Digest of Public School Finance

2023-2025 Biennium

Indiana Department of Education

100 N. Senate Ave.

Indianapolis, IN 46204

**Indiana Department of Education
Dr. Katie Jenner, Secretary of Education**

Policy Notification Statement

It is the policy of the Indiana Department of Education (IDOE) not to discriminate on the basis of race, color, religion, sex, national origin, age, or disability, in its programs, activities, or employment policies as required by the Indiana Civil Rights Law (I.C. 22-9-1), Title VI and VII (Civil Rights Act of 1964), the Equal Pay Act of 1973, Title IX (Educational Amendments), Section 504 (Rehabilitation Act of 1973), and the Americans with Disabilities Act (42 USCS § 12101, *et. seq.*).

Inquiries regarding compliance by IDOE with Title IX and other civil rights laws may be directed to the Human Resources Director, Indiana Department of Education, 110 North Senate Avenue, Indiana Government Center North, 9th Floor, Indianapolis, IN 46204-2798, or the Director of the Office for Civil Rights, U.S. Department of Education, 111 North Canal Street, Suite 1053, Chicago, IL 60606-7204.

PREFACE

This overview is designed to serve as a reference for public school finance in Indiana. Included are descriptions, appropriations, and participation requirements for the various state grants and distributions available to public schools and in some instances accredited non-public schools authorized by the Indiana General Assembly. These grants and distributions are in effect for the 2023-2025 biennium. Along with state monies, Indiana public schools are supported by certain local revenues. A description of property tax administration, as related to public school finance, is also presented.

Many of the programs presented in this publication may be found on [IDOE's website](#). Additionally, information pertaining to property taxes and school budgets may be found on the [Department of Local Government Finance website](#). Information pertaining to school accounting may be found on the [State Board of Accounts website](#). To find Indiana Code cites referenced throughout the document, please visit <https://iga.in.gov>.

Additional inquiries should be directed to the Office of School Finance, 110 North Senate Avenue, Indiana Government Center North, 9th Floor, Indianapolis, IN 46204-2798. The telephone number is 317-232-0841.

SOURCES OF LOCAL PUBLIC SCHOOL CORPORATION SUPPORT

Important note: The guidance below is intended to serve as an informative digest for school corporations. It is not a substitute for the law. In cases where this guidance and statute differ, statute controls.

Practically all Indiana public school revenues are derived directly or indirectly from some taxing vehicle. State support to local public school corporations is appropriated by the Indiana General Assembly from the Education Fund or dedicated state funds. Revenues to the state's General Fund include monies generated by sales and use taxes, individual income tax, and corporate income taxes. Dedicated state funds include monies from the Hoosier Lottery.

Locally, various forms of taxation are used to generate money for schools and civil units of government. The local taxes are charged, collected, and provided to the governmental units in a more direct way than state revenues. Examples of local taxes charged include the property tax, local income tax, license excise tax, commercial vehicle excise tax, financial institutions tax, and special county equalizing school taxes in Lake and Dearborn counties. Other sources of income are non-tax items including receipts from transfer tuition, property sales, gifts, contributions, and earnings from investments.

Property Tax: Property tax represents the largest local revenue generator for local units of government and a source of funds for public schools. In 2021, \$3.7 billion, or 43% of all property taxes collected, went to public schools. The tax is charged against real property (land and improvements), utilities, and personal property. Inherent in the property tax structure is the need to value property. To determine a value for assessment purposes, a particular parcel must first be located and listed. Currently, locally elected assessors determine property valuations using assessment guidelines prescribed by the Department of Local Government Finance ("Department"). As the agency responsible for ensuring fair and equitable assessments statewide, the Department oversees the mass appraisal work of the assessing officials.

Property assessments are performed on a cyclical basis, with approximately 25% of parcels in a county being reassessed each year. The first cyclical reassessment began on July 1, 2014, and was completed on January 1, 2018, with annual adjustment of non-reassessed properties occurring each year. All real property is assessed based on its market value-in-use. Beginning in calendar year 2009, the State began funding 100% of costs for the school general fund, which is now the Education Fund. Property tax dollars are no longer used to support education-related operating purposes of Indiana's school corporations, except for a referendum tax levy approved by voters, but continue to support other expenses such as for transportation, capital projects, and bus replacement, covered under the Operations Fund, and for debt service.

License Excise Tax: Automobiles, light trucks, and airplanes are taxed locally, in the county of the owner's legal residence, at the time of annual license plate registration. The amount of the tax varies from \$12 to \$532 in 17 classifications according to the age and original price of the vehicle (I.C. 6-6-5-3). Indiana also has a boat excise tax (I.C. 6-6-11) and an aircraft license excise tax (I.C. 6-6-6.5). Proceeds from these taxes are distributed to each taxing unit in the county.

Commercial Vehicle Excise Tax: Effective calendar year 2000, an excise tax was chargeable to:

- All trucks and tractors that have a gross vehicle weight greater than 11,000 pounds that is not used with a semi-trailer, traction engine, or other similar vehicle used for hauling purposes.
- A tractor used with a semi-trailer.
- A semi-trailer that has a gross vehicle weight greater than 3,000 pounds, including a semi-trailer converted to a full trailer through the use of a converted dolly.

Previously the value of these vehicles was included in the assessed valuation of the taxing unit. Beginning on January 1, 2000, each taxing unit's assessed valuation was adjusted downward to account for the commercial vehicle value portion of the total assessed valuation being replaced by the commercial vehicle excise tax. The State Board of Tax Commissioners, now the Department, made this calculation for the calendar year 2001.

In 2021, a total of \$28,651,063 was distributed to schools. The county auditor makes the distribution of the commercial vehicle excise tax after May 1 and December 1 of each calendar year. Specific language concerning the Commercial Vehicle Excise Tax may be found in I.C. 6-6-5.5.

Financial Institutions Taxes ("FIT"): I.C. 6-5.5-8 allows for a tax on the personal property of financial institutions. FIT represents the dollar amounts the state guaranteed when the FIT was converted from a fee to a tax. If the personal property of the financial institution does not raise sufficient property tax to cover the guarantee, the state sends the difference to the county auditor to distribute as FIT. The county auditor allocates this tax in the same manner as the license excise tax, on the basis of tax rate, and makes two distributions per year to governmental units. A total of \$37,205,174 was distributed to schools from FIT in 2021.

Special County Taxes: Special laws applicable only in the counties of Dearborn and Lake provide for uniform tax levies on a countywide basis. The yield of the levies is collected at the county level and is redistributed to the public school corporations within the county. Details of the distribution plan for Dearborn County are found in I.C. 20-45-8-1, and the Lake County distribution plan is found in I.C. 20-45-7-1.

Local Income Tax: I.C. 6-3.6 permits the county council in former Countywide Adjusted Gross Income Tax ("CAGIT") counties or the local income tax council in former County Option Income Tax ("COIT") counties to impose a local income tax ("LIT"). In former CAGIT counties, the first 0.25% of an expenditure rate is allocated to school corporations and civil taxing units within the county. There are fifty-six former CAGIT counties, and in 2021, \$51,923,297 in LIT was collected and distributed among 160 school corporations.

Other Sources of Revenue: School corporations may receive other forms of non-tax income. These include but are not limited to, receipts from transfer tuitions, property sales, gifts, and contributions.

PROPERTY TAX LEVY LIMITATIONS

The information below pertains to a school corporation's fund structure beginning January 1, 2019.

House Enrolled Act 1009-2017 created a significant series of changes to the fund structure for school corporations. Beginning January 1, 2019, all school corporations have two primary funds:

Education Fund: The Education Fund is the primary fund through which school corporations pay for classroom expenditures. It is analogous to the general fund.

School corporations do not impose a levy for the Education Fund; instead, funding for the education fund is derived from state and federal revenues. The main revenue source for the Education Fund is the revenue received from the State in the form of State Tuition Support. Using the State tuition support formula, which utilizes student data, each school corporation and/or charter school's amount of State tuition support and other grant amounts are determined for a given calendar year. Specifically, I.C. 20-40-2-2 states that the governing body of each school corporation shall establish an education fund for the payment of expenses that are allocated to student instruction and learning. As the statute is currently written, the education fund is the exclusive fund to pay for expenses allocated to student instruction and learning.

Operations Fund: The Operations Fund is broadly used to pay for a school corporation's non-classroom expenditures. It is a combination of the former Transportation, Bus Replacement, Capital Projects, Art Association, Historical Society, and Public Playground funds.

An initial maximum levy was set for the Operations Fund levy components for taxes first due and payable in 2019. The maximum levy for each component of the operations fund was determined as follows:

- Transportation: 2018 transportation maximum levy * Maximum Levy Growth Quotient ("MLGQ")
- Bus Replacement: 2018 bus replacement maximum levy * MLGQ
- Art Association: 2018 art association maximum levy * MLGQ
- Historical Society: 2018 historical society maximum levy * MLGQ
- Public Playground: 2018 public playground maximum levy * MLGQ
- Capital Projects: (2018 maximum Capital Projects Fund rate after temporary adjustments + 2018 Utility and Insurance Rate) * 2018 Certified Net Assessed Value / 100 * MLGQ

The Referendum Tax Levy Fund was established by the 2002 Indiana General Assembly as a separate fund. The governing body of each school corporation for which a referendum tax levy is approved under I.C. 6-1.1-19-4.5 (before its repeal) establishes this fund and receives proceeds from a referendum tax levy into this fund. Specific statutory language pertaining to the establishment of the referendum tax levy is in I.C. 20-46-1. The referendum tax levy fund law, I.C. 20-40-3, provides that money in this fund may be used for any lawful school expense.

Reasons for a referendum tax levy include 1) the governing body determines that it cannot, in a calendar year, carry out its public educational duty unless it imposes a referendum tax levy; 2) the governing body determines that a referendum tax levy should be imposed to replace property tax revenues that the school corporation will not receive because of the application of the circuit breaker credit under I.C. 6-1.1-20.6. In 2020, the General Assembly enacted legislation that, should the governing body determine a referendum tax levy is needed on either ground stated above, the governing body can then also determine whether to share a portion of the referendum tax levy proceeds with a charter school (but not a virtual charter school).

A referendum tax levy can be put into effect only if a majority of the individuals voting in the referendum approve the school corporation's referendum question for the following calendar year. Approved referendum levies are outside the circuit breaker credit calculations. In other words, circuit breaker credits created from the property tax caps will not reduce the taxes collected from the referendum tax levy. Only the over 65 circuit breaker credit in I.C. 6-1.1-20.6-8.5 would impact the referendum fund tax levy.

Likewise, taxpayer liability may exceed the circuit breaker threshold due to approved referendums.

Pursuant to I.C. 20-46-1, a school corporation may impose a referendum tax levy in an amount needed to support the school corporation. Property tax collections from the referendum fund tax levy are deposited in the referendum fund and used for any lawful school expenses consistent with the wording of the referendum question. Legislation enacted in 2021 requires a school corporation to develop a revenue spending plan that identifies the revenue expected to be received from the referendum tax levy and the specific expenses that this revenue will be used for. The referendum fund is not eligible for property tax relief credits. Additionally, schools may pursue a Referendum Capital Projects Debt Levy.

I.C. 36-1-8-5.1 permits a political subdivision, including public school corporations, to establish a Rainy Day Fund to receive transfers of unused and unencumbered funds. The rainy day fund is subject to the same appropriation process as other funds that receive tax money. Prior to making an appropriation from the rainy day fund, the board of school trustees must make a finding that the proposed use of the rainy day fund is consistent with the intent of the fund. Excluding debt service funds, and assuming the transfer is authorized by ordinance or resolution, in any year, the school corporation may transfer not more than ten percent (10%) of the school corporation's total annual budget for that fiscal year to the rainy day fund. The Department may not reduce the actual or maximum permissible levy of a school corporation as a result of a balance in the school corporation's rainy day fund.

Circuit Breaker Credits: The Indiana General Assembly made significant changes in school finance in 2008, affecting property tax collections in 2008 and beyond. I.C. 6-1.1-20.6-7.5 allows a person a credit against the person's property tax liability for property taxes first due and payable after 2009. The amount of the credit is the amount by which the person's property tax liability attributable to the person's homestead exceeds one percent (1%); residential, agricultural, and long-term care property exceeds two percent (2%); and nonresidential real and

personal property exceeds three percent (3%) of the gross assessed value of the property that is the basis for taxes for that calendar year. The exception to this limit is when the limits to property tax liability were expected to reduce in 2010 the aggregate property tax revenue that would otherwise be collected by all units of local government and school corporations in the county by at least twenty percent (20%) or property taxes imposed in an eligible county to pay debt service or make lease payments for bonds or leases issued or entered into before July 1, 2008, are not considered for purposes of calculating the credit. The counties that meet the twenty percent (20%) threshold are St. Joseph and Lake. As of taxes first due and payable in 2020, there are no counties that are eligible for this exception. If a school corporation pursues a referendum for operating and/or debt service, the tax rate is outside the circuit breaker calculation.

A circuit breaker credit reduces the amount of property taxes a person has to pay. Circuit breaker credits may not be recovered through increasing the unit's property tax levy or seeking an excess levy appeal. Property taxes are allocated to all units based on the unit's proportionate share of the district-wide non-exempt tax rate. Debt service funds are "protected funds" for circuit breaker purposes, meaning non-debt funds receive the impact of circuit breaker credits prior to debt service funds. Units are required to fully fund debt service obligations in an amount sufficient to pay any debt service or lease rentals on outstanding obligations, regardless of any reduction in property taxes due to circuit breaker credits.

A public school corporation is authorized a Debt Service Fund levy to meet annual debt service obligations. These obligations may include both principal and interest payments for lease rentals, general obligation bonds, Veterans Memorial and Common School Fund repayments to the school corporation's General Fund and interest payments for tax anticipation warrant issues.

Debt service obligations are used to determine the levy allowed in the Debt Service Fund. The Department is required by I.C. 20-48-1-11 to determine the Debt Service Fund levy and budget to satisfy annual debt payments either in the form of school construction bonds or lease rental payments if the levy and budget proposed by the school corporation is not sufficient.

House Enrolled Act 1001-2008 changed the way school large-scale construction projects are approved. Beginning July 1, 2008, voters in the local community determine whether or not to approve school construction projects through the petition and remonstrance or referendum process. If community members do not object to the proposed project or if they do not file enough signatures on a petition to initiate a petition and remonstrance process, the school district can move forward with a capital project.

Additionally, I.C. 20-40-9 authorizes school corporations to use money in the debt service fund to pay for all unreimbursed costs of textbooks for the school corporation's students who were eligible for free or reduced lunches in the previous school year.

The General Assembly created the School Safety Referendum Tax Levy Fund and School Safety Referendum Debt Service Fund in 2019. Specific statutory language for the fund is in I.C. 20-40-20. A school corporation for which the voters approved a school safety referendum tax levy under I.C. 20-46-9 shall establish both funds. Money in the School Safety Referendum Tax Levy Fund shall be used for school safety purposes but may be transferred to the Education,

Operations, or School Safety Referendum Debt Service Fund to pay for school safety expenditures. The School Safety Referendum Debt Service Fund shall only be used to pay for bonds or leases related to the school safety purposes for which the referendum was held.

DEBT REPORTING

Debt Reporting: Pursuant to Indiana Code 5-1-18-6, a political subdivision that issues bonds or enters into a lease after December 31, 2005, must supply the Department with a debt issuance report not later than one month after the date on which the bonds are issued or the lease is executed. However, when a bond is issued or a lease is executed after September 30, the debt issuance report must be submitted within five (5) business days.

Indiana Code 5-1-18-7 and 8 provide that the debt issuance report must be submitted electronically in a manner prescribed by the Department. The Department prescribes that the report must be submitted through Gateway Debt Management online system. The report must include:

1. The par value of the bond issue;
2. A schedule of maturities and interest;
3. The purposes of the bond issue;
4. The itemized costs of issuance information, including fees for bond counsel, other legal counsel, underwriters, and financial advisors;
5. The type of bonds that are issued; and
6. Other information as required by the Department.

A copy of the official statement and bond covenants, if any, must be supplied with this information. Furthermore, the Department may not approve an appropriation or a property tax levy for a debt that is not reported in Gateway Debt Management.

Leases must be reported through the same electronic system and the report must include:

1. The term of the lease;
2. The annual and the total amount of the lease rental payments;
3. The purpose of the lease;
4. The itemized costs incurred by the political subdivision with respect to the preparation and execution of the lease; including legal fees and other professional fees;
5. If all or part of the lease rental payments are used for debt service payments for bonds issued for the acquisition, construction, renovation, improvement, expansion, or use of a building, structure, or other public improvement for the political subdivision:
 - a. The name of the lessor;
 - b. Par value of the bond issue; and
 - c. The purposes of the bond issue; and
6. Other information as required by the Department.

The Department requires each political subdivision to verify to the Department that the list of indebtedness and related details in the Department's Gateway Debt Management system is current and accurate on an annual basis, due each March 1.

THE SCHOOL BUDGET

Process: In the case of all school funds for which property taxes may be levied, the budget process is essentially the same. The total budget is planned and is expressed as dollars to be expended during the budget year. All miscellaneous revenues, including, but not limited to, license excise tax, financial institutions tax, and commercial vehicle excise tax are subtracted from the planned expenditures of a school's various funds. The result is the dollar amount that is anticipated to be charged against local property or the tax levy. If the needed levy exceeds the legal amount which may be taxed for a particular fund, the budget must be balanced. There are two options that may be exercised to balance the budget. One possibility is to determine if all revenues which have been previously accounted for, and if not, which additional revenues exist. The other option is to review the expenditures planned and reduce the total dollars to be expended. In addition, the levy may not exceed the maximum allowable levy, calculated annually under I.C. 20-46-8-1. However, a school corporation may be eligible for a temporary or permanent increase to the Operations Fund levy because of an increase in transportation expenses or replacing buses (I.C. 20-46-8-3).

The School Budget: The school budget represents the educational program of a school community translated into dollar needs (expenditures). For most school corporations, the budget covers a calendar year, January 1 through December 31. For selected public school corporations, the budget year is a fiscal year, July 1 through June 30. Governing boards are responsible for budget preparation, although this task is typically delegated to the chief administrator or their designate.

Budget Forms: School budget forms are prescribed by the Department and approved by the State Board of Accounts. Budget forms are completed and submitted to the Department through the Indiana Gateway for Government Units website (<https://gateway.ifionline.org>) ("Gateway"). User guides on completion of these forms on Gateway can be found at <https://gateway.ifionline.org/help.aspx>.

Local Approval: Generally, final action on school budgets by local school boards must be taken on or before November 1 of each year for the ensuing year's budgets. The exception to this applies to those corporations budgeting on a fiscal year basis. Corporations operating on a fiscal year basis must meet before February 1 to adopt budgets. In either case, a public hearing on the budgets must be held at least ten days before final action, in the form of formal adoption, by the local school board or an elected fiscal body of a county, city, or town for school corporations with appointed boards according to requirements in I.C. 6-1.1-17-20. The notice of the estimated budget and levy and public hearing information on the Budget Form 3 must be completed and submitted online via the Department's Gateway at least 10 days before the public hearing. The date, time, and address of the hearing must be announced as a part of the notice. The local school board or a representative for the elected fiscal body for schools with appointed boards should submit all budget forms through Gateway within five (5) business days after the budget adoption. Submission through Gateway serves as submission of the budget forms to the Department.

Objecting Petitions: Ten or more taxpayers within the taxing district(s) of the taxing unit may file an objecting petition to a proposed budget, rate, or tax levy. Such a petition must be filed with the local school board or elected fiscal body within seven days of the public hearing. Petitioners may object to a budget, tax rate, or tax levy. The local school board or elected fiscal body must file their findings concerning the objecting petition as a part of their adopted budget.

State Review and Approval: As provided in I.C. 6-1.1-17-16, the Department shall certify the taxing unit's allowable tax rates and levies. The Department shall also calculate and certify the taxing unit's budget, specifically whether the adopted budget is fundable based on the taxing unit's adopted levy and estimated available revenues. Fund budgets, tax rates, and tax levies certified by the Department are effective without change during the budget year to which they apply either calendar or fiscal year.

Additional Appropriations: Sometimes a public school corporation finds it necessary to have spending authority beyond the level appropriated in the approved budget. Whenever additional or emergency appropriations become necessary, the local school board first must determine that an additional or emergency appropriation is needed and that there is unobligated cash available to support the additional spending need. Notice to taxpayers must be provided by advertisement.

The notice must include a time and date of a hearing conducted by the school board or the elected fiscal body if the school corporation has an appointed board to explain the need for the additional spending need as well as to receive public input. Following the hearing, the school board or the elected fiscal body must adopt a resolution enumerating the amount of additional spending authority that is needed. The resolution may be for less than the amount advertised but cannot be for a greater amount than advertised in the notice to taxpayers. After the resolution is adopted, a certified copy must be filed with the Department via the Gateway Additional Appropriations Application. The application can be accessed at <https://gateway.ifionline.org/AdditionalAppropriations/SelectUnit.aspx>. If the additional spending authority is being sought from a fund certified by the Department, the process is complete. However, if the additional appropriation is being sought from a Department-certified fund, the Department must determine whether sufficient funds are available or will be available for the additional appropriation. The Department is required to make a determination as to the disposition of the additional appropriation request within fifteen (15) days after the request is received. Additional appropriation statutory provisions are found in I.C. 6-1.1-18-5.

School Audits: School audits are conducted by the State Board of Accounts. Audits are performed to conform to the federal single audit act. Audits are conducted on a two-year cycle and include all school corporation funds and extra-curricular funds. Audits are conducted on a fiscal year, July 1 through June 30, basis and as such may involve more than two calendar years. A portion of the audit is charged to the local school corporation. Audit reports are kept on file by the State Board of Accounts and by the local unit.

SOURCES OF STATE SCHOOL SUPPORT

ADULT LEARNERS FUND

Pursuant to Public Law 201-2023, I.C. 20-24-7-13.5

2023-2024	2024-2025
\$44,512,500	\$52,512,500

The Adult Learners fund is for a charter school that serves students who are at least twenty-two (22) years of age and who have dropped out of high school before receiving a diploma. State law provides a listing of charter schools eligible to receive Adult Learner funds. The appropriation funds a full-time equivalency count of students at \$6,750 per student for each fiscal year. The charter schools specified are removed from the state tuition support formula and funded through this appropriation. IDOE distributes funds according to a schedule set by the State Budget Agency and approved by the governor. The schedule provides for payments to be made at least twelve (12) times per fiscal year, with one (1) payment each forty (40) days. The aggregate amount of payments may not exceed the fiscal year appropriation. If the appropriations are insufficient, IDOE will reduce each charter school's distribution by a proportionate share. The following charter schools are being paid through the Adult Learners fund for FY 2024:

Corp	Excel Center Name
8655	Excel Center Bloomington
9050	Excel Center Clarksville
9055	Excel Center Hammond
9160	Excel Center Muncie
9190	Excel Center Gary
9305	Excel Center in Richmond
9335	Excel Center Lafayette Sq Mall
9345	Excel Center Lafayette
9355	Excel Center Kokomo
9385	Christel House DORS
9750	Anderson Excel Center
9840	Excel Center University Heights
9855	Excel Center Noblesville
9885	Gary Middle College, Gary
9900	Excel Center South Bend
9910	Excel Learners for Adults
9995	Excel Center Shelbyville
9539	Excel Center Elkhart
9036	Excel Center Southeast

In FY 2023, IDOE distributed \$37,894,905 in Adult Learner funds.

ALTERNATIVE EDUCATION GRANT

Pursuant to P.L. 201-2023, I.C. 20-30-8, and 511 I.A.C. 1-9

	2023-2024	2024-2025
Total Appropriation	\$5,306,394	\$5,306,394

Funding is made available to approved alternative education program organizers for eligible students enrolled in qualifying programs. The above appropriations include funding to provide \$10,000 for each child in recovery from alcohol or drug abuse who attends a charter school accredited by the National Association of Recovery Schools. This funding is in addition to any funding received by the charter school from the student funding formula.

Requirements for Participation: An alternative education program is defined as an educational program for eligible students designed to provide an instructional manner that is different from what is offered in a traditional school setting. All programs must be approved by IDOE and received during the school year prior to the desired opening of the new program. All existing programs are reviewed annually through the funding application for eligible students.

State Share: Eligible programs may apply to receive state funding in the maximum amount of \$750.00 (IC 20-20-33-5) for each eligible full-time equivalent student (IC 20-20-33-4) reported to IDOE in the Full-Time Equivalent Student Report (IC 20-30-8-15).

- The following formula is used to determine the number of full-time equivalent students:
 - STEP ONE: Determine the number of alternative education program sessions that were conducted in a reporting period for a qualifying school corporation as follows:
 - (A) Determine the number of days on which an alternative education program was conducted for an entire morning, as determined under the rules adopted by the state board.
 - (B) Determine the number of days on which an alternative education program was conducted for an entire afternoon, as determined under the rules adopted by the state board.
 - (C) Determine the number of days on which an alternative education program was conducted for an entire evening, as determined under the rules adopted by the state board.
 - (D) Determine the sum of the clause (A), (B), and (C) amounts.
 - STEP TWO: For each morning, afternoon, and evening session of an alternative education program that is used to determine the STEP ONE result, determine the number of eligible students enrolled in the sessions.
 - STEP THREE: Determine the sum of the STEP TWO amounts.
 - STEP FOUR: Divide the STEP THREE result by the STEP ONE result.
 - STEP FIVE: Divide the STEP ONE result by three hundred sixty (360).
 - STEP SIX: Multiply the STEP FOUR result by the STEP FIVE result.

Local Share: LEAs must use local funds to match one-third of the expenditures for each eligible student receiving funds (IC 20-20-33-6).

Extent of Participation: Approximately 114 school corporations and charter schools received alternative education grant funds for the 2021-2022 school year totaling \$4,918,753.71.

Distribution: Reimbursements for expenditures made during the preceding school year are processed and distributed by September 1 (IC 20-20-33-7).

IDOE may authorize additional distributions for approved programs if the total amount of the distributions to a school corporation during a school year under this subsection does not exceed a maximum amount of seven hundred fifty dollars (\$750) per full-time equivalent student reported under IC 20-30-8-15.

CHOICE SCHOLARSHIP PROGRAM

Pursuant to Public Law 201-2023, I.C. 20-51, and 512 I.A.C. 4-1

The Choice Scholarship Program was passed as part of House Enrolled Act 1003-2011 (Public Law 92-2011) and provides Choice Scholarships to students in households that meet eligibility and income requirements. The program provides funds to assist with the payment of tuition and fees at a participating Choice school.

For the 2011-2012 school year, Choice Scholarships were limited to 7,500 students. For the 2012-2013 school year, Choice Scholarships were limited to 15,000 students. Beginning with the 2013-2014 school year, the student cap was removed, and Choice Scholarships were available to any student that met eligibility and income requirements. During the 2013 Session of the Indiana General Assembly, the program was further expanded to include eligibility components related to special education, siblings, and failing schools. During the 2017 legislative session, the Pre-K Track was added. During the 2019 Session, an additional income threshold and award amount was added, and a second application window was established. During the 2021 session, the income eligibility for all tracks was expanded and a track was added for foster children. During the 2023 session, the age requirement expanded, the income eligibility was expanded, and all eligibility tracks were repealed.

To participate in the Choice Scholarship Program a student must satisfy income and eligibility requirements.

Student Eligibility Criteria: All students must satisfy the following three requirements:

1. Have legal settlement in Indiana;
2. Be between the ages of 5 and 22 no later than October 1 of the school year; and
3. Be accepted for enrollment into a participating Choice Scholarship school;

After satisfying the three requirements listed above, a student must satisfy the requirements household income.

Income Eligibility Criteria: The income criteria to participate in the Choice Scholarship Program are linked to the Federal Free or Reduced Lunch Program income guidelines.

To qualify for the 90% Choice Scholarship award, a student must be a member of a household with an annual income equal to or less than 100% of the amount to qualify for the Federal Free or Reduced Lunch Program. Beginning in the 2019-2020 school year, to qualify for the 70% Choice Scholarship award, a student must be a member of a household with an annual income equal to or less than 125% of the amount to qualify for the Federal Free or Reduced Lunch Program. To qualify for the 50% award, the student must be a member of a household with an annual income equal to or less than 150% of the amount to qualify for the Federal Free or Reduced Lunch Program.

Beginning with the 2013-2014 school year, income eligibility for the 50% award was expanded to 200% of the amount to qualify for the Federal Free or Reduced Lunch Program for students qualifying under the Continuing Choice and Special Education Tracks.

Beginning with the 2021-2022 school year, income eligibility was changed so that all student awards are 90% awards, and 70% and 50% awards were repealed. Additionally, all eligibility track income limits were increased to 300% of the amount to qualify for the Federal Free or Reduced Lunch Program.

Beginning with the 2023-2024 school year, all eligibility tracks were repealed, and income limits were increased to 400% of the amount to qualify for the Federal Free or Reduced Lunch Program.

Student Participation			
Year	Student Count	Change from Previous Year	Percent Change from Previous Year
2015-2016	32,686	3,538	12.14%
2016-2017	34,299	1,613	4.93%
2017-2018	35,458	1,159	3.38%

Total Payments	\$169,694,987.91	\$167,830,708.89	\$237,209,567.10
Refunds	\$355,652.90	\$525,495.04	\$638,681.86
Net Payment	\$169,339,335.01	\$167,305,213.85	\$236,570,885.24
Note: The 2022-2023 information is not available currently.			

New requirements for reporting students: Senate Enrolled Act 30, passed during the 2017 legislative session, required IDOE to publish the number of Choice Scholarship Program students living in each public school corporation and the Choice school they are attending. IDOE released a report in the fall 2020 that identified the count of students as specified in law. The report can be found under Public Corporation Transfer Report at the following link: <https://www.in.gov/doi/it/data-center-and-reports/>.

COMMON SCHOOL FUND

Pursuant to I.C. 20-49-4

Advancements from the Common School Fund may be used for school building construction purposes and educational technology programs. Indiana Code 20-49-3-8 allows school corporation career and technical education schools described in I.C. 20-37-1-1 to apply for both common school construction and technology loans. School corporation career and technical education schools must provide the Office of School Finance with the information it needs to determine each participating school's proportionate share of the loan.

School Technology Advancement Account

Pursuant to P.L. 201-2023 and I.C. 20-49-4-5, I.C. 20-49-6, and 511 I.A.C. 1-2.5

2023-2024	2024-2025
\$5,000,000	\$5,000,000

The purpose of the account is to make loans to school corporations to:

1. Purchase computer hardware and software to be used primarily for student instruction.
2. To develop and implement innovative technology projects.

State Share: The State share is 100% of the approved qualifying amount. The minimum loan per School Corporation is \$20,000. The maximum loan per School Corporation is an amount determined by dividing the corporation's total pupil enrollment (as reported on the most recent DOE-PE) by 25 and multiplying the result by \$500 and rounding that figure to the next highest whole number.

If the aggregate amount of the petitions for loans does not reach \$5,000,000, the remaining dollars are distributed on an enrollment per capita basis among those petitioning school corporations indicating a desire to be considered for additional funding.

If the aggregate amount of the petitions for loans exceeds \$5,000,000, all petitioning school corporations are ranked in ascending order according to adjusted assessed valuation (AAV) per Average Daily Membership (ADM). Petitioners with the lowest AAV/ADM receive first consideration when the loans are granted. Petitions for loans are reviewed and then modified or approved until the appropriation is expended.

The State Board of Finance periodically establishes the rate of interest payable, which is not less than 1% and not greater than 4%. The Treasurer of the State has established a repayment schedule of two to five years depending upon the amount of the loan. Any school corporation receiving a loan from the account may annually levy a tax in the Debt Service Fund sufficient to produce an amount equal to the amount deducted that year from the Basic Grant.

Local Share: The local share is all computer hardware and software costs not covered by the loan. Additionally, the recipient school corporation is responsible for interest and the repayment of principal on schedule.

Requirements for Participation: Any school corporation authorized by law to establish public schools and levy taxes for their maintenance may petition for a loan from the School Technology Advancement Account.

To receive a loan, a school corporation must develop a three-year technology plan. The plan must include at least the following information.

1. A description of the corporation's intent to integrate technology into the curriculum.
2. A plan for providing in-service training.
3. A schedule for maintaining and replacing educational technology equipment.
4. A description of the criteria used to select the appropriate educational technology equipment for the appropriate use.
5. Other information requested by IDOE.

Extent of Participation: Loans totaling \$1,713,820 were granted to six school corporations in the summer of 2023.

Distribution: Funds are available each year immediately following approval of petitions by the State Board of Education.

School Building Construction Program

Qualifications: Under the provisions of I.C. 20-49-4-7 to qualify for an advance from the Common School Fund. Beginning July 1, 2023, charter schools are eligible for a construction loan if they meet statutory requirements. IC 20-49-4-7 defines a school building construction program as,

“(1) The purchase, lease, or financing of land, the construction and equipping of school buildings, and the remodeling, repairing, or improving of school buildings by a school corporation:

(A) that sustained a loss from a disaster;

(B) whose assessed valuation per current ADM is within the lowest forty percent (40%) of assessed valuation per current ADM when compared with all school corporation assessed valuation per current ADM; or

(C) with an advance under this chapter outstanding on July 1, 1993, that bears interest of at least seven and one-half percent (7.5%).

(2) The purchase, lease, or financing of land, the construction and equipping of school buildings, and the remodeling, repairing, or improving of school buildings by a charter school.

(b) The term does not include facilities used or to be used primarily for interscholastic or extracurricular activities. If a program involves a school corporation career and technical education school described in IC 20-37-1-1, the assessed valuation and current ADM of all those school corporations that are members of the career and technical education school are to be used for making determinations under this section.”

Maximum Amount Available: No advance to a school corporation or a school township for any school building construction program may exceed the greater of:

1. \$15,000,000; or
2. The product of \$15,000 is multiplied by the number of pupils accommodated by the school building construction program.

The State Board of Education may waive this provision if the school corporation or school township sustains loss by fire, wind, cyclone, or other disaster.

Interest Rate: The State Board of Finance will periodically establish interest rates as long as:

1. The established rate or rates do not exceed seven and one-half percent (7½%).
2. The interest rate or rates on advances made to school corporations or school townships with advances outstanding on July 1, 1993, bearing interest at seven and one-half percent (7½%) or more shall not exceed four percent (4%).

Repayment Period: Money advanced to school corporations or school townships for school building construction programs may be advanced for periods not to exceed 25 years. (See IC 20-49-4-15)

Extent of Participation: In the spring of 2023, there were no construction loans awarded to school corporations due to the lack of requests.

Educational Technology Program

Qualifications: In order to receive funds under I.C. 20-49-4-16 through I.C. 20-49-4-22, the school corporation must develop a three-year technology plan (I.C. 20-20-13-7). The plan must include at least the following information:

1. A description of the school corporation's or school township's intent to integrate technology into the school corporation's curriculum.
2. A plan for providing in-service training.
3. A schedule for maintaining and replacing educational technology equipment.
4. A description of the criteria used to select the appropriate educational technology equipment for the appropriate use.
5. Other information requested by IDOE after consulting with the State Budget Agency.

IDOE is required to develop guidelines concerning the development of technology plans. Guidelines are subject to the approval of the governor.

Maximum Amount Available: Advances for educational technology programs are without limitation in amount other than the availability of funds in the Common School Fund for this purpose, and the ability of the school corporation desiring an advance to repay it in accordance with the terms of the advance.

Interest Rates: The State Board of Finance periodically establishes the rates of interest payable, which are not less than one percent or more than four percent.

Repayment Period: Money advanced for school technology may be for periods not to exceed five years.

Use of Funds: The State Board of Education will advance money to school corporations or school townships for the:

1. Purchase, lease, or financing of educational technology equipment.
2. Operation of the education technology equipment.
3. The training of teachers in the use of educational technology equipment.

(See IC 20-49-4-5)

Extent of Participation: Loans totaling \$15,003,603 were granted to 35 school corporations in the spring of 2023.

State Board of Education Administrative Policies for the Common School Fund: Technology advances must be used within one (1) year after the State Board of Education approves the advance.

State Board of Education Administrative Policies: The State Board of Education adopted the following administrative policies at its June 7, 2017, meeting.

Legislative update: Beginning July 1, 2023, charter schools can participate in the advancement program for technology and/or construction loans. Charter schools are subject to the same requirements to repay advancements from tuition support funds as school corporations.

Administrative Policies for the Common School Fund:

1. During any one award period, a school corporation may cite more than one building (remodeling, renovation, or new structure) as the subject of an advance from the Common School Fund.
2. The State Board of Education will not approve a construction advance to a school corporation that has unused school facilities that are more than the corporation's facility needs. An applicant school corporation will provide a list of all facilities owned or leased by the school corporation and a statement of the current use of each facility. If a facility is not currently being used, the corporation must explain the status of that facility and provide a rationale for not disposing of the facility.
3. A school corporation that applies for an advance from the school construction program or the educational technology program must certify either: 1) that the corporation has completed the preliminary determination and petition-remonstrance procedure in I.C. 6-1.1-20 with favorable results; or 2) that the procedure does not apply. This requirement does not apply if a school corporation intends to repay an educational technology advance from its Capital Projects Fund.
4. A corporation must submit its request for an advance electronically on the form approved by the Department of Education.
5. Any school corporation that requests an advance from the school construction program should comply with the school facility guidelines adopted by the Indiana State Board of Education on September 7, 1995, guidelines subsequently adopted pursuant to I.C. 20-19-2-12, or written guidance provided by the Department of Local Government and Finance.
6. The maximum amount awarded under the provisions governing educational technology advances will be based on the corporation's ADM times \$100. Corporations requesting advances for technology will be ranked from lowest to highest according to their adjusted assessed valuation per K-12 ADM.
7. Funds for the two categories of advances shall be allocated as follows:
 - School Construction Program 50%
 - Educational Technology Program 50%

If the needs of one program outweigh the other and allocations remain, the department may modify the percentages in the period.
8. Technology advances must be used within one (1) year after the State Board of Education approves the advance.
9. Construction advances must be used within two (2) years after the State Board of Education approves the advance, with at least fifty percent (50%) of the advance used within one (1) year after the State Board of Education approves the advance.

10. The State Board of Education will not permit prepayment of construction advances.
11. Advancements for technology loans exclude salaries and fringe benefits of school personnel or items with a useful life of less than one (1) year. Examples include technology instructors, software subscriptions, or supplies.
12. Educational technology is for hardware and operational software intended for use by teachers and students only.

Adopted: June 7, 2017

CURRICULAR MATERIAL REIMBURSEMENT

Pursuant to P.L. 201-2023, I.C. 20-26-12, I.C. 20-33-5, and I.C. 20-40-22

2023-2024	2024-2025
\$160,000,000	\$160,000,000

The purpose of Curricular Material Reimbursement funding is to provide advancement or reimbursement to school corporations, charter schools, and accredited nonpublic schools for the cost of curricular materials.

State Share: Prior to school year 2023-2024, reimbursement to school corporations, charter schools, and accredited nonpublic schools was based on the number of eligible students reported through Data Exchange. The appropriation was divided by the total number of eligible students to determine a per student amount. Beginning in the school year 2023-2024, school corporations and charter schools will receive an advancement or allocation of funds based on the fall membership count of students. Accredited nonpublic schools can receive reimbursement for curricular materials based on the number of eligible students reported through Data Exchange.

I.C. 20-18-2-2.7 defines curricular material as “systematically organized material designed to provide a specific level of instruction in a subject matter category, including:

- (1) books;
- (2) hardware that will be consumed, accessed, or used by a single student during a semester or school year;
- (3) computer software; and
- (4) digital content.”

In school year 2023-2024, school corporations and charter schools will report the cost of providing curricular materials to all students, regardless of eligibility status. Accredited nonpublic schools are required to file student level information through Data Exchange and curricular material information, using a JotForm, that reflects actual costs for both curricular materials and consumable workbooks that accompany adopted curricular materials.

Local Share: School corporations and charter schools may not charge a rental rate for curricular materials.

Requirements for Participation: School corporations, charter schools, or accredited nonpublic schools must report costs to IDOE before November 1 of the current school year. The cost report reflects, by grade level, the total cost of providing curricular materials to students.

Extent of Participation: In 2022-2023, the appropriation provided curricular material assistance to local school corporations for 494,114 students and helped 4,239 nonpublic school students at a cost of \$39,000,000.

Distribution: IDOE plans to distribute funds in December.

Legislative Change: Beginning in the school year 2023-2024, the appropriation for curricular materials increased from \$39 million to \$160 million for fiscal years 2024 and 2025. Allocations to school corporations and charter schools will be based on total costs reported for KG-12 students certified in the fall ADM count. Allocations for nonpublic schools will continue to be based on the total number of eligible students reported through Data Exchange. IDOE will determine a statewide average cost amount per student based on costs reported in October.

State law concerning rental fees was repealed as schools are required to provide curricular materials required for participation in a particular course of study to be provided at no cost to students. Schools may choose to recover costs for lost or severely damaged curricular material regardless of a student's eligibility for free or reduced priced lunch.

GIFTED AND TALENTED EDUCATION PROGRAM

Pursuant to P.L. 201-2023

2023-2024	2024-2025
\$15,000,000	\$15,000,000

The purpose of this program is to support school corporation high ability programs. The High Ability Education program includes:

1. Funding to assist local schools in the development and implementation of their programs and services for high ability students, K-12.
2. Organizing and developing a state infrastructure of resources and communication for high ability programs.

State Share: The total amount of the approved grant to a school corporation.

Local Share: Any costs of the program not met by the grant allocation.

Requirement for Participation: A school corporation may submit an electronic grant proposal for planning or continuation of services. Proposals are reviewed to verify compliance with I.C. 20-36 and 511 I.A.C. 6-9.1, the High Ability Program Rule.

Extent of Participation: Grants were awarded to 359 local education agencies for the 2021-2022 school year.

Number Grants Awarded	Individual Amounts Available	Total
359	\$8,507 - \$178,287	\$12,700,00.00

Distribution: Grants are paid by cash request to the school corporation upon proposal approval.

MITCH DANIELS EARLY GRADUATION SCHOLARSHIP PROGRAM

Pursuant to Public Law 201-2023, I.C. 21-12-10

State law allows eligible students to receive a \$4,000 Mitch Daniels Early Graduation Scholarship upon meeting all graduation requirements by the end of grade 11. An individual is eligible for a Mitch Daniels Early Graduation Scholarship if:

Sec. 3. An individual is eligible for a Mitch Daniels early graduation scholarship if the individual:

- (1) is a resident of Indiana, as defined by the commission;
- (2) attended a publicly supported school on a full-time equivalency basis for at least the last two (2) semesters before the individual graduated from high school;
- (3) had legal settlement (as defined in IC 20-18-2-11) in Indiana for at least the last two (2) semesters before the individual graduated from high school;
- (4) received an Indiana diploma with a Core 40 designation by the end of grade 11 (including any summer school courses completed before July 1 of a year) after December 31, 2010, from the publicly supported school that the individual last attended for course credits;
- (5) was not enrolled in a publicly supported school for any part of grade 12;
- (6) applies to the commission for a Mitch Daniels early graduation scholarship in the manner specified by the commission; and
- (7) enrolls as a full-time student at an eligible institution not later than the fall semester (or its equivalent, as determined by the commission) in the academic year immediately following the year in which the student graduates from high school.

In FY 2023 scholarships totaling \$656,000 were distributed to 164 students.

NATIONAL SCHOOL LUNCH PROGRAM

Pursuant to P.L. 201-2023 and I.C. 20-26-9-1 thru I.C. 20-26-9-17

2023-2024	2024-2025
\$5,033,086	\$5,108,582

Each school district's grant is a pro-rata share of the appropriated amount based on that district's percentage of the total paid lunches served in the State during the previous school year. The amount appropriated is the required State match for participation in the National School Lunch Program. For further information concerning this multi-faceted program, please contact the Division of School and Community Nutrition Programs.

Requirements for Participation: The school corporation must be a participant in the National School Lunch Program and meet the nutritional standards set forth therein.

Extent of Participation: All public school corporations and over 200 nonpublic schools and other organizations.

State Share: This is the State Match on Federal National School Lunch Program Funds.

Local Share: There is no local share required for participation in this program. Costs not covered by the grant are borne locally and normally passed on to the student through meal charges.

Distribution: Funds are distributed annually, usually in the month of October, for the previous school year. The October 2022 distribution was \$ 4,887,175 for the 2021-2022 school year. State Match for SY 2022-2023 has yet to be distributed but will be \$4,948,706 per the required match calculated by USDA.

NON-ENGLISH SPEAKING PROGRAM

Pursuant to P.L. 201-2023

The 1999 Indiana General Assembly enacted the Non-English Speaking Program (NESP). This program is to provide funds to local public school corporations to support students who have a primary language other than English and have been identified as English learners (ELs), as determined by the WIDA assessments. 381 public school corporations reported EL students during the 2022-2023 school year.

NESP funding experienced changes during the 2023 Legislative Session, detailed in this [memo](#), which led to funding no longer being distributed via a sub-granting process. Instead, public school corporations will now receive NESP funding directly through monthly tuition support distributions. For specific entities that do not receive state tuition support, additional funding was set aside to ensure those schools also receive NESP funding. Beginning in FY 2024, NESP funding is part of State Tuition Support.

NESP – State Tuition

State Tuition - Local Share: The Indiana General Assembly increased funding for the NESP during the 2023 Legislative Session and continued the structure of the previous NESP funding formula, with tiered funding amounts by proficiency level. This increased funding includes an allotment of \$550 per EL student in the public school corporation who received a Level 1 or 2 overall proficiency on the WIDA ACCESS or participated in the Alternate ACCESS for ELs with significant disabilities. It then includes \$384 per EL student who received a Level 3 or 4 overall proficiency, or who received a Level 5 on the Tier A form, on WIDA ACCESS. This funding is allocated on a per-pupil basis in accordance with each public school corporation's reported EL student count, reflected in the annual Multilingual Learner data collection in Data Exchange.

State Tuition - Extent of Participation: All public school corporations accurately reporting EL students via the annual Multilingual Learner data collection in Data Exchange will receive NESP per-pupil funding. 381 public school corporations reported EL students during the 2022-2023 school year.

State Tuition - Distribution: LEAs will receive the funding directly within the monthly state tuition payments. EL student count data is collected in the fall and finalized soon after. For the 2023-2024 school year, distributions will begin in December based on current year counts. In ensuing years, LEAs will begin receiving distributions in July, estimated using previous year counts, which will be reconciled in December based on current year counts.

NESP – Additional Entities

Additionally, the state budget bill set aside \$200,000 in FY 2024 and FY 2025 for NESP funding for the following entities which do not receive state tuition funding: the department of correction, the Indiana school for the blind and visually impaired, the Indiana school for the deaf, the Excel Centers for Adult Learners, the Christel House DORS Centers, and the Gary Middle College

charter schools to support non-English learner students. Funds may only be used to educate students who are less than twenty-three (23) years of age.

Additional Entities – Local Share: This additional funding will be allocated to the specified entities in the same manner as the NESP state tuition funding. This includes per-pupil allotments of \$550 per EL student in the public school corporation who received a Level 1 or 2 overall proficiency on WIDA ACCESS or participated in the Alternate ACCESS for ELs with significant disabilities, and \$384 per EL student who received a Level 3 or 4 overall proficiency, or who received a Level 5 on the Tier A form, on WIDA ACCESS. This funding will be allocated on a per-pupil basis in accordance with each public school corporation's reported EL student count, reflected in the annual Multilingual Learner data collection in Data Exchange.

Additional Entities – Extent of Participation: Each of the above-listed entities will receive notification of NESP funding availability for all English learner students accurately reported during the annual Multilingual Learner data collection.

Additional Entities – Distribution: These entities will receive notification from IDOE of their allocation amounts after the fall Multilingual Learner data collection is completed. After receiving the allocation amounts, entities will submit a Cash Request form to IDOE to receive their funding amount or, if applicable, receive funding via an MOU agreement with IDOE.

STATE TUITION SUPPORT

Pursuant to P.L. 201-2023, I.C. 20-43 and I.C. 20-24-7

	2023-2024	2024-2025
General Fund	\$8,840,000,000	\$9,030,000,000

The fiscal year appropriation provides funding for State Tuition Support, the Choice Scholarship, and the Mitch Daniels Early Graduation Scholarship programs.

State tuition support is the sum of five different calculations for basic tuition support, academic performance, non-English speaking program, special education, and career and technical education grant. IDOE calculates funding for each school corporation and charter school based on variables described below. Accordingly, it is not possible to provide examples of these calculations applicable to school corporations or charter schools. Further, input variables are subject to change due to modifications in student count variables or adjustments made by IDOE as required by statute to preclude overspending in the fiscal year appropriation. In its simplest form, the state tuition support formula results reflect a gross amount of State revenue for each school corporation and charter school.

Definitions and Formula Components

Average Daily Membership (ADM). Average daily membership is a count of students enrolled and expected to be in attendance for kindergarten through Grade 12 in Indiana public school corporations and all charter schools on a particular day. For school corporations and charter schools that do not offer a full-day kindergarten program, kindergarten students are counted as one-half (1/2) for membership. For school corporations and charter schools that offer a full-day kindergarten program, kindergarten students count as one (1) for membership.

Under current law, ADM counts are taken twice a year, in September and February. For funding purposes, the average daily membership (ADM) count is taken annually, the second Friday after Labor Day, as established in a rule adopted by the State Board of Education. This is referred to as the “fall” count and provides Basic Grant funding for the first six months of the fiscal year. A second ADM count is taken on a date established by the State Board of Education in February. This is referred to as the “spring” count and IDOE uses it to calculate Basic Grant funding for the second six-month period of the fiscal year. Indiana law provides that a charter school is a public-school corporation.

Beginning with the school year 2023-2024, the law moves the fall count date to the first day of October unless that date is a federal or state holiday. The date movement aligns the count with other IDOE counts taken on the first day of October.

For the FY 2024 state tuition support funding formula, IDOE will use the fall (October) count for July through December 2023 distributions and the spring (February) count for January to June 2024 distributions. In March 2023 school corporations, virtual charter schools, and charter schools

submitted an ADM estimate of the October count that IDOE considered for funding for the period of July through October until the actual ADM count is final.

The ADM is the sum of the following:

Resident Enrollment. Resident enrollment for a school corporation includes those students with legal settlement in, and who are enrolled and attending school in the school corporation. For a charter school, resident enrollment includes Indiana students who are enrolled and attending an individual charter school, regardless of legal settlement. Foreign exchange students, who are residing in, and attending the school corporation.

Transfers Out. Transfers out of a school corporation are resident students who, for various reasons, are transferred out to another school corporation or out of State. This term does not apply to charter schools. Reasons include:

- An agreement between the corporation of legal settlement and the servicing school corporation.
- A “better accommodation” student transfer agreement under I.C. 20-26-11-5 between the corporation of legal settlement and the student’s parent(s).
- A “better accommodation” order by the State Board of Education.
- The student is served by a public or private school under a contract for residential or alternative services through the Secretary of Education.

Cash Transfers. Cash transfers for a school corporation include students with legal settlement in another school corporation who are enrolled and attending school another school corporation based on an agreement between the parent(s) and the school corporation the student attends. Cash transfers may or may not include students whose parent(s) pay tuition to the school corporation the student attends. This term does not apply to charter schools.

State Obligations. State obligations for a school corporation include students placed into the school corporation because of State action and include:

- State placement into an institution located within the corporation that is operated by the Division of Disability, Aging, and Rehabilitative Services, or the Division of Mental Health.
- State placement by either of the above agencies into an institution, public or private facility, a home, group home, or alternative family setting within the school corporation.
- Students enrolled and attending the school corporation are children of State employees living on State property.
- State obligations for a charter school include students enrolled and attending the charter school who are children of State employees living on State property.

Placements In. For a school corporation, this includes students enrolled and attending the school corporation because of placement by Indiana county welfare, Indiana courts, Indiana licensed child-placing agencies, or by a parent or guardian in a State licensed private or public health care facility, childcare facility, or foster home located in the school corporation. This placement into the school corporation is for non-educational reasons. This term does not apply to charter schools.

Dual Enrollment. For a school corporation, this includes students who are enrolled in a public school and a nonpublic or home school, who have legal settlement in the school corporation and receive instructional services from the school corporation. These students are counted on a full-time equivalency basis, based on the number of periods served in the day by the public school and must receive 180 days of instruction. This term does not apply to charter schools.

Previous Year Revenue. Continuing with FY 2024, IDOE provides a comparison of previous year grant funding and current year grant funding that reflects the percentage increase/decrease in total funding from the prior fiscal year. Previous year revenue is the total distribution of state tuition support funding from the five grants (Basic Tuition Support, Academic Performance, Non English Speaking, Special Education, Complexity and Career and Technical Education Grant).

Basic Grant

The Basic Grant provides funding to all school corporations and charter schools virtual and non-virtual students based on calculations using a foundation amount and a per-student complexity amount. Unless otherwise noted, the following formula calculations apply to both school corporations and charter schools. A brief description of each component follows.

Foundation. For FY 2024, foundation is \$6,590 and virtual foundation is \$5,601.50 per student. Foundation revenue generates the most funding from the appropriation. In FY 2025, foundation increased to \$6,681 for traditional students and \$5,678.85 for virtual students.

Complexity. The FY 2024 complexity component in the Basic Grant uses the October 1, 2022, Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance to Needy Families (TANF), and Foster Care data, as well as pupil enrollment, to arrive at a percentage of students who were recipients of SNAP, TANF or Foster Care assistance. That amount is multiplied by \$3,983 to determine the amount of funding per student. This amount is multiplied by the applicable membership count (October or February) and divided by two to arrive at a funding amount. For FY 2024, the multiplier increases to \$4,024. The complexity multiplier was \$3,775 in FY 2023.

The Basic Grant total is the sum of the amounts for foundation and complexity.

Reconciliation Process- October Count: During the 2023-2024 school year, IDOE will use the October 2, 2023, ADM count to determine Basic Grant funding for the period of July 1, 2023, through December 31, 2023. Because the October count will not be available on July 1, IDOE used an estimated ADM count for July through October payments.

When the October 2023 membership count is certified, IDOE reconciles the first six-months of funding as part of the November and December payments to reflect any over or under payment of the Basic Grant. An overpayment of the grant results when the July to October payments were made using an ADM estimate that was higher than the October 2023 actual ADM count. In this scenario, reconciliation of the October 2023 ADM count will result in a negative adjustment for the Basic Grant payments in November and December. For example, a lower actual ADM results in a school corporation or charter school having been overpaid by \$50,000 during the first

four months of the fiscal year. Therefore, the last two payments of the six-month period will be reduced by \$25,000 each month to reconcile the overpayment.

An underpayment results when the July to October payments were made using an ADM estimate that was lower than the actual October 2023. In this scenario, reconciliation of the October 2023 count will positively impact the Basic Grant payments for November and December. For example, if the recalculation results in a school corporation or charter school having been underpaid by \$50,000, the last two payments of the six-month period will increase by \$25,000 each month to reconcile the underpayment.

Reconciliation Process- February Count: IDOE will use the October actual ADM count to continue funding the Basic Grant for the months of January 2024 through March 2024 until the February ADM count is final. When final, the February ADM count is used to calculate funding for the period of January 1, 2024, through June 30, 2024. In April, IDOE will recalculate and adjust the April through June Basic Grant payments to reflect the change in funding for the first six-months of the fiscal year.

When the February 2024 count is final, IDOE will reconcile the first six-months of funding as part of the April through June payments to reflect any over or under payment of the Basic Grant. An overpayment of the grant results when the January through March payments were made using an ADM estimate that was higher than the February 2024 actual ADM count. In this scenario, reconciliation of the February 2024 ADM count will result in a negative adjustment for the Basic Grant payments in April through June. For example, a lower actual ADM results in a school corporation or charter school having been overpaid by \$60,000 during the period of January through March. Therefore, the last three payments of the six-month period will be reduced by \$20,000 each month to reconcile the overpayment.

An underpayment results when the January through March payments were made using an ADM estimate that was lower than the actual February 2024 count. In this scenario, reconciliation of the February 2024 count will positively impact the Basic Grant payments for April through June. For example, if the recalculation results in a school corporation or charter school having been underpaid by \$60,000, the last three payments of the six-month period will increase by \$20,000 each month to reconcile the underpayment. IDOE plans to use the same process in FY 2025.

Virtual Students: The formula calculation uses a count of virtual students at school corporations and charter schools to determine foundation funding. In FY 2024, the foundation amount for a virtual student is \$5,601.50, which is 85% of the foundation amount (\$6,590). In FY 2025, the foundation amount for a virtual student will be \$5,678.85, which is 85% of the foundation amount (\$6,681).

Additionally, school corporations or charter schools with virtual charters students are eligible for funding for special education, non-English speaking, career and technical education, and academic performance grants.

Attendance: For purposes of determining FY 2024 and FY 2025 basic tuition support for a school corporation, IDOE will review the daily attendance of each student to determine whether, of the

instructional services that the student receives from a school corporation, at least fifty percent (50%) is virtual instruction. For the fall (October) count of ADM, IDOE reviews the attendance for each student on each school day from the school corporation's first day of school until the October count date. For the spring (February) count of ADM, IDOE reviews the attendance for each student on each school day from the first day after the September count date until the February count date.

As part of reviewing daily attendance, IDOE will take into consideration whether a student transferred to the school corporation during either of the count dates that IDOE reviews daily attendance. (See IC 20-43-6-3)

Academic Performance Grant

Beginning in FY 2024, the Honors grant has been expanded and reclassified as the Academic Performance grant. The grant has five components which are Honors, Mid-year graduate, Dual Credit/Dual Enrollment, associate degree, and IN College Core 30. In FY 2024, a school corporation or charter school will receive the aggregate of each of the single largest amounts determined for each student under the following categories.

Mid-year graduate

The mid-year graduate component is based on a student's expected graduation year (as defined in IC 20-26-13-4) for the 2022-2023 school year in FY 2024 and the 2023-2024 school year in FY 2025. (See IC 20-43-10.5-2)

- The student was enrolled in the school corporation on the fall ADM count day.
- The student successfully completed Indiana high school graduation requirements before the February count day.
- The student was not enrolled in the school corporation on the February count day.

The grant amount is \$1,500.

Honors

Each school corporation, traditional charter school, and virtual charter school are eligible to receive \$1,100 for each student who received an academic honors diploma or a diploma with technical honors in school year 2022-2023 for FY 2024 and in school year 2023-2024 for FY 2025 funding. (See IC 20-43-10.5-3)

Additionally, since FY 2019 and continuing through FY 2025, the formula generates \$1,500 for a student who received an academic honors diploma or a technical honors diploma and who also received SNAP, TANF or Foster Care Assistance.

Dual credit/dual enrollment

The dual credit/dual enrollment component is based on a student who was enrolled in the school corporation in the state fiscal year before the immediately preceding state fiscal year and who successfully completed a dual credit or dual enrollment course. (See IC 20-43-10.5-4(a)(1)) The component has a \$1,200 per student cap and the per credit hours are multiplied by forty dollars (\$40).

For FY 2024, IDOE will use school year 2021-2022 data. For FY 2025, IDOE will use 2022-2023 data.

Indiana College Core 30

The Indiana College Core 30 component is based on a student who was enrolled in the school corporation in the state fiscal year before the immediately preceding state fiscal year and successfully completed Indiana College Core 30 (See IC 20-43-10.5-4(a)(2)) The amount awarded is \$1,500 for a qualifying student.

For FY 2024, IDOE will use school year 2021-2022 data. For FY 2025, IDOE will use 2022-2023 data.

Associate degree

The Indiana College Core 30 component is based on a student who was enrolled in the school corporation in the state fiscal year before the immediately preceding state fiscal year and successfully completed requirements for an associate degree, including those earned through a junior pathway transfer. (See IC 20-43-10.5-4(a)(3)) The amount awarded is \$2,500 for a qualifying student.

For FY 2024, IDOE will use school year 2021-2022 data. For FY 2025, IDOE will use 2022-2023 data.

Reconciliation Process: When final counts are known, IDOE reconciles academic performance funding by increasing/decreasing the remaining distributions. The reconciliation process is the same for FY 2024 and FY 2025.

Special Education Grant

School corporations, traditional charter schools, and virtual charter schools are entitled to receive a grant for special education programs. The Special Education Grant is based on a count of students who are enrolled in special education programs on December 1 of a fiscal year. In addition to the December 1 special education count, a second special education count is taken on April 1 but not used for special education funding. Both the December 1 and April 1 special education counts are provided to the State Budget Committee.

In FY 2024, there are six categories of funding for special education.

Special education funding amount

- \$11,104 multiplied by the unduplicated count of students with severe disabilities Level 1 in FY 2024 and increasing to \$11,659 for FY 2025.
- \$11,104 multiplied by the unduplicated count of students with severe disabilities Level 2 in FY 2024 and increasing to \$11,659 in FY 2025.
- \$2,790 multiplied by the unduplicated count of students with mild and moderate disabilities Level 1 in FY 2024 and increasing to \$2,930 for FY 2025.
- \$2,790 multiplied by the unduplicated count of students with mild and moderate disabilities Level 2 in FY 2024 and increasing to \$2,930 for FY 2025.
- \$525 multiplied by the duplicated count of students with communication disorders in FY

2024 and increasing to \$551 for FY 2025.

- \$525 multiplied by the duplicated count of pupils in homebound programs in FY 2024 and increasing to \$551 in FY 2025. .
- \$3,638 for FY 2024 and for FY 2024 multiplied by the special preschool education program pupil count in FY 2024 and increasing to \$3,820 for FY 2025.

Reconciliation Process: State law is specific as to how reconciliation works for the Special Education Grant. If an overpayment of special education funding occurs for the period of July through January, IDOE allocates the reduction over a four-month period from February through May to reflect the change. If an underpayment of special education funding occurs for the period of July through January, the department increases the February payment and allocates the remaining funds over the period of March through June.

Career and Technical Education (CTE) Grant

The Career and Technical Education grant has two components for FY 2024 and FY 2025. The two components are CTE enrollment and the Credentials Completion grant. School corporations, traditional charter schools, and virtual charter schools are eligible to receive funds for students participating in career and technical education programs.

CTE enrollment

The distribution of career & technical education monies is based on labor market demand and wage data calculated according to the formula below. School corporations and charter schools are eligible to receive a vocational education grant. Students enrolled in these categories must be enrolled and attending the school corporation and be counted in the school corporation ADM. For FY 2024, the formula uses fall 2023 career and technical education counts to calculate the grant. For FY 2025, IDOE will use fall 2024 career and technical education counts to calculate the grant. IDOE collects career and technical education data through the INTERS system at the Department of Workforce Development. All calculations are rounded to the nearest dollar.

For FY 2024 and continuing for FY 2025, the grant is based on the number of credit hours of the program (either one, two or three credits) multiplied by the number of students enrolled in the program multiplied by the applicable amount. For career and technical education programs, the formula follows:

Determine for each career and technical education program provided by the school corporation:

- (A) the number of credit hours of the program (one (1) credit, two (2) credits, or three (3) credits); multiplied by
- (B) the number of pupils enrolled in the program; multiplied by
- (C) the following applicable amount:
 - (1) Six hundred eighty dollars (\$714) for a high value level 1 program
 - (2) One thousand twenty dollars (\$1,071) for a high value level 2 program
 - (3) Four hundred dollars (\$400) for a moderate value level 1 program
 - (4) Six hundred dollars (\$600) for a moderate value level 2 program
 - (5) Two hundred dollars (\$200) for a less than moderate value level 1 program

- (6) Three hundred dollars (\$300) for a less than moderate value level 2 program
- (7) Five hundred dollars (\$500) for an apprenticeship program or a work-based learning program
- (8) Three hundred dollars (\$300) for an introductory program
- (9) One hundred fifty dollars (\$150) for a planning for college and career course
- (10) One hundred fifty dollars (\$150) for area participation count

The total Career & Technical Education Grant is the sum of the dollar amounts calculated under the formula above. The Indiana Department of Workforce Development defines the areas of job demand annually. If a school corporation feels the determined job demand categorization is not representative of their area, that school corporation may petition the Department of Workforce Development for re-categorization.

Credential Completion Grant

The Credential Completion grant is valued at \$500. The grant applies to a student who has legal settlement in Indiana, is at least age five and less than 22 years of age and is enrolled in grade 10, 11, or 12 and meets one of the following requirements.

1. The student successfully completed a modern youth apprenticeship or course sequence designated and approved under state law (See IC 20-51.4-4.5-6(a)) and received an industry recognized credential regarding the apprenticeship or course sequence.
2. The student received an industry recognized credential regarding the apprenticeship or course sequence.

State law requires IDOE to award the same grant to the Career Scholarship Account participating entity that provided the apprenticeship or course sequence described above that the student completed. The Credential Completion grant has a spending cap of five million dollars.

Reconciliation Process: When the final career and technical education counts are known, IDOE reconciles fiscal year Career and Technical Education funding for the first six-months in December and allocates the remaining funds are allocated over the period of January through June to distribute fifty percent of the grant in each six-month period.

IDOE plans to load final counts and reconcile the Credential Completion Grant in May over a two-month period for the fiscal year.

Non-English Speaking Program (NESP) Grant

The Indiana General Assembly increased funding for the NESP during the 2023 Legislative Session and continued the structure of the previous NESP funding formula, with tiered funding amounts by proficiency level. This increased funding includes an allotment of \$550 per EL student in the public school corporation who received a Level 1 or 2 overall proficiency on the WIDA ACCESS or participated in the Alternate ACCESS for ELs with significant disabilities. It then includes \$384 per EL student who received a Level 3 or 4 overall proficiency, or who received a Level 5 on the Tier A form, on WIDA ACCESS. This funding is allocated on a per-pupil basis in accordance with each public school corporations reported EL student count, reflected in the annual Multilingual Learner data collection in Data Exchange.

All public school corporations accurately reporting EL students via the annual Multilingual Learner data collection in Data Exchange will receive NESP per-pupil funding.

School corporations and charter schools will receive the funding directly within the monthly state tuition payments. EL student count data is collected in the fall and finalized soon after.

Reconciliation process: For the 2023-2024 school year, distributions will begin in December based on current year counts. In ensuing years, LEAs will begin receiving distributions in July, estimated using previous year counts, which will be reconciled in December based on current year counts.

State Tuition Support Total

Total State Tuition Support for FY 2024 and FY 2025 is the sum of the grants below for each school corporation, virtual charter school and charter school as they apply:

- Basic Grant
- Academic Performance Grant
- Special Education Grant
- Career and Technical Education Grant
- Non English Speaking Program Grant

In fiscal years 2024 and 2025, IDOE will continue to use two membership counts to calculate Basic Grant funds. During the same fiscal year, one set of final count will be used to calculate funding for academic performance, non-English speaking, career and technical education, and special education grants. IDOE's reconciliation process for State Tuition Support grants has been the same since FY 2014.

State Share: Fiscal years 2024 and 2025 total calculated State Tuition Support Grant amounts.

Local Share: None.

Requirements for Participation: Operate a public school corporation for at least 180 student days.

Extent of Participation: All school corporations and charter schools participate in this program and receive one or more of the State Tuition Support Grants. In FY 2024, IDOE anticipates distributing tuition support to 374 school corporations and charter schools.

Distribution: Based on a schedule set by the Budget Agency and approved by the Governor. The schedule must provide for at least 12 payments that cannot be more than 40 days apart, and the aggregate of the payments in each calendar year must equal the amount required under the statute.

Note: Should the amount to be distributed in either FY 2024 or FY 2025 exceed the statewide amount statutorily established for either year (referred to as the fiscal year cap), state law requires that the distribution to each school corporation shall be proportionately reduced so that the total

reductions equal the amount that the total distribution exceeds the statutory authority. (See I.C. 20-43-2-3)

The amount of the reduction in either year for a particular school corporation, including charter schools, is the result of multiplying the total excess (amount by which the statewide calculated formula exceeds the statutory statewide cap for either FY 2024 or FY 2025) multiplied by a fraction. The numerator is the amount the school corporation and charter school would have received if a reduction were not made; and the denominator is the total amount that would be distributed for tuition support to all school corporations if a reduction were not made.

SUMMER SCHOOL

Pursuant to PL 201-2023, 511 IAC 12-2-1-7, 511 IAC 6.1-5-2.6, 511 IAC 6.1-5-3.6, 511 IAC 6-7.1-2-8, 511 IAC 6-8-2

2023-2024	2024-2025
\$18,360,000	\$18,360,000

Reimbursement: The maximum reimbursement is 105 percent of eligible costs, reduced proportionately if the appropriation is not sufficient to fund all approved programs. IDOE reimburses eligible school corporations for approved summer school program classes by taking 1.05 multiplied by the amount expended for instructional costs of approved programs and reduced proportionately if the appropriation is insufficient to fund all programs at one hundred percent. Instructional costs, for purposes of the program, include only teacher salaries and teacher aide wages.

Eligible programs include all classes approved by the State Board of Education on or before January 15 of each year.

Reimbursable Programs for 2023 Summer School included all courses detailed in the ‘Indiana State Approved Course Titles and Descriptions for the 2022-2023 School Year’ at the high school level and in the ‘2022-2023 Indiana Elementary and Middle Level Subjects and Descriptions’ at the elementary and middle school levels.

State Share: The State share is the total amount of costs submitted for reimbursement, not to exceed \$18,360,000.

Local Share: The local share is all summer school costs not covered by State reimbursement.

Requirements for Participation: All school corporations must submit estimated costs and a list of classes to be offered in summer school for which the school corporation will seek reimbursement on or before April 1. Each school corporation must submit a claim for reimbursement on or before September 15 following the summer school program.

Extent of Participation: For summer 2023, 309 schools received a payment for reimbursement of summer school costs. The final costs submitted by school corporations totaled \$28,143,064.66.

Distribution: Reimbursement is made after all summer school reports are received and approved and this is normally in November of each year. The reimbursement rate for 2023 summer school was approximately 65% and totaled \$18,360,000.

TEACHER APPRECIATION GRANT (TAG)

Pursuant to P.L. 201-2023 and I.C. 20-43-10-3.5

2023-2024	2024-2025
\$37,500,000	\$37,500,000

Teacher Appreciation Grant

The Teacher Appreciation Grant, formerly known as the Annual Performance Grant, was appropriated by HEA 1001 (the Biennial Budget) during the 2021 Legislative Session of the General Assembly. It awards stipends to highly effective and effective teachers in their annual evaluations. School corporations, charter schools, and virtual charter schools are eligible for the grant. These stipends are based on a formula described in I.C. 20-43-10-3.5.

Teacher Appreciation Grant Overview: The following requirements apply to TAG.

- Local education agency (LEA) must adopt an annual policy for distribution of TAG.
- Policies may differentiate award amounts between school buildings.
- A stipend awarded to a Highly Effective teacher must be at least 25% higher than the award to an Effective teacher.
- **A school may allocate up to 10% of the grant received by the school to provide a supplemental award to teachers who serve as mentors to teachers who have less than two (2) years of service.**
- TAG policies are annually submitted to IDOE.
- Grants may be given as cash stipends; and/or
 - Grants (up to 50% of the award amount) may be given as an increase to the base salary.
 - Additions to the base salary do not have to be bargained but must be discussed with the exclusive representative of the teachers.
 - Distribution must occur within 20 business days of receipt from IDOE.

Teacher Appreciation Grant Eligibility: For purposes of the TAG, teacher means a professional person whose position is with a:

- School corporation
- Special education cooperative established under IC 20-35-5
- Cooperative career and technical education program
- Special education program established by an inter-local agreement under IC 36-1-7.
- Joint program agreement established under IC 20-26-10
- Charter school, or
- Requires a license (as defined in IC 20-28-1-7) and whose primary responsibility is the instruction of students in the classroom or virtual classroom.
- Rated Effective or Highly Effective and employed in the LEA as of December 1.

Distribution Formula: \$37.50 x current Average Daily Membership (ADM)

TEACHER'S SOCIAL SECURITY AND RETIREMENT

Pursuant to P.L. 201-2023

2023-2024	2024-2025
\$2,157,521	\$2,157,521

The State's reimbursement consists of a monthly distribution to 20 non-school corporation entities (special and vocational education independent cooperatives, county auditors, and educational service centers) based on their 1992-93 obligation for social security for certified staff. Beginning in 1996, it also includes a reimbursement of 8.5% of the salaries of employees in the 1996 fund of the Teacher Retirement Fund.

State Share: The State share is 100% of the obligation, not to exceed the appropriation available.

Local Share: The local share is all costs not covered by State reimbursement.

Requirements for Participation: Non-school corporation entities must file for this reimbursement and have been in operation and incurred social security obligations in 1992-93 and been responsible for contributions to the 1996 fund of the Teacher Retirement Fund.

Extent of Participation: Independent special and vocational education cooperatives, two county auditors, and two education service centers receive reimbursement.

Distribution: Reimbursement is made on the first day of each month.

VETERANS MEMORIAL SCHOOL CONSTRUCTION FUND- REGULAR

Regular loans pursuant to I.C. 20-49-2

Loans are determined based on the School Building Index, a ratio between classroom need expressed in dollars, and school corporation current debt.

State Share: Advancement to any school corporation under the provisions of I.C. 20-49-2-9 shall not be more than \$250,000. However, the maximum dollar amount may be waived if:

1. The school corporation has an adjusted assessed valuation per pupil ADA of less than \$8,400.
2. The school corporation's Debt Service Fund tax rate would exceed one dollar per \$100 of assessed valuation without a waiver of the dollar limitation.

Local Share: A prerequisite for obtaining the proceeds from a loan is that the school corporation must have issued bonds for the purpose of constructing, remodeling, or repairing school buildings in 90% of the maximum amount allowable under the constitution and laws of the State. The amount of the repayment on the principal, plus one percent (1%) interest on the declining balance, is withheld by the State from the corporation's basic grant distribution and transferred to the Veterans Memorial School Construction Fund.

Extent of Participation: Since 1969, 78 school corporations have obtained loans from this fund. Currently, there are no outstanding regular loans.

Distribution: During 2023, no funds were distributed from the fund.

VETERANS MEMORIAL SCHOOL CONSTRUCTION FUND- DISASTER

Disaster Provisions pursuant to I.C. 20-49-2-11

State Share: The amount of the loan will be determined by multiplying the State's average cost of construction per pupil (as determined by P.L. 81-815) by the number of pupils displaced by the disaster. School corporations may apply for only the difference between the insurance coverage and the replacement cost of the facility.

Local Share: Repayment is made in annual installments over a maximum of 20 years. The amount of repayment on the principal, plus one percent (1%) interest on the declining balance, is withheld by the State from the school corporation's basic grant distribution and transferred to the School Disaster Loan Fund.

Requirements for Participation: The school corporation must have suffered loss by fire, flood, tornado, wind, or other disaster that makes all or part of the school building unfit for school purposes as defined in I.C. 20-26-7-29 through I.C. 20-26-7-34. The maximum amount of the loan may not exceed three million dollars (\$3,000,000).

Extent of Participation: Currently three school corporations have outstanding loans.

Distribution: Loans are distributed in accordance with the guidelines established by the State Board of Education.
