APPENDIX A – TEACHER RESOURCE GUIDE

GRADE 7 – Peoples, Places and Cultures in Africa, Asia and the Southwest Pacific

Updated August 2016

This Teacher Resource Guide has been developed to provide supporting materials to help educators successfully implement the social studies standards. These resources are provided to help you in your work to ensure all students meet the rigorous learning expectations set by the Academic Standards. Use of these resources is optional – teachers should decide which resource will work best in their school for their students.

This resource document is a living document and will be frequently updated. Please send any suggested links and report broken links to:

Chronological Thinking, Historical Comprehension, Analysis and Interpretation, Research

7.1.15 Create and compare timelines that identify major people and events and developments in the history of civilization and/or countries of Africa, Asia and the Southwest Pacific.

Resources

- [China's Terra Cotta Warriors](#)

7.1.16 Analyze cause-and-effect relationships, bearing in mind multiple causation in the role of individuals, beliefs and chance in history.

7.1.17 Distinguish between unsupported expressions of opinion and informed hypotheses grounded in historical evidence.
Content Area Literacy Standards: 6-8.LH.2.2, 6-8.LH.4.2

7.1.18 Compare and contrast perspectives of history in Africa, Asia, and the Southwest Pacific using fictional and nonfictional accounts including visual, literary, art, and musical sources

Resources

- [China's Terra Cotta Warriors](#)

Standard 2 Civics and Government

Students trace the development of different forms of government in different historical eras and compare various contemporary political structures in Africa, Asia and the Southwest Pacific in terms of power, approach to human rights and the roles of citizens.

Foundations of Government

7.2.1 Compare, contrast, and evaluate the different routes to independence from colonial rule taken by countries in Asia, Africa and the Southwest Pacific.

Example: [Australia, India and South Africa](#)

Resources

- [Decolonization of Asia and Africa, 1945-1960](#)
- [Colonization and Nationalism in Southeast Asia](#)
- [1900 to 1950: A Half Century of Crisis and Achievement](#)

7.2.2 Compare and contrast historical and contemporary governments in Africa, Asia, and the Southwest Pacific.

Examples: [Japan, North Korea, India, South Africa, and China](#)

Resources

- [Women in Africa: Tradition and Change](#) EDSITEment lesson plan-In this lesson students can gain insight into the lives of some black women in Sub-Saharan Africa by adopting a perspective that is in part traditional, based on the arts of African village life, and in part postcolonial, based on the work of African women writing in English and French today
- [China and the New Imperialism](#)
- [Imperialism in the Far East](#)
- [Imperialism and the Open Door](#)
- [Japan's Rapid Rise and Fall](#)
- [Meiji Imperialism: Japan Joins the West](#)

Functions of Government

7.2.3 Describe how major forms of governments of Japan, North Korea, India, South Africa and China currently protect or violate the human rights of their citizens.

Resources

Forms of Government

- [Paradoxes of Global Acceleration 1945 - Present](#) - World History for us all site of Era 9-1945 to present. Good summary of world events for teachers complete with lesson plans!
- [Explore Japan](#)
- [India: Government](#)
- [North Korea: Government](#)
- [South Africa: Government](#)

- [China: Government](#)

Human Rights

- [Japan](#)
- [North Korea](#)
- [India](#)
- [South Africa](#)
- [China](#)

7.2.4 Compare and contrast the functions of international organizations in Africa, Asia and the Southwest Pacific.

Resources

- [What is OPEC?](#) Introduction to OPEC from WiseGeek.
- [Home page for OPEC](#)
- [50 Years of OPEC](#) -Short article but great graph on OPEC prices since 1960.
- [The Price of Gasoline: What's Behind It](#)" MS lesson plan from EconEdLink. In this lesson, students investigate the variables that contribute to the cost of gasoline. They learn that while OPEC nations do influence the price of oil and thus the price of gasoline, other factors also influence the price. Great lesson to incorporate policy and economics together.

Roles of Citizens

7.2.5 Define, compare and contrast citizenship and the citizen's role in the government of selected countries of Africa, Asia and the Southwest Pacific.

Standard 3 Geography

Students use technology and grid systems to identify and categorize places (physical, cultural, countries, large cities), major geographic characteristics (human and physical), and regions in Africa, Asia, and the Southwest Pacific. They use geographic skills, perspectives, and technologies to analyze relationships within and between these regions and the rest of the world.

Geography Websites

- <http://geographyworldonline.com/> -A teacher's website that has been online for 13 years-lots of resources searchable by country, natural resources, biomes, cultures, population, and weather-you name it. A huge site!!

The World in Spatial Terms

7.3.1 Formulate a broad understanding of the location of countries of Africa, Asia and the Southwest Pacific

Resources

- [African Geography from Mr. Donn.](#)
- [Australia](#) -Great 28 slide PPT of Australia-good general introduction to the continent.
- [Treasures of the Earth: Discover Clues to the Past](#)
- [China's Terra Cotta Warriors](#)

7.3.2 Formulate a broad understanding of the location of capital cities in Africa, Asia and the Southwest Pacific using latitude and longitude on maps and with locational technology such as Global Positioning Systems and Geographic Information Systems.

Resources

- [Map Skills](#) -Map skills for the world-keep scrolling down!!
- [GIS - Geographic Information Systems and GPS - Global Positioning Systems websites.](#)

Places and Regions

7.3.3 Use historical maps to identify changes in Africa, Asia and the Southwest Pacific over time.

Resources

- [Historical Maps Online](#) -For 20 years, David Rumsey assembled a collection of more than 150,000 historical maps of the Americas and the world. Motivated by a desire to make his private map collection a free public resource, Rumsey then created an online map library, <http://www.davidrumsey.com/>, which currently has over 10,000 high resolution images of maps from his collection. He has also built a suite of tools for users to experience and interpret the maps online.
- <http://www.atlasofworldhistory.com/> -Free software that lets you [create world history maps](#)
- [China's Terra Cotta Warriors](#)

7.3.4 Identify major physical characteristics of regions of Africa, Asia, and the Southwest Pacific, such as deserts, basins, plains, mountains, and rivers, and describe their formation

Physical Systems

7.3.5 Describe ecosystems of Africa's deserts, Asia's mountain regions, and the coral reefs of Australia and use multiple information resources to discover environmental concerns that these ecosystems are facing today.

Resources

- [Mr. Donn's lesson on Australia's Great Barrier Reef.](#)

7.3.6 Compare and contrast the distribution of natural resources in Africa, Asia and the Southwest Pacific; describe how natural resource distribution can impact the wealth of a country.

Resources

- [Natural Resources & Energy websites.](#)

7.3.7 Describe the limitations that climate and land forms place on land or people in regions of Africa, Asia and the Southwest Pacific.

Resources

- [Where in the World Would You Like to Live?](#) -This lesson asks students to compare thematic maps of the continents and the world as a whole to determine where they would like to live (besides their own home region). They will view several [online thematic maps](#) and will conclude by writing paragraphs describing the three places in the world they think they would most like to live, assuming they had been asked to move far away from home.
- [International Food Court](#) -This lesson helps students learn about the characteristics of the world's regions by investigating the types of food that are common in different parts of the world. Students will conduct research to find out about the climate, landscape, and cultures of a few countries. They will compile their findings into a plan for an international food court in a local mall, describing the types of food [that](#) will be served, the decor, and the entertainment.
- [Mr. Donn's page on Human Geography](#)

Human Systems

7.3.8 Identify current trends and patterns of rural and urban population distribution in selected countries of Africa, Asia and the Southwest Pacific and analyze the causes for these patterns.

Example: Life expectancy, income, literacy rate, industry, education, natural resources, and climate

Resources

- [Interpreting Population Statistics](#) -This lesson introduces students to such population statistics as birth, death, and literacy rates. Students will compare these indicators for several countries, graph the results, and hypothesize what their graphs reveal about the countries.
- [Population](#) -Tons of links on population around the world.
- [Area and Population of Countries chart.](#)
- [World Urban Population Density by Country and Area](#)

7.3.9 Provide examples of ethnocentrism and how this attitude affected the relationships between different peoples in Africa, Asia, and the Southwest Pacific.

Resources

- [What Masks Reveal](#) -EDSITEment lesson plan-In this lesson, students explore the cultural significance of masks by investigating the role they play in ceremonies and on special occasions in societies from widely separated regions of the world. They then reflect on masking behavior in American society, such as at Halloween and in the circus.

Environment and Society

7.3.10 Analyze current issues and developments related to the environment in selected countries in Africa, Asia and the Southwest Pacific.

Resources

- [Geography topics around the world.](#)
- [Conservation & Environmental Issues](#)-many sites to explore in this area.

Standard 4 Economics

Students examine the influence of physical and cultural factors upon the economic systems found in countries of Africa, Asia and the Southwest Pacific.

Grade 7 Econ Resources (from ICEE)

7.4.1 Explain how voluntary trade benefits countries and results in higher standards of living in Africa, Asia, and the Southwest Pacific.

Example: Voluntary trade results in increased production, increased consumption of goods and services, and lower prices for consumers.

Resources

- <http://www.econedlink.org/lessons/index.php?lid=68&type=educator> -The concept of comparative advantage makes a strong case for free, unrestricted trade among nations. Yet, some people support the use of tariffs or quotas to restrict or stop the international flow of goods and services. These barriers to trade exist in most countries and have differing effects on producers and consumers in the countries involved.

7.4.2 Illustrate how international trade requires a system for exchanging currency between and among nations.

Key Terms/Topics

Resources

- [China's Terra Cotta Warriors](#)

Resources

- <http://www.econedlink.org/lessons/index.php?lid=25&type=educator> -In September 1998, the Malaysian government instituted controls in order to protect its currency. How does this affect the prices of goods and services purchased by foreigners? Students gain a better understanding of the consequences of the steps taken by the Malaysian government.

7.4.3 Trace the development and change over time of the economic systems (traditional*, command*, market* and mixed*) of various cultures, societies or nations in Africa, Asia and the Southwest Pacific. and analyze why these changes occurred over time

- * **traditional economy:** an economy in which resources are allocated based on custom and tradition
- * **command economy:** an economy in which resources are allocated by the government or other central authority
- * **market economy:** an economy in which resources are allocated by individuals and businesses responding to changes in prices
- * **mixed economy:** an economy in which resources are allocated by some combination of traditional, command or market systems

Resources

- <http://ancienthistory.mrdonn.org/money.html> -Background on ancient money and bartering.
- http://edsitement.neh.gov/view_lesson_plan.asp?id=501 -The spread of Islam across North Africa in the 7th century dramatically increased trans-Saharan trade. As the market expanded, strategically sited towns became major centers of commerce, welcoming merchants from distant lands.
- <http://www.regentsprep.org/Regents/global/themes/economic/index.cfm> -This site is designed to aid students in reviewing the concept of Economic Systems, Factors of Production, Needs and Wants, and Scarcity in preparation for the New York State Regents Exam in Global History and Geography.
- <http://www.econedlink.org/lessons/index.php?lid=258&type=student> -This lesson will help you discover the importance of the Crusades to the expansion of the trade boundaries as well as mental boundaries of many European countries.

7.4.4 Compare and contrast the standard of living of various countries in Africa, Asia, and the Southwest Pacific using Gross Domestic Product (GDP)* per capita as an indicator; hypothesize how factors, including urbanization, industrialization, and globalization could affect the differences in the standard of living statistics.

* **Gross Domestic Product (GDP):** the value of all final goods and services produced in a country in a year

7.4.5 Analyze different methods that countries in Africa, Asia and the Southwest Pacific have used to increase their citizens' individual human capital*.

- **human capital:** the skills and expertise people acquire from education, training, and experience.

7.4.6 Identify ways that societies deal with helpful and harmful externalities (spillovers*) in Africa, Asia or the Southwest Pacific.

Example: Government support of public education and governments taxing or regulating pollution

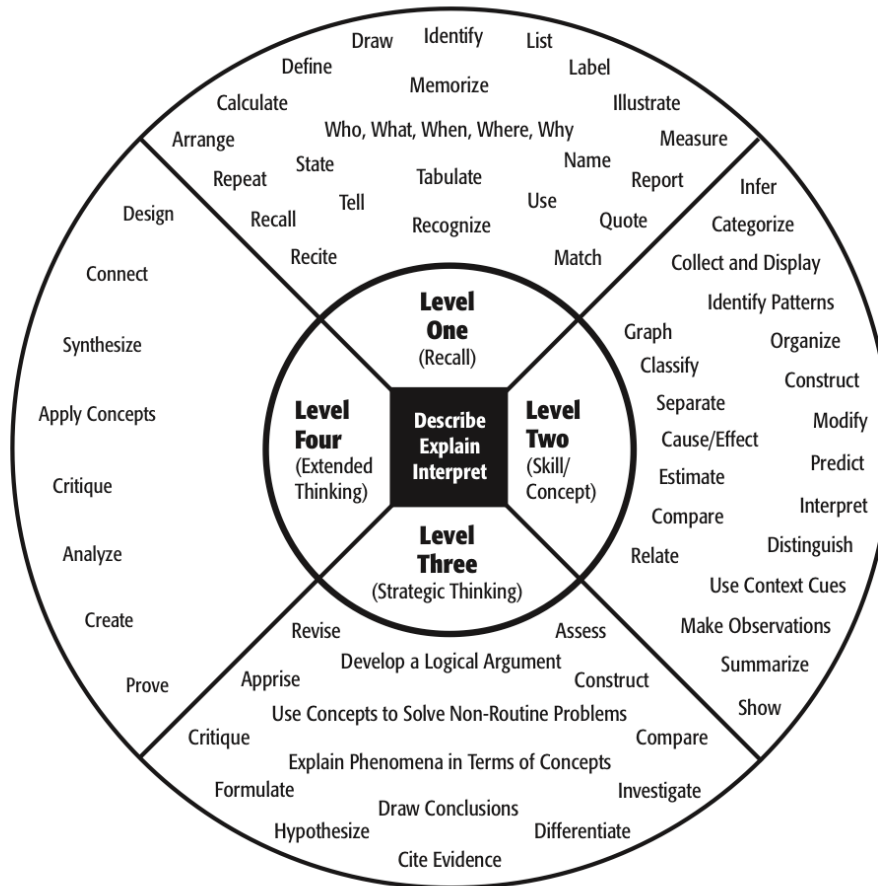

* **externality (spillover):** the impact of an activity (positive or negative) on the well-being of a third party

Resources

- <http://www.econedlink.org/lessons/index.php?lid=218&type=educator> - In this EconEdLink lesson, students learn about recycling rates in Japan and the United States, specifically examining the disposal of large appliances and questions of who bears the cost of the recycling. They then create hypothetical situations in which they predict how consumers would respond if the government were to change incentives for recycling and also to forecast the effect these incentives might have on the supply and demand for a good. Several pieces of literature appropriate for use with this lesson are suggested. ***Could easily tie-in to the new Indiana state law about recycling electronics.

APPENDIX B

Depth of Knowledge (DOK) Levels

Level One Activities	Level Two Activities	Level Three Activities	Level Four Activities
Recall elements and details of story structure, such as sequence of events, character, plot and setting.	Identify and summarize the major events in a narrative.	Support ideas with details and examples.	Conduct a project that requires specifying a problem, designing and conducting an experiment, analyzing its data, and reporting results/ solutions.
Conduct basic mathematical calculations.	Use context cues to identify the meaning of unfamiliar words.	Use voice appropriate to the purpose and audience.	Apply mathematical model to illuminate a problem or situation.
Label locations on a map.	Solve routine multiple-step problems.	Identify research questions and design investigations for a scientific problem.	Analyze and synthesize information from multiple sources.
Represent in words or diagrams a scientific concept or relationship.	Describe the cause/effect of a particular event.	Develop a scientific model for a complex situation.	Describe and illustrate how common themes are found across texts from different cultures.
Perform routine procedures like measuring length or using punctuation marks correctly.	Identify patterns in events or behavior.	Determine the author's purpose and describe how it affects the interpretation of a reading selection.	Design a mathematical model to inform and solve a practical or abstract situation.
Describe the features of a place or people.	Formulate a routine problem given data and conditions.	Apply a concept in other contexts.	
	Organize, represent and interpret data.
