The Indiana Department of Education (IDOE) completed a research-based methodology to recommend the following performance level cut scores for the ILEARN assessment. Over 100 educators collaborated across nine grade-level committee groups to formalize these recommendations based on the content and rigor defined in the Indiana Academic Standards. Additionally, IDOE convened a policy committee from the initiation of the ILEARN work to review and inform larger perspectives. The policy committee supported the following recommendations from the educator panel.

The Indiana State Board of Education approved as final the educators' cut score recommendations on July 25, 2019:
