INDIANA
DEPARTMENT of
EDUCATION

An Update From the Indiana Department of Education for September 22, 2023

Indiana Department of Education sent this bulletin at 09/22/2023 07:00 AM EDT

Indiana Department of Education

Dr. Katie Jenner, Secretary of Education

A Message from Dr. Katie Jenner

Tomorrow is the official first day of fall...my favorite time of year...and the best time of year to hit the road for some school visits! Over the next month and a half, we are planning visits in northern, central, and southern Indiana, and I can't wait.

This fall, in addition to our ongoing literacy work focused on science of reading, we will also remain laser focused on rethinking the high school experience. The key question is, how might we make the four years of high school as valuable as possible for our students, including developing the essential skills needed for success, regardless of their unique path ahead?

This collaborative and comprehensive effort officially launched earlier this spring with a Graduation Landscape Analysis. The analysis included an in-depth look at how Indiana's graduation pathways and diploma requirements have evolved over time, as well as examples of graduation/diploma practices in other states. The analysis also included stakeholder engagement, which ultimately helped us focus our state's work into three key areas:

- **Diploma requirements** - Making high school diploma requirements **more flexible and relevant** to students, employers, and communities

- **High-quality work-based learning** - Improving access to and the number of students completing **high-quality work-based learning opportunities**
- **Credentials of Value** - Increasing access to and the number of students completing **high-value postsecondary credentials before high school graduation**

This ongoing work was the subject of last week's State Board of Education [half-day work session](#), where we had an opportunity to hear from two national thought leaders in this space: [Patricia Levesque](#), CEO of the Foundation for Excellence in Education and [Dr. Tim Knowles](#), President of the Carnegie Foundation for the Advancement of Teaching. See their presentations [here](#).

As we continue to drive this work in Indiana and at the national level, it's important to elevate the impact that many Indiana schools and educators, in conjunction with community partners and employers, are already leading in this space. Last month, I had the opportunity to visit two such schools in southeastern Indiana. Let me take a moment to share a bit with you...

Rising-Sun High School (RSHS) in Ohio County is hard at work ensuring their students are earning high-value postsecondary credentials before graduation. **Principal Noel Bostic** shared that through collaboration with higher education partners, 27% of students at this endorsed [early college high school](#) earned an associates degree prior to graduation in 2023, and 35% of their students earned the Indiana College Core!

Not only are Rising-Sun students benefiting from dual enrollment and dual credit, but teachers are, too. Educators teaching dual credit are offered a \$1,000 stipend per class with an extra incentive of \$1,000 for a class with 20 or more students enrolled.

Just down the road in Switzerland County, **Superintendent Rod Hite** showed off a new addition to **Switzerland County High School**. This addition will connect their middle and high school buildings (in the past, students had to walk outdoors), as well as provide space for a *ninth grade academy*. The new ninth grade academy is the impetus for redesigning some of their high school course offerings, leading to high-quality job placements and early high school credit earnings for their middle school students. The new addition houses nine new classrooms, including a large maker space, biology lab, extended learning and collaboration spaces, and more, to maximize the student experience. I look forward to seeing how it all comes together.

As we work together to make high school as valuable as possible for our students, your voice and influence are a key part of setting our state, and ultimately our students, up for success. Thank you for the collaborative work you are already leading and for your willingness to roll up your sleeves and seize this opportunity...together!

Important Legislative Update

UPDATE: Legislatively-Required and Other Guidance Surrounding Newly-Enacted Legislation

Following the close of each legislative session, the Indiana Department of Education (IDOE) immediately begins working to implement newly-enacted legislation impacting K-12 education, which includes compiling guidance for educators. Guidance is a product of robust cross-agency collaboration and partnership with countless stakeholders. Any future updates will be added to [this comprehensive guidance document](#) and shared via the weekly newsletter.

NEW: Submit Your Graduates on Data Exchange

The deadline to submit graduates on Data Exchange is quickly approaching. Please check your 2023 cohort on [EdData](#) to ensure that all students who graduated have a graduate status on the cohort report. Students who graduated and do not have a graduate status should be submitted now on Data Exchange. Graduates are submitted with a 2024 Enrollment Record and a Graduate Record. Students have until Saturday, September 30, 2023, to meet the graduation requirements to be a 2023 graduate. Contact IDOE's [Office of Accountability](#) with any questions.

UPDATE: School Performance Report Requirements

In lieu of issuing letter grades for the 2022-2023 and 2023-2024 school years, HEA 1591 requires IDOE to develop a school performance report for public and state accredited non-public schools to post on their websites by October 15, 2023. IDOE is also required to provide the General Assembly with future accountability recommendations by December 1, 2024.

The school performance reports will provide additional transparency around key data points, helping parents, families, and communities to better understand the work happening in our schools. Initial guidance was shared earlier this summer in [this memo](#).

In response to this legislation, IDOE has developed a school performance report for each public and state accredited non-public school, which will be available in the coming weeks, via Indiana GPS. Additional guidance, including instructions for schools to embed the school performance report on their school website, will also be released at this time. Contact IDOE's [Office of Accountability](#) with any questions.

NEW: Membership (ME) Reporting Status

This year, ME reporting for fall has moved to coincide with the pupil enrollment count. The official ME count date is Monday, October 2. As of Monday, September 18, there were more than 1,000,000 membership records ready to be certified. As ME counts are reported, there has been a significant decrease in data errors and conflicts and IDOE appreciates the proactive work of school data teams to resolve data quality issues and sort out conflicts resulting from multiple schools claiming the same student. Contact the [Data Exchange Team](#) with any questions.

REMINDER: Data Collection from Career and Technical Education (CTE) Centers

For the 2023-2024 school year, CTE centers are expected to submit the same data to IDOE as was submitted in the 2022-2023 school year. CTE centers will do this via Data Exchange. [This memo](#) explains how the various types of CTE programs should be reporting data in concert with local high schools. As new expectations come online for course-based data including graduation plans, course enrollments, and course outcomes, it is even more critical that the entire student academic record comes directly to IDOE from the source data systems. IDOE and the Indiana Commission for Higher Education (CHE) will continue to work together to improve the integration and streamlining of data collection from schools and CTE centers. Finally, IDOE has produced extensive documentation to support the accurate submission of required data elements. This documentation is available on the [Knowledge Hub](#). Contact the [IT helpdesk](#) with any questions.

REMINDER: Cybersecurity for Education Toolkit 2.0 Now Available

Visit [Indiana's Cybersecurity Hub webpage](#) for additional resources for inside and outside of the classroom.

REMINDER: CISA Offers Free Cybersecurity Resources for K-12 Schools

As shared in early February, CISA released “Partnership to Safeguard K-12 Organizations from Cybersecurity Threats,” with an accompanying toolkit to provide schools targeted resources to improve their cybersecurity posture. These resources call out very specific actions that schools can take to drastically reduce their cybersecurity risk. Schools are strongly encouraged to review and implement these recommendations as we begin the 2023-2024 school year. Also, the Free Cybersecurity Services and Tools link below provide access to many great resources that will assist schools as they implement the recommended actions.

REMINDER: Resolution of Conflicts for Membership 2023

Beginning with the 2023-2024 school year, IDOE will no longer be brokering the resolution of conflicts after the certification date. If, after the certification date, schools are unable to resolve an outstanding conflict, schools may petition the State Board of Education for an adjustment in their average daily membership (ADM) count by providing the Board with evidence supporting an adjustment in their membership claim. The process for petitioning the Board will be made available this fall and communicated in Dr. Jenner's Weekly Update. IDOE wants to make sure each school receives full funding for the students they are serving and completes the Membership count within two to three weeks of the count date. This process will help achieve both of these goals. See this [memo](#) for a more complete explanation of this change. Contact the [Data Exchange Team](#) with any questions.
