Commendations

- * The office staff was very organized and prepared for the Administrative Review. The menu offered kid friendly meals and provided three entree choices. A food service employee was out on the day of the review and the principal stepped in to help serve the students. Staff demonstrated the desire to run a compliant program.

Technical Assistance

- * The kitchen staff should review the food safety plan yearly. A separate sheet of paper attached to the food safety plan with the date and personnel signatures would suffice.
- * The Wellness Committee should review the wellness policy yearly and update the policy if needed. The triennial assessment was completed this year. During the review, the office personnel added a statement to the bottom of the wellness policy stating the results of the assessment could be obtained at the office.
- * The part-time employee should be trained on offer verses serve and meal components before the year is over.
