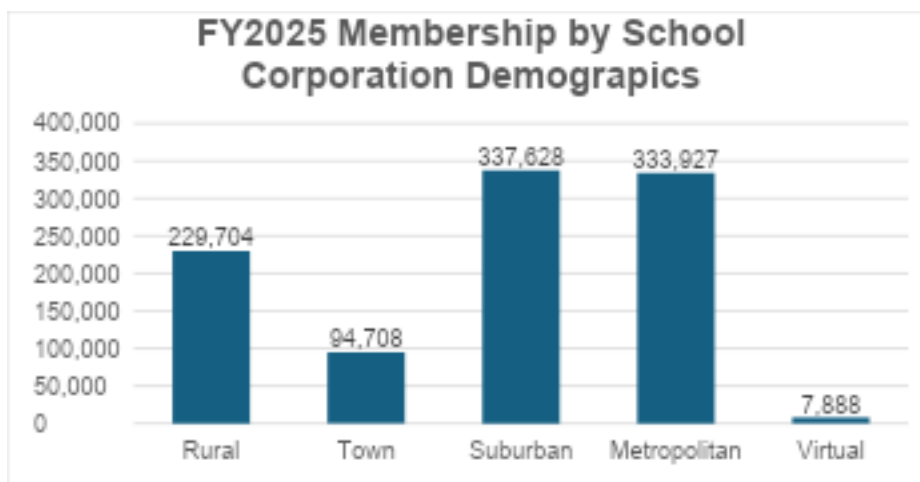

Table 4 below shows statewide membership counts for fiscal years 2023 to 2025.

<b>Table 4: Average Daily Membership (ADM) Totals</b>			
	<b>FY2023</b>	<b>FY2024</b>	<b>FY2025</b>
School Corporation Fall ADM	1,008,088	1,005,844	1,006,476
School Corporation Spring ADM	1,002,086	1,001,913	1,001,232
School Corporation Average ADM	1,005,087	1,003,878	1,003,854

The following chart shows statewide average membership counts for fiscal years 2023 to 2025.

<b>Table 5: Average Daily Membership (ADM) Totals by School Type</b>			
	<b>FY2023</b>	<b>FY2024</b>	<b>FY2025</b>
Virtual Charter	7,505	7,418	8,334
Brick and Mortar Charter	29,535	30,437	30,857
Traditional	968,048	966,024	964,663

The following chart shows the statewide membership counts by Metropolitan, Suburban, Rural, Town, and Virtual Charter, as traditionally defined by IDOE for fiscal year 2025.

*Appendix A provides a breakdown of the statewide totals for membership by school corporation from fiscal years 2023 through 2025.*

### State Tuition Support Grants

State Tuition Support currently distributes funds from five grants: the Basic Grant, the Academic Performance Grant, the Special Education Grant, the Career and Technical Education Grant, and the Non-English Speaking Grant. School Corporations deposit the State Tuition Support grants into their Education Fund.

#### Basic Grant

The Basic Grant is composed of two primary calculations including a foundation component and a complexity component.

#### Foundation Component

The foundation component is the basis of the State Tuition Support formula and is calculated by multiplying a fiscal year’s foundation amount by a school corporation’s ADM. Currently, both the fall and spring counts are used to calculate the Basic Grant. Beginning in fiscal year 2020, schools now receive 85% of the foundation amount for virtual students. All nonvirtual students continue to receive the full foundation amount.

Table 6 below shows the foundation amount for fiscal years 2023 to 2025.

Table 6: Foundation Amounts		
FY2023	FY2024	FY2025
\$6,235	\$6,590	\$6,681

## Complexity Component

Complexity related funding is intended to be used to assist students who may need additional services to maximize their learning potential. Historically, complexity funding has been determined in many different ways. For fiscal year 2025, complexity funding is determined by the percentage of students enrolled in a school corporation who receive Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), or who received foster care services. This percentage is known as the Complexity Index and is multiplied by a complexity multiplier to calculate the complexity amount a school corporation can expect to receive per student. In fiscal year 2025, the complexity multiplier was \$4,024.

Beginning in fiscal year 2022, a school corporation that includes innovation network charter schools has a separate calculation of the complexity index. The specific calculations for fiscal year 2025 are shown in Appendix E.

IDOE receives snapshot data for complexity qualifying students from the Indiana Family and Social Services Administration and from the Indiana Department of Child Services once every two years, on October 1. This coincides with the Certified Pupil Enrollment Data (PE) count day which occurs annually on October 1 and counts all pre-kindergarten to grade 12 students. When calculating the complexity formula however, the school formula only uses the count data from every other PE count to reflect the date in which IDOE receives snapshot data on complexity qualifying students who participate in SNAP, TANF, or receive foster care services. In addition, the pre-kindergarten students and students in grades higher than 12 are removed.

The Table below shows a breakdown of which count dates are used in complexity formula calculations from fiscal years 2023 to 2025.

Complexity Formula Calculation Count Dates		
Fiscal Year	Pupil Enrollment Count Date	Complexity Snapshot Date
FY 23 Complexity Formula	October 1st, 2020	October 1st, 2020
FY 24 Complexity Formula	October 1st, 2022	October 1st, 2022
FY 25 Complexity Formula	October 1st, 2022	October 1st, 2022

The Complexity component can be found in [Indiana Code 20-43-13](#) and the funding formula can be summarized by the equation below:

$$(Complexity\ Index * Complexity\ Multiplier) * ADM = Complexity\ Component$$

The first step in calculating the complexity formula is to find a school corporation's "Complexity Index," which is the percentage of complexity qualifying students being served at a school corporation. The complexity index is the result of totaling the number of complexity qualifying students at a school corporation according to its complexity snapshot and dividing it by the total number of K-12 students enrolled at a school corporation according to its PE count. See below:

$$\frac{\text{Number of students who receive SNAP, TANF, or Foster Care}}{\text{Pupil Enrollment}} = \text{Complexity Index}$$

A complexity multiplier is then applied to a school corporation’s complexity index to calculate the amount of complexity funding a school corporation would receive per student. This is then multiplied by a school corporation’s ADM to calculate the total amount of complexity funding a school corporation will receive.

Table 7 below shows the complexity multipliers from fiscal years 2023 to 2025.

Fiscal Year	Complexity Multiplier
FY 23 Complexity Formula	\$3,775.00
FY 24 Complexity Formula	\$3,983.00
FY 25 Complexity Formula	\$4,024.00

In the following tables, school corporations were categorized as “High Complexity,” “Mid Complexity,” and “Low Complexity” based on their complexity index. School corporations were divided into four equal parts. The first part/quartile was made up of the school corporations that were within the top 25 percent of the highest complexity indexes and were labeled “High Complexity.” The middle two parts/quartiles, i.e., the middle 50 percent, were combined and labeled as “Mid Complexity.” The school corporations with the lowest 25 percent of complexity indexes were labeled “Low Complexity.”

Tables 8 and 9 below show the basic grant distribution by complexity and the basic grant per average ADM by complexity.

Complexity	No. of Corps	FY2025 Basic Grant
High Complexity	94	\$2,133,321,340
Mid Complexity	186	\$3,140,503,439
Low Complexity	94	\$2,110,865,006
<b>Total</b>	<b>374</b>	<b>\$7,384,689,785</b>

Complexity	No. of Corps	FY2025 Avg ADM	FY2025 Basic Grant per Avg ADM
High Complexity	94	269,399	\$7,919
Mid Complexity	186	430,159	\$7,301
Low Complexity	94	304,296	\$6,937
<b>Total</b>	<b>374</b>	<b>1,003,854</b>	<b>\$7,356</b>

IDOE reconciled the Basic Grant in November 2024 for the fall count and in April 2025 for the spring count. Specific data collection requirements for membership counts were provided in the DOE-ME Membership Report layout.

Table 10 below shows the statewide Basic Grant distribution amounts for fiscal years 2023 to 2025.

Table 10: Basic Grant Totals		
FY2023	FY2024	FY2025
\$6,934,365,977	\$7,292,244,947	\$7,384,689,785

Tables 11 and 12 below show the statewide funding and the funding per student for the Basic Grant by school type for fiscal year 2025.

Table 11: FY 2025 Basic Grant by School Type		
School Type	No. of Corps	FY 2025 Basic Grant
Traditional Public	290	\$7,080,992,648
Charter	80	\$249,979,988
Virtual Charter	4	\$53,717,149
<b>Total</b>	<b>374</b>	<b>\$7,384,689,785</b>

Table 12: FY 2025 Basic Grant per Avg ADM by School Type		
School Type	No. of Corps	FY 2025 Basic Grant per Average ADM
Traditional Public	290	\$7,340
Charter	80	\$8,101
Virtual Charter	4	\$6,445
<b>Total</b>	<b>374</b>	<b>\$7,356</b>

## Academic Performance Grant

Beginning in FY 2024, the Honors grant was expanded and renamed the Academic Performance Grant. The grant has five components: honors, mid-year graduate, Dual Credit/dual enrollment, associate degree, and the Indiana College Core (ICC). In FY 2025, a school corporation or charter school will receive the aggregate of each of the single largest amounts determined for each student under those five categories. The total APG distribution for FY 2025 was \$43,906,440.

### Honors

[Indiana Code 20-43-10.5-3\(c\)](#) limits the use of honors diploma award monies for: (1) staff training, program development, equipment and supply expenditures, or other expenses related to the school's honors diploma program; or (2) programs for high ability students. The honors

diploma amount is based on the number of students who received an academic honors diploma or a Core 40 diploma with Technical Honors. These grants are amplified if the student who received an Academic Honors diploma or a Core 40 diploma with Technical Honors participated in SNAP, TANF, or received foster care services.

IDOE reconciled the Honors amount in December based on students who graduated with a Core 40 with Technical Honors or Academic Honors diploma in the prior school year. Specific data collection requirements are found in the DOE-GR Graduate Report layout.

Each school corporation is eligible to receive \$1,100 for each student who received an academic honors diploma or diploma with technical honors in school year 2023-2024 for FY 2025. Additionally, the formula generates \$1,500 for a student who received an academic honors diploma or a technical honors diploma and who also received SNAP, TANF, or foster care assistance.

### Mid-year graduate

The mid-year graduate component is based on a student's expected graduation year (as defined in IC 20-26-13-4) for the 2023-2024 school year in FY 2025 and meets the following criteria:

- The student was enrolled in the school corporation on the fall ADM count day;
- The student successfully completed Indiana high school graduation requirements before the February count day; and
- The student was not enrolled in the school corporation on the February count day.

The grant amount is \$1,500 per student.

### Dual Credit/Dual Enrollment

The dual credit/dual enrollment component is based on a student who was enrolled in the school corporation in the state fiscal year before the immediately preceding state fiscal year and who successfully completed a dual credit or dual enrollment course. The school year 2022-2023 data was used for FY 2025. The funding for dual credit/dual enrollment is \$40 per credit hour and has a cap of \$1,200 per student.

### Indiana College Core

The ICC component is based on a student who was enrolled in the school corporation in the state fiscal year before the immediately preceding state fiscal year and successfully completed ICC. The school year 2022-2023 data was used for FY 2025. The amount awarded is \$1,500 for a qualifying student.

IDOE reconciles academic performance funding by increasing/decreasing the remaining distributions when final counts are known.

### Associate Degree

The associate degree component is based on a student who was enrolled in the school corporation in the fiscal year before the immediately preceding state fiscal year and successfully completed the requirements for an associate degree, including those earned through a junior pathway transfer. The school year 2022-2023 data was used for FY 2025. The amount awarded is \$2,500 for a qualifying student.

### Special Education Grant

The Special Education Grant provides additional funding to school corporations based on the number of special education students they serve. Twice a year, public school corporations report information on students with an Individualized Education Program (IEP) and non-public schools report information on students with an Individual Service Plan (ISP). The first collection of data occurs on December 1 and is used for funding purposes when calculating the Special Education Grant distributions. The second collection of data is in April and provides an updated count summary that is sent to the State Budget Committee as required by law.

IDOE reconciles the Special Education Grant in February based on the number of students and type of exceptionality reported in December. The reconciliation schedule, set by law, adjusts the February payment for any underpayment of special education funds. For an overpayment of special education funds, IDOE adjusts the February through May special education grant payments. Specific data collection requirements can be found in [Data Exchange Knowledge Hub](#).

Table 13 below shows the amounts distributed for the Special Education Grant for fiscal years 2023 to 2025.

Table 13: Special Education Grant Totals		
FY2023	FY2024	FY2025
\$703,736,686	\$766,507,555	\$840,390,835

Table 14 below shows the distribution breakdowns for the Special Education Grant for fiscal years 2023 to 2025.

Table 14: Fiscal Years 2023-2025 Special Education Grant Distribution Breakdown			
Qualification	FY 2023	FY 2024	FY 2025
Students in severe disabilities programs	\$10,575	\$11,104	\$11,659
Students in mild and moderate disabilities programs	\$2,657	\$2,790	\$2,930

Qualification	FY 2023	FY 2024	FY 2025
Students in communication disorders or homebound programs	\$500	\$525	\$551
Students in special education preschool programs	\$3,465	\$3,638	\$3,820

## Career and Technical Education Grant

The Career and Technical Education (CTE) Grant provides additional funding for career and technical education courses. Grant amounts are based on the number of students, number of credit hours, and the rating given to the courses. In fiscal year 2021, the course ratings were expanded from the three categories into six by adding level 1 and level 2 to each of the three categories.

IDOE reconciled the Career and Technical Education Grant in December for any over or underpayment of funds. Information concerning the collection of career and technical education data was based on guidance provided by staff in the Commission for Higher Education.

Beginning in FY 2024, a second component titled the Credential Completion Grant was added to the Career and Technical Education Grant. The Credential Completion Grant is a \$500 grant that applies to a student who has legal settlement in Indiana, is at least age five and less than 22 years of age and is enrolled in grade 10, 11, or 12, and meets one of the following requirements:

1. The student successfully completed a modern youth apprenticeship or course sequence designated and approved under state law (IC 20-51.4-4.5-6(a)) and received an industry recognized credential regarding the apprenticeship or course sequence.
2. The student successfully completed any other credential approved by the department.

State law requires IDOE to award the same grant to the Career Scholarship Account participating entity that provided the apprenticeship or course sequence described above that the student completed. The Credential Completion Grant has a spending cap of five million dollars.

IDOE reconciled the Credential Completion Grant in June using actual counts when they became available.

Table 15 below shows the amounts distributed for the Career and Technical Education Grant for fiscal years 2023 to 2025.

FY2023	FY2024	FY2025
\$179,211,060	\$195,978,505	\$218,339,785

Table 16 below shows the distribution breakdowns for the Career and Technical Education Grant for fiscal years 2023 to 2025.

Program Classification	FY 2023	FY 2024-FY 2025
Introductory CTE course	\$300.00	\$300.00
Area participation count	\$150.00	\$150.00
Planning for College and Career Course	\$150.00	\$150.00
Apprenticeship Program	\$500.00	\$500.00
Work based learning Course	\$500.00	\$500.00
Less than moderate value level 2 program	\$300.00	\$300.00
Less than moderate value level 1 program	\$200.00	\$200.00
Moderate value level 2 program	\$600.00	\$600.00
Moderate value level 1 program	\$400.00	\$400.00
High value level 2 program	\$1,020.00	\$1,071.00
High value level 1 program	\$680.00	\$714.00

## Non-English Speaking Program

Beginning in FY 2024, the Non-English Speaking Program was added to the state tuition support formula. This funding includes an allotment of \$550 per EL student in the public school corporation who received a Level 1 or 2 overall proficiency on the WIDA ACCESS or participated in the Alternate ACCESS for ELs with significant disabilities. It then includes \$384 per EL student who received a Level 3 or 4 overall proficiency, or who received a Level 5 on the Tier A form, on WIDA ACCESS. This funding is allocated on a per-pupil basis in accordance with each public school corporation's reported EL student count, reflected in the annual Multilingual Learner data collection in Data Exchange.

For FY 2025, the distribution of the Non-English Speaking Grant began in July based on estimated counts using the previous year counts, and was reconciled in December based on current year counts. The total Non-English Speaking Program distribution for fiscal year 2025 was \$44,929,594.

## State Tuition Support Adjustments

State Tuition Support is the sum of all the previously described grants including the Basic Grant, the Honors Diploma Grant through 2023, the Academic Performance Grant beginning in fiscal year 2024, the Special Education Grant, the Career and Technical Education Grant, and the

Non-English Speaking Program Grant beginning in fiscal year 2024. The amount of State Tuition Support a school corporation receives will vary depending on a school corporation's school funding formula results. Despite what the school funding formula may calculate, the actual State Tuition Support distribution received by school corporations is still subject to adjustments.

## Calculated State Tuition Support Amounts Exceeding the Amount Appropriated by the State Legislature

Per [Indiana Code 20-43](#), the maximum amount of State Tuition Support allowed to be distributed by IDOE is the amount appropriated by the General Assembly to be used on State Tuition Support for any given year. Under [Indiana Code 20-43-2-1](#), if IDOE distributes less than what was appropriated by the General Assembly, the excess amount returns to the state general fund. If the State Tuition Support distributions are calculated to exceed the amount appropriated by the General Assembly however, [Indiana Code 20-43-2-2](#) allows the State Budget Agency to transfer enough money from the tuition reserve account to the state general fund to cover the difference, up to \$25 million.

In the event that the amount appropriated to be used for State Tuition Support plus the amount transferred by the State Budget Agency is still less than the amount calculated to be distributed as State Tuition Support, IDOE will proportionately reduce the monthly State Tuition Support payments made to school corporations so that the total reductions equal the amount of the excess.

The proportionately reduced amount is determined by a formula found in [Indiana Code 20-43-2-4](#) as illustrated below:

$$\text{Excess Tuition Support} \times \left( \frac{\text{Calculated Tuition Support for the School Corporation}}{\text{Calculated Tuition Support for All Corporations}} \right)$$

$$= \text{Amount to reduce Corporation's Tuition Support}$$

## State Tuition Support for Certain Students

Per [Indiana Code 20-26-11-31](#), adjustments are applied in cases in which a non-public alternative school enters into a contract with another school corporation to provide alternative education services for qualifying students. In these instances, a qualifying student is a student who had:

- 1) Dropped out of high school;
- 2) Been expelled; or
- 3) Been sent to the non-public alternative school due to the student's lack of success in the public school environment.

In applicable cases, the non-public alternative school would receive whichever distribution is higher between the State Tuition Support that would have been received by the school

corporation where the student legally resides or the State Tuition Support that would have been received by the school corporation where the student is enrolled for ADM purposes.

## Other Adjustments

School corporations are also subject to “other adjustments,” which can further alter the actual State Tuition Support distribution a school corporation actually receives. Other adjustments are adjustments made to the gross State Tuition Support payments made to a school corporation on a monthly basis. Other adjustments can increase or decrease a school corporation’s actual payment. Other adjustments are specific to a school corporation based on the type of adjustment. Although not every school corporation will have an adjusted payment, general adjustment types include:

- 1) Repayment of common school or veteran loans;
- 2) Medicaid recovery;
- 3) Adjustments to correct incorrect data; or
- 4) Other statutorily or contractually required adjustments.

## Additional Information

Every biennium budget session, the State Tuition Support formula is updated and the Indiana General Assembly appropriates funds for the ensuing two fiscal years. The Office of School Finance will annually update this report to reflect actual spending based on the preceding fiscal year’s formula output as a result of legislative changes. Because it provides the primary operating revenue for school corporations, the State Tuition Support formula provides the school governing body the majority of its operating funds to implement the programs and services it feels provide the greatest benefit to students.

Data used in this report was pulled from the State Aid Application Center. For additional information related to State Tuition Support and other school finance topics, refer to IDOE’s [Finance webpage](#). Contact IDOE’s [Office of School Finance](#) with any questions regarding this report.
