Commendations

- * The food was attractive and appealing on the serving lines. Several choices for fresh fruits and vegetables were available for the students. The staff was prepared and organized for the administrative review.

Technical Assistance

- * The foodservice director assumed that the preschool class was eating in the cafeteria and not in their classroom which requires that the preschool meal pattern be followed. She will address this with the principal and preschool teacher because she wants to follow the meal pattern for grades K-5.
