DATA COLLECTION

Local education agency (LEA) enters least restrictive environment (LRE)/ placement code into student information system (SIS).

Part of the data submitted in the Special Education (SE) data collection.

Data from SIS is submitted/verified through Data Exchange (DEX).

- Moodle Data Exchange Community: moodle.doe.in.gov

Indiana Department of Education's Office of Special Education completes data analysis.

RDA CALCULATION

For RDA, only 5A is included in the scored results indicators.

The calculator includes all children age five and in kindergarten as well as children ages six through 22.

Children with service plans are excluded from the RDA calculation.

Indicator 5A:

$$\frac{\text{Number in Regular Classroom (Code 50)}}{\text{Total Children with IEPs}}$$

INDICATOR 5: RDA SCORING FIRST STAGE

Each LEA with 10 or more students in a category is scored. If less than 10 students are in a category a score of N/A is awarded. Only schools that meet the N-size of ten are included in the population of calculation of quintiles within each group, which forms the basis for scoring.

Five Separate Enrollment Groups	
Quintile	Score
Top 20% of LEAs	5
Next 20%	4
Next 20%	3
Next 20%	2
Bottom 20%	1

To learn more about State LRE Targets go to the OSE webpage and view the Indicator 5 Monitoring and Compliance guide in the Policies and Procedures tab.

INDICATOR 5: RDA SCORING SECOND STAGE

For corporations meeting **state target only**:

Corporations meeting the state target for LRE will receive a score of 4 or 5. Corporations in the lower half of each size group meeting the state target will receive a 4, while those in the upper half of each size group will receive a 5.
