

## Indiana Course Access Portal (iCAP) Providers

iCAP providers and their courses are approved by the Indiana Department of Education. Below you will find each provider's own description of their organization and what is offered through iCAP.

### [Achieve Virtual](#)

“Achieve Virtual is a public high school within the Metropolitan School District of Wayne Township. The school district has an established history of quality online learning that dates back to 1999, with the initial creation of Indiana Online Academy. Achieve Virtual has been an established public virtual high school since 2011.

Achieve Virtual provides a unique experience for students through the use of teacher developed, NCAA approved courses. All of the school's coursework is designed and taught by highly qualified, licensed Indiana educators. It is important to the staff of the M.S.D. of Wayne Township that all of our courses are designed by Indiana educators specifically for Indiana students.”

### [Apex Learning](#)

“Apex Learning offers a catalog of more than 200 middle and high school courses, used by states and school districts nationwide for original credit and credit recovery. Apex Learning serves nearly one million students with 2.5 million enrollments. Headquartered in Seattle, Apex Learning is accredited by AdvancEd and its digital curriculum is approved by leading education organization including the National Collegiate Athletic Association and the College Board. Apex Learning Virtual School is an established, accredited online high school that exists to create opportunities for students. Students can earn their diploma online at our full-time school or get ahead, catch up, and resolve scheduling conflicts with our individual online courses. We focus on a student's success and surround them with support, making sure they get help when they need it. Our courses will prepare your student for subsequent courses, end-of-course exams, and standardized tests.”

### [Edmentum EdOptions Academy](#)

“Edmentum has more than 50 years of experience driving significant advances in the industry and offers a wide variety of innovative solutions spanning a multitude of program areas to empower 21st-century teaching and learning. All Edmentum products are research-based and multiple case studies and efficacy reports have been conducted supporting the effectiveness of the programs.

EdOptions Academy uses our Plato Courseware courses, which are built with rigorous instructional design standards targeted specifically at online Environments.

EdOptions Academy gives you the assurance of accreditation by the AdvancED Commission (NCA) as a distance education school. This nationally recognized accreditation is the same accreditation granted to traditional schools. That means that the Academy has met AdvancED's rigorous and comprehensive standards for student learning with continuous improvement focused on higher student achievement. The Academy curriculum consists of online courses whose effectiveness has been proven over time."

#### [EVSC Virtual Academy](#)

"As a program of the Evansville Vanderburgh School Corporation, the EVSC Virtual Academy provides pathways to achievement to provide equity and excellence for students in grades K-12. The flexibility of online curriculum taught by a licensed teacher will expand the classroom experience with opportunities for achievement by eliminating socioeconomic and logistical barriers to quality education and assist students to achieve college and career readiness skills.

The teachers and director provide daily support including instruction and assistance for students, parents, and school officials through email, phone calls, face to face instruction when appropriate, and video conferencing. The software also provides weekly progress reports for students and other adults listed as coaches. The progress reports include a link to show real time daily instruction and assessment work as well as a listing of completed work each day.

Since 2010, 4,150 students have earned one or more credits in the EVSC Virtual Academy."

#### [Ivy Tech Community College](#)

"Ivy Tech Community College is the largest dual credit provider for high school students (9-12) in Indiana accounting for approximately 60% of the total dual credit offered in the state. During 2016-17, Ivy Tech partnered with over 400 high schools and career centers including traditional public, public charter, private and parochial schools. Nearly 60,000 students (unduplicated headcount) were served in these schools earning transcribed college credit. The success rate of students taking dual credit from Ivy Tech, as measured by earning a grade of C or higher, is typically in the range of 85% of the total. Ivy Tech's dual credit program is accredited through the Indiana Commission for Higher Education (ICHE) based upon standards adopted by the National Alliance of Concurrent Enrollment Partnerships. Ivy Tech has been designated by the Indiana Commission for High Education as a "preferred provider" of dual credit continuously since 2011"

#### [Indiana Online](#)

"Indiana Online helps learners achieve their educational goals by providing proactive learning opportunities in an innovative, interactive online environment.

We believe in:

- infusing current digital learning skills for each student in all Indiana Online courses.
- providing academic challenges for each student.
- using a variety of teaching strategies to motivate each student to successfully master standards.
- giving each student an equal opportunity to learn.
- assisting each student to assume responsibility for personalized learning.
- providing each student with highly qualified, licensed teachers for every course.
- providing a high-tech environment with the means for frequent, personalized contact between the teacher and each student.

Supported by Central Indiana Educational Service Center (CIESC), Indiana Online offers supplemental online high school courses in partnership with over 300 high schools statewide. All courses are designed to meet the Indiana State Standard, are accredited by AdvancED (Cognia), and approved by the NCAA. Our Advanced Placement courses are approved by the College Board. Most high school courses that Indiana Online offers are developed with a subject matter expert and an Instructional Designer. They are taught by Indiana licensed teachers, each teaching within his or her content area.”

#### [Imagine Learning \(Edgenuity\)](#)

“Founded in 1998, Imagine Learning, formerly Edgenuity, is a leading provider of online and blended learning solutions, offering a comprehensive suite K-12 digital curriculum through our Cognia (formerly AdvancED) accredited schools. Imagine Learning partners with schools and districts across the nation to provide standards-aligned online courses for use by district teachers or taught by virtual instructors who are highly qualified and state-certified. Programs are research-based and a variety of efficacy reports and case studies support program effectiveness. School and District personnel have ongoing access to real-time data and reports, providing the ability to track and monitor student progress and performance at any time. Additionally, when using Instructional Services with high school students, the Imagine Learning curriculum and instructional model meet the NCAA requirements for online courses.”
