

## NAVIGATING THE CHANGE: INDIANA'S NEW OSW PERMITTING SYSTEM

In 2019, INDOT and DOR announced the development of a new Oversize/Overweight permitting system by ProMiles, an industry leader in motor carrier technology. Customizing the system to meet the needs of DOR, INDOT and our customers took more time than we originally thought. We are finally prepared to launch the system the morning of Monday, Feb. 8.

*Unfortunately, permitting services will be interrupted beginning at 12 a.m. EST on Wednesday, Feb. 3.*

### Frequently Asked Questions

#### Why is the OSW system changing?

With our new OSW permitting system, you will have new ways to input your destination and the option to choose a pre-approved route or one of the system's alternate routes to receive your permit immediately. Routes needing additional services will be developed more quickly, saving you time.

#### Why are permitting services being interrupted?

We understand our customers have come to rely on the 24/7 convenience of online permitting. However, both systems cannot operate at the same time. Therefore, to fully implement the new system, a temporary shutdown is necessary. Much like closing an interstate for a short time vs. long-term lane closures, shutting down the permitting system for a few days will save you time in the long run.

### New Indiana Oversize/Overweight Permitting System Rollout Information

**Carriers with loads under 200,000 lbs. GVW will be allowed to use permits that have expired no more than 14 days prior to travel; however, you must check for any new road restrictions or closures on your permitted route at [intr.carsprogram.org](http://intr.carsprogram.org) before traveling.**

#### Prepare for Shutdown

**Tuesday, Feb. 2  
11:59 p.m. ET**

All applications must be complete by 11:59 p.m. ET on Tuesday, Feb. 2.

Incomplete permit applications and unpaid permits will not be moved to the new system; you will have to reapply for them on Feb. 8.

#### Limited Services

**Feb. 3, 12 a.m. -  
Feb. 4, 4 p.m. ET**

Customers can view, pay and print permits already in the system.

Customers cannot apply for new permits.\* There will be no non-payment penalty for permits that are approved but not paid for prior to 4 p.m. ET on Feb. 4.

#### New System Online

**On or after  
Monday, Feb. 8  
in the morning**

New Indiana Oversize/Overweight Permitting System online.

Customers can apply and pay for new permits.

\*New permits in the event of an emergency as defined by INDOT will be available. Escrow accounts, bond, checks and credit card payments will be accepted through 4 p.m. EST on Thursday, Feb. 4; after which, immediate payment by credit card will be required until the new system launches on Feb. 8.

Permitting System

## When will online permitting services be restored?

Our team will continue working aggressively behind the scenes to ensure full service is restored on the morning of Feb. 8, wrapping up permits in process and preparing emergency permits. The graphic above shows the schedule for services for the week of Feb 1. Full details are also available at [osw.dor.in.gov](http://osw.dor.in.gov).

## Why can't the temporary shutdown be postponed?

While we understand individual businesses may be busy, February is traditionally the slowest period for OSW permits. Postponing the transition closer to the spring construction period would adversely impact a higher number of customers.

## How should I prepare?

**Plan ahead.** Communicate the information below with your staff and customers to ensure awareness. Most permits are valid for 15 days and OSW permitting will be unavailable (except in an emergency as defined by INDOT) for less than seven days.

**Customers should apply for new permits in the current system by 11:59 p.m. EST on Tuesday, Feb. 2, and paid for and printed by 4 p.m. EST on Thursday, Feb. 4.**

- Carriers with loads under 200,000 lbs. GVW will be allowed to use permits that have expired no more than 14 days prior to travel; however, you **must**:
  - Use the same vehicle configuration, load and routes specified on your permit;
  - Check for any new road restrictions or closures on your permitted route at <https://intr.carsprogram.org> before traveling; and
  - Have a copy of your OSW permit and M-204 (general provisions) with the driver.
- DOR will not assess a non-payment penalty for permits that are approved but not paid for prior to Thursday's cutoff time.

[osw.dor.in.gov](http://osw.dor.in.gov)

### **What if I have an emergency?**

Customers may obtain permits in the event of an emergency as defined by INDOT (see below) from 4 p.m. EST on Feb. 1 until the system comes online the morning of Feb. 8 by contacting:

- James Vest – OSW Permitting Supervisor, DOR Motor Carrier Services at 317-690-6343 or
- Leslie Morgan – Freight Manager, INDOT at 317-234-2739

Please note that:

- Escrow, credit card, check and bond payments for emergency permits will be available through 4 p.m. EST on Thursday, Feb. 4.
- Emergency permit applied for between 4 p.m. EST on Feb. 4 until the new system launches on Feb. 8 will require immediate payment by credit card.

Customers need to keep in mind that emergency permits take longer to prepare and require manual routing so patience is appreciated.

### **How does INDOT define an “emergency”?**

INDOT will allow DOR to issue emergency OSW permits from 12:00 a.m. EST on Feb. 3 until the new system comes online the morning of Monday, Feb. 8 for the following reasons only:

- Unexpected equipment failure that shuts down a manufacturing process.
- Train derailment.
- Breakdown or threatened breakdown of electric, gas, water or telephone public utility facilities.
- Responding to a situation that poses an immediate danger to life or health (*e.g.*, a smokestack damaged by high winds is threatening to fall).

### **How can I learn to use the new system before it goes live on Feb. 8?**

Gear up for the new system by:

- Watching an [online demonstration](#) by ProMiles.
- Reading the [comprehensive online user guide](#).
- Review the [quick start guide](#) the highlights the process for basic permits, and
- Knowing [how to import vehicles](#) into the new system.
