Indiana Department of Labor

Using the Online Work Permit System

The Benefits of the Online Work Permit System

The Online Work Permit System (OWPS) can be used to issue teen work permits, process termination notices, and to revoke teen work permits. The system is designed to automate many functions of the work permit process and reduce administrative time required by Indiana schools to manage teen work permits.

Benefits of the system:

- 1) Eliminates the need for typewriters and carbon paper in favor of modern resources;
- 2) Eliminates the need to mail the bottom portion of the work permit to the department of labor;
- 3) Eliminates the need to maintain Office Record Cards;
- 4) Maintains an employment history for all teens who have been issued a work permit;
- 5) Allows quick verification of valid work permits; and
- 6) Allows for easy reprinting of lost work permits.

Logging on and using the Online Work Permit System

To use the Online Work Permit System, type in the secure web address: https://secure.IN.gov/apps/dol/work_permit into your Internet browser. (A link to the system can also be found at www.in.gov/labor/childlabor/index.html) Before entering the web site, you will be prompted by a logon screen to type in your user name and password. If you have not yet been provided a user name and password, please contact the Bureau of Child Labor at (317) 232-2655.

From the OWPS home page, three functions are available:

1. Search Existing Student Records;
2. Browse the List of Students; and
3. Create a New Student Record.

These three functions will help you to create or edit student records; to add, update, or revoke active work permits; and to process termination notices.

The screenshot shows the 'accessIndiana' website header with the Indiana state logo and the slogan 'Working in a state of progress'. Below the header, the page title is 'Department of Labor Work Permits' and there is a 'Welcome' message on the right. The main content area is titled 'Broad Ripple High School (code 5477)'. It prompts the user to 'Please select from the following options:' and provides two main sections. The first section contains two links: 'Search Existing Student Records' and 'Browse the List of Students'. Below these links, a text box explains that these options are used to view information for students with existing profiles and that users can edit student information or add new work permits. The second section contains a link for 'Create a New Student Record'. Below this link, a text box explains that this option is used to create a new profile for a student and that users can then add a new work permit for that student.

After you have created a new student profile, you will be given the opportunity to add a new work permit for that student.

Issuing Work Permits

- 1) A Student Record is required for each teen worker that is to be issued a work permit.

You will only set up one Student Record for each teen. Once the Student Record has been established, it stays in the system allowing you to review the Student Record to process termination notices, revocations, and subsequent work permit issuances. The OWPS maintains each student's employment history and eliminates the need for the Office Record Card.

- 2) A work permit may be issued to the teen's Student Record. The work permit may also be revoked or the termination notice processed from the teen's Student Record.

Creating a New Student Record

From the OWPS home page, select "Create a New Student Record" to create a new profile for the student. You will be prompted to enter the student's last name and their birth date to verify that the teen does not already have an existing Student Record.

If a match is found, the screen will look as follows:

The screenshot shows the 'accessIndiana' website interface. At the top, there is a blue header with the 'accessIndiana' logo on the left and the 'Indiana Working in a state of progress' logo on the right. Below the header, the page title is 'Department of Labor Work Permits' and 'Welcome' is displayed in the top right corner. The main content area is titled 'CREATE A NEW STUDENT RECORD' and contains the following instructions:

- ▶ The following students were found with the Last Name and Birth Date you entered. If any of the students in the list match the student you wish to enter data for, then click on the student's name to edit data for that student.
- ▶ If none of the students in the list match the student you wish to enter data for, then click here to [create a new Student Record](#).
- ▶ Select **back** to return to the main page.
- ▶

Below the instructions is a table with the following data:

At the bottom of the main content area, there is a '← back' link.

If this is the student for whom the work permit is to be issued, click on their name.

If the teen does not have a Student Record, select "Create a New Student Record." You will then be taken to "Create a New Student Record" page. This page is demonstrated in the following figure:

If everything checks out, you will have chance to confirm the work permit information. Once this information is confirmed, the OWPS creates a work permit for the teen worker.

If the "cancel" option is selected, the "Edit Student Record" screen will appear. If the "continue" option is selected to confirm the termination of the work permit, the "Work Permit Successfully Terminated" page will appear.
