IC 6-3.1-4-2 is amended to provide that for qualified research expenses incurred after December 31, 2007, the credit is equal to the taxpayer’s qualified research expense for the taxable year minus the base period amount, multiplied by 15% or $1,000,000 whichever is less, and plus 10% of the excess over $1,000,000.

IC 6-3.1-30 is added to create the Headquarters Relocation Tax Credit. The act provides that a business that relocates its corporate headquarters to Indiana is entitled to a credit equal to 50% of the costs incurred in relocating the headquarters. The credit claimed in a taxable year cannot reduce the taxpayer’s tax liability to less than the liability incurred in the taxable year immediately proceeding the taxable year in which the taxpayer incurred relocation costs. The credit can be carried forward for nine years, and is not refundable and cannot be carried back to previous years.
SEA 79 – (Effective July 1, 2005) IC 9-18-2-7 is amended to provide that the bureau of motor vehicle can establish a staggered registration system for intrastate carriers.

SEA 140 – (Effective Upon Passage) the act amends the charity gaming statute in several areas. Adds IC 4-32-6-4.5 to define a “bona fide business organization as an organization that is exempt from federal income tax under Section 501(c)(6) of the Internal Revenue Code. The organizations include business leagues and chambers of commerce.

IC 4-32-16-6.4 defines a “licensed supply” as bingo supplies, pull tabs, punchboards and tip boards.

IC 4-32-6-20 adds a bona fide business organization to the list of entities that are considered qualified organizations.

IC 4-32-6-20.2 adds a definition of “qualified personal property” to mean personal property leased by an organization to conduct an event on a body of water, and used to conduct a raffle where the property is marked with a number corresponding to the number of a chance purchased in a raffle, with the winner of the raffle determined by the number on the item that crosses the finish line first. This is also commonly referred to as a “duck race”.

IC 4-32-7-3 provides that the department may not adopt a rule that requires a qualified organization to use a minimum percentage of the qualified organization’s gross receipts for related activities for the lawful purpose of the organization. The department is also precluded from adopting a rule to limit the rent that may be charged to a qualified organization to lease property for a “duck race”.

IC 4-32-9-9.5 is added to authorize the commissioner to issue an annual door prize license to a qualified organization if the organization pays the fee set by the department and meets other standards set by the department.

IC 4-32-9-16 deletes the provision that allowed the department to adopt a rule to set the allowable expenditures of a qualified organization. Adds a provision that determines the net proceeds from an allowable event to be the gross receipts from the event, minus the value of the prizes awarded at the event, the price paid for licensed supplies dispensed at the event, and the amount of the license fee attributable to the allowable event.

IC 4-32-9-20 adds a provision that the lease of qualified personal property for a “duck race” cannot be based on the revenue generated from the event, and the department may not limit the amount of rent charged to the qualified organization for the qualified personal property.

IC 4-32-9-37 provides that a person that leases qualified personal property to an organization is not considered to be an operator or worker for the event.

IC 4-32-9-38 provides that the Department may not deny a license to an organization based on the amount of rent charged to the organization for the lease of qualified personal property.
IC 4-32-11-3 provides that the annual license fee for an annual door prize license is not based on the fee structure that relates to the renewal fee based on gross proceeds derived from the previous license.

NON CODE SECTION provides that 45 IAC 18-3-7 and 45 IAC 18-3-8 are void. These rules concerned the use of proceeds by the qualified organization.

SEA 213 – (Effective July 1, 2005) The act adds IC 6-2.5-5-28 which defines tobacco as cigarettes, cigars, chewing or pipe tobacco or any other item that contains tobacco for purposes of the Streamlined Sales and Use Tax Agreement.

IC 6-2.5-5-20 clarifies that tobacco is not a food item.

IC 6-2.5-5-39 defines cargo trailer and recreational vehicle, and to exempt from the sales tax aircraft, recreational vehicles and cargo trailers with a gross vehicle weight rating of 2,200 pounds. The exemption only applies to aircraft, recreational vehicles and cargo trailers that are purchased by a non resident and are going to be registered in another state or territory within 30 days. The exemption for aircraft is 100% of the tax that would be due for a sale to an Indiana resident. The exemption for a cargo trailer or recreational vehicle is the difference between the amount of tax that the item would be charged if the item was purchased by an Indiana resident and the amount that would be charged in the purchaser’s state of residence. This equates to the purchaser paying the amount of tax that would be charged in the purchaser’s home state to the state of Indiana at the time the cargo trailer or recreational vehicle is purchased. The act requires the selling dealership to have on file within 60 days of purchase, a copy of the purchaser’s title or registration or pay to the state the amount of the exemption. The purchaser must complete an affidavit stating the purchaser’s intent to register the trailer or vehicle in another state. The Department is required to provide the form of the affidavit and the information to the seller so that the correct amount of tax is collected at the time of the sale.

IC 6-2.5-11-10 allows a collection allowance that is provided by member states to sellers or certified service providers in exchange for collecting the sales and use tax under the Streamlined Sales and Use Tax Agreement.

SEA 329 – (Effective January 1, 2005, Retroactive) The act authorizes the food and beverage tax to remain in effect in Henry County until December 31, 2015. The amended sections include IC 6-9-25-1; IC 6-9-25-9.5; IC 6-9-25-10.5; and IC 6-9-25-11.5.

IC 6-3.1-27-8 is amended to provide that the corporation must certify facilities that are eligible for the biodiesel production credit. Eliminates a provision that the credit will be reduced by any credit or subsidy that the taxpayer is entitled to receive from the federal government for the production of biodiesel. The act raises the cap for the biodiesel production credit to $3,000,000 per taxpayer for all taxable years. This amount can be adjusted to $5,000,000 with the approval of the corporation.

IC 6-3.1-27-9 is amended to provide that the blended biodiesel credit must be approved by the corporation, and the cap for a producer of blended biodiesel is increased to $3,000,000 per taxpayer for all taxable years. IC 6-3.1-28-10 is amended to provide that the taxpayer must provide a copy of the corporation’s certification in order to claim the credit.

IC 6-3.1-28-11 is amended to provide that the maximum credit per taxpayer for all taxable years is $3,000,000.

IC 6-3.1-29 is added to create the Coal Gasification Technology Investment Tax Credit. The act provides that the credit is 10% of the taxpayer’s qualified investment for the first $500,000,000 invested and 5% for the amount that exceeds $500,000,000. The credit must be taken in ten equal installments beginning with the year that the facility is placed in service. The annual credit is the lesser of the amount determined above divided by ten, or the greatest of 25% of the adjusted gross income tax liability or the utility receipts tax liability. This amount is then multiplied by the amount of Indiana coal used in the taxpayer’s powerplant in the taxable year.
SEA 414 – (Effective July 1, 2005 and January 1, 2006) IC 6-3.1-4-2.5 is added to provide that a business engaged in the production of civilian and military jet propulsion systems, is a United States Department of Defense contractor, employs at least 3,000 people in Indiana, and pays more than 400% of the hourly minimum wage, may elect an alternative method of calculating the research expense credit. The taxpayer may elect to calculate the credit in the following manner. The credit will equal a percentage determined by the Indiana economic development corporation not to exceed 10% multiplied by the taxpayer’s Indiana qualified research expenses for the taxable year minus 50% of the taxpayer’s average Indiana qualified research expenses for the three preceding taxable years.

The act also amends several sections of the Economic Development for a Growing Economy (EDGE) tax credit to provide that if the business is located in a CRED district or a certified technology park, the local legislative body has adopted an ordinance recommending the granting of a credit amount that is at least equal to the credit amount provided in the EDGE agreement.

The act eliminates the requirement in EDGE for retention that at least one other state is competing for the project or the relocation of the jobs.

The act reduces the number of jobs from 200 to 75 that the applicant employs in Indiana for the retention credit. The act removes the requirement for a specific local match of $1.50 for every $3.00 of credit awarded, and changes it to an amount determined by the Indiana Economic Development Corporation.

The act provides that the average wages that must be paid will be based on wages paid by the business’s NAICS code and not the average wage paid in the county.

The act provides that EDGE for retention will be extended to June 30, 2007 from its current expiration date of June 30, 2005.

The act reduces the requirement that a business maintain its Indiana operations from 10 years after the last credit year in the agreement to two years after the last credit year in the agreement.

credit from 30% to 10%. The act removes the provision that the credit is the lesser of the
percentage of qualified investment or the tax liability growth.

IC 6-3.1-26-15 is amended to provide that the credit carry forward will be determined by the
Indiana Economic Development Corporation but not to exceed nine years.

IC 6-3.1-26-18 is amended to remove the requirement that the applicant has to have conducted
business in Indiana for at least one year.

The global commerce center expires 15 years after it is designated by the corporation.
