Three Tiers of Metrics

- **KPIs** or “Key Performance Indicators” are reported on the Governor’s Dashboard from every agency in State government.

- Program Funding Measures are reported every quarter to the *Office of Government Efficiency and Financial Planning* in the *Office of Management and Budget* to show performance by funding source.

- Other statistics in this report are management statistics for use by IDOL Management in tracking the outputs and outcomes of departmental processes.

## Index | Management Statistics

### Occupational Injuries, Illnesses and Fatalities
- Annual Nonfatal Occupational Injury and Illness Rate

### Customer Service Surveys
- All IDOL Customer Survey Responses
- Divisional Scores
- Customer Surveys by Division

### Indiana Occupational Safety and Health Administration
- Number of IOSHA Inspections
- IOSHA Monthly Inspection Totals
- IOSHA Divisional Inspection Totals
- Number of IOSHA Workplace Fatality Investigations
- Workplace Fatality Investigations by Cause of Death
- IOSHA Inspection Elapsed Time in days
- Percentage of IOSHA Inspections with Violations
- Indiana Board of Safety Review
- Whistleblower Cases

### Wage and Hour
- Meritorious Wage Claims with Recovery of Wages
- Number of Wage Claims Received
- Wage Claims Average Elapsed Time
- Number of Common Construction Wage Hearings
- Common Construction Wage Audits Closed

### INSafe
- Quarterly Number of INSafe Consultations
- Average Elapsed Time for INSafe Consultations
- Total INSafe Consultations and Interventions

### Bureau of Mines
- Number of Coal Mine Inspections
- Percentage of BOM Inspections with Violations
- BOM Certifications Issued

### Quality, Metrics and Statistics
- SOII Response Rate

### Child Labor
- Child Labor Inspections Completed
- Number of Child Labor Trainings
- Percentage of Child Labor Inspections with Violations

### Operations
- Total IDOL Miles Driven
- IDOL Miles Driven by Personal, Fleet & Rental
- Percentage of IDOL Miles Driven with Personal Vehicle
- Total IDOL Miles Driven Against January ’06 Benchmark
Key Performance Indicators (KPIs) are used to demonstrate the overall performance of the Department of Labor. These metrics are reported to the Office of the Governor and the Indiana Office of Management and Budget. The KPIs are included on the Governor’s dashboard report.
The Nonfatal Occupational Injury and Illness rate shows an estimate of the number of workplace injuries and illnesses per 100 employees. The data is collected by the Quality Metrics and Statistics (QMS) division through the Survey of Occupational Injuries and Illnesses. The rate is reported annually nine-months after the survey year ends.
KPI #2: Average Nonfatal Occupational Injury and Illness Rate for Emphasis Industries in Indiana

Based on high injury and illness rates, the Indiana Department of Labor has identified Agriculture, Healthcare, and Transportation as specific emphasis areas for our safety and health efforts. This graph shows the average of the nonfatal occupational injury and illness rates for Agriculture, Healthcare, and Transportation.
KPI #3:  
Number of Businesses Participating in Indiana Safety and Health Achievement Recognition Program (INSHARP) and the Voluntary Protection Program (VPP)

The Indiana Safety and Health Achievement Recognition Program (INSHARP) and Voluntary Protection Program (VPP) are exemplary programs that provide recognition, rewards and ongoing support to Hoosier employers that operate exemplary safety and health management systems. Membership in these programs is voluntary.
Program Funding Measures show the outcomes and outputs of Indiana Department of Labor programs in each of the agency’s funding sources. These metrics are reported quarterly to the Indiana Office of Management and Budget.
# Program Funding Metrics

KPIs can double as Program Funding Metrics.

</tbody>
</table>
This metric measures the average elapsed time to complete IOSHA inspections with citation from the Opening Conference through the date the citation is issued. Cases may sometimes take several months to complete, so the data for the two most recent quarters may fluctuate as these inspections are closed.
The quarterly goals for Number of IOSHA Inspections performed per quarter have decreased due to tremendous changes in staffing over the last 18 months. With so many new Compliance Safety and Health Officers (CSHOs) and the new OSHA Express software, 2014 will be considered a rebuilding year.
After reviewing the documentation provided by both an employee and an employer, the Indiana Department of Labor considers a wage claim meritorious if it is determined that the employee is owed the wages claimed. This graph shows the percentage of claims where wages are owed and money is paid to the claimant.
The Bureau of Child Labor investigates Indiana employers for violations of Indiana’s Child Labor laws. This chart shows the number of investigations performed by the Bureau of Child Labor.
This metric measures how many on site consultations are conducted by INSafe each quarter. A consultation is a formal safety education experience that is tailored to the company who has requested it.
The fluctuation in inspection numbers corresponds with staffing levels in the Bureau of Mines. In Quarter 1 2008, an additional mine inspector was added. This position was eliminated in Quarter 4 2009 and subsequently re-hired in Quarter 1 2012.
The Survey of Occupational Injury and Illness (SOII) is conducted from mid-January to mid-July each year and collects results from the previous calendar year. The survey rate is reported to GEFP annually upon completion of the survey.
Management Statistics
Customer Surveys are collected from hand-completed and electronically-submitted survey forms. The forms have five categories that are scored from 1 (Poor) to 4 (Excellent). Twenty (5 categories X 4) is a perfect score.
Customer Surveys are collected from hand-completed and electronically-submitted survey forms. This chart shows the number of surveys received by the Indiana Department of Labor per division.
This stacked bar chart shows the number of Construction and General Industry inspections performed by the Indiana Occupational Safety and Health Administration (IOSHA) each month.
This chart shows the number of inspections performed by the Construction and General Industry divisions of the Indiana Occupational Safety and Health Administration (IOSHA) each quarter.
Due to jurisdictional issues, the Indiana Occupational Safety and Health Administration (IOSHA) investigates many, but not all, workplace fatalities that occur in Indiana. This chart shows the number of fatality investigations conducted per quarter.
Due to jurisdictional issues, the Indiana Occupational Safety and Health Administration (IOSHA) investigates many, but not all, workplace fatalities that occur in Indiana. This chart shows the causes of death in the investigated fatalities.
This chart shows the average elapsed time to complete IOSHA Construction and General Industry inspections with citation from the Opening Conference through the date the citation is issued. Inspections may sometimes take several months to complete, so the data for the two most recent quarters may fluctuate as these inspections are closed.
Indiana Occupational Safety and Health Administration (IOSHA) investigations do not always result in a citation or monetary penalties. Sometimes, investigations are completed but no violations are cited. These charts show the percent of Construction and General Industry investigations with violations.
The Board of Safety Review meets once per month to hear employer appeals of Indiana Occupational Safety and Health Administration (IOSHA) citations. The charts above show the number of cases closed and pending per quarter.
The Indiana Occupational Safety and Health Administration (IOSHA) investigates claims of retaliation against employees who “blow the whistle” on unsafe practices in their place of employment. Above are charts showing the number of cases closed and the average elapsed time for Whistleblower cases each quarter.
The Bureau of Child Labor conducts training classes covering Indiana’s Child Labor laws. From Quarter 2 2009 through Quarter 3 2013, these trainings were performed regularly by the Director of Child Labor, Training and Education.
Not all investigations performed by the Bureau of Child Labor result in violations or monetary penalties. This chart shows the percentage of Child Labor investigations where violations were cited.
Employees who feel they have been paid incorrectly may file a wage claim with the Indiana Department of Labor (IDOL). The Wage and Hour Division contacts the employer, compares the documentary evidence provided by both parties and determines if the employee is owed past wages.
Employees who feel they have been paid incorrectly may file a wage claim with the Indiana Department of Labor (IDOL). The Wage and Hour Division contacts the employer, compares the documentary evidence provided by both parties and determines if the employee is owed past wages. The average elapsed time starts at receipt and ends at determination.
Indiana’s Common Construction (prevailing wage) law requires that a public hearing be held for nearly all public works projects where the bids are estimated to be in excess of $350,000. This chart shows how many hearings are held each quarter.
The Indiana Department of Labor investigates alleged violations of Indiana’s Common Construction (prevailing wage) law. This chart reflects the number of closed Common Construction Wage audits per quarter.
Employers may request free occupational safety and health consultations from INSafe. Consultation services include a hazard identification walkthrough and a review of an employer’s safety programs and procedures. The average elapsed time starts at the date of assignment and ends when the final report is issued.
Employers may request free occupational safety and health consultations from INSafe. Consultation services include a hazard identification walkthrough and a review of an employer’s safety programs and procedures. Interventions are presentations, speeches or questions a consultant performs outside of a typical consultation.
The Bureau of Mines performs inspections at all Indiana underground coal mines. This chart shows the percent of those inspections where a violation is cited.
The Indiana Mining Board administers certification testing for miners in the classifications of Mine Foreman, Mine Examiner, Belt Examiner, Hoisting Engineer and Shot Firer. Above are the numbers of certifications per quarter.
In the course of investigations, inspections, consultations, trainings and hearings, Indiana Department of Labor staff drive motor vehicles almost everyday. This chart shows the total miles driven each quarter.
In the course of investigations, inspections, consultations, trainings and hearings, Indiana Department of Labor staff drive motor vehicles almost everyday. This chart shows the total miles driven each month using state, personal or rented vehicles.
In the course of investigations, inspections, consultations, trainings and hearings, Indiana Department of Labor staff drive motor vehicles almost everyday. This chart shows the percentage of the total miles driven each month using the employee’s personal vehicle.
In the course of investigations, inspections, consultations, trainings and hearings, Indiana Department of Labor staff drive motor vehicles almost everyday. This chart shows the percentage of the total miles driven each month against the benchmark set in January of 2006.
