FORM OF PERFORMANCE BOND

Bond No. _____

For

I-65 SOUTHEAST INDIANA PROJECT

KNOW ALL WHO SHALL SEE THESE PRESENTS:

THAT WHEREAS, the Indiana Department of Transportation, an agency of the State of Indiana (“INDOT” or Obligee”) has awarded to **[INSERT DESIGN-BUILDER’S NAME]** (the “Design-Builder” or “Principal”), a Public-Private Agreement, I-65 Southeast Indiana Project (the “Agreement”) to design and build the I-65 Southeast Indiana Project (the “Project”);

AND WHEREAS, it is one of the conditions of the Agreement that these presents shall be executed;

NOW THEREFORE, We the undersigned Principal and _____ (the “Surety” or “Co-Sureties”) are firmly bound and held unto the Obligee, in the penal sum of _____ Dollars (\$ _____) good and lawful money of the United States of America for the payment whereof, well and truly to be paid to the Obligee, we bind ourselves, our heirs, successors, executors, administrators, and assigns, jointly and severally, firmly by these presents.

THE CONDITION OF THE FOREGOING OBLIGATION IS SUCH THAT:

1. If the Principal shall in all things stand to and abide by and well and truly keep, perform and complete all covenants, conditions, agreements, obligations and work under the Agreement, including any and all amendments, supplements, and alterations made to the Agreement as therein provided, on the Principal’s part to be kept and performed at the time and in the manner therein specified, if the Principal shall indemnify and save harmless the Obligee, its directors, officers and agents, as therein stipulated, and if the Principal shall reimburse upon demand of the Obligee any sums paid the Principal which exceed the final payment determined to be due upon completion of the Project, then these presents shall become null and void; otherwise they shall remain in full force and effect.

2. The obligations covered by this Bond specifically include liability for liquidated damages and warranties as specified in the Agreement, but not to exceed the bonded sum.

3. The Surety (or Co-Sureties) agree(s) that no change, extension of time, alterations, additions, omissions or other modifications of the terms of the Agreement, or in the work to be performed with respect to the Project, or in the specifications or plans, or any change or modification of any terms of payment or extension of time for any payment pertaining or relating to the Agreement, or any conditions precedent or subsequent in this Bond attempting to limit the right of recovery of claimants otherwise entitled to recover under this Bond, or any fraud practiced by any other person other than the claimant seeking to recover this Bond, shall in any way affect its obligations on this Bond, and it does hereby waive notice of such changes, extension of time, alterations, additions, omissions or other modifications.

4. The Surety (or Co-Sureties) agree(s) that payments made to contractors and suppliers to satisfy claims on the payment bond do not reduce the Surety's legal obligations under this Bond. Payments made to contractors or suppliers under any agreement where the Surety has arranged for completion of the work to satisfy this Bond will not be considered payment bond claims.

5. Whenever the Principal shall be, and is declared by INDOT to be, in default under the Agreement, provided that INDOT is not then in material default thereunder, the Surety (or Co-Sureties) shall promptly:

(a) remedy such default, or

(b) complete the work covered by this Bond in accordance with the terms and conditions of the Agreement then in effect, or

(c) select a contractor or contractors to complete all work covered by this Bond in accordance with the terms and conditions of the Agreement then in effect, using a contractor or contractors approved by INDOT as required by the Agreement (provided, however, that the Surety may not select the Principal or any affiliate of the Principal to complete the work for and on behalf of the Surety without INDOT's express written consent), arrange for a contract meeting the requirements of the Agreement between such contractor or contractors and INDOT, and make available as work progresses (even though there should be a default or a succession of defaults under such contract or contracts of completion arranged under this paragraph) sufficient funds to pay the cost of completion less the unpaid balance of the contract price; but not exceeding, including other costs and damages for which Surety (or Co-Sureties) is (are) liable hereunder, the bonded sum.

6. **[Use in case of multiple or co-sureties]** The Co-Sureties agree to empower a single representative with authority to act on behalf of all of the Co-Sureties with respect to this Bond, so that the Obligee and claimants will have no obligation to deal with multiple sureties hereunder. All correspondence from the Obligee or claimants to the Co-Sureties and all claims under this Bond shall be sent to such designated representative. The designated representative may be changed only by delivery of written notice (by personal delivery or by certified mail, return receipt requested) to the Obligee designating a single

new representative, signed by all of the Co-Sureties. The initial representative shall be _____.”

Notes to Tables:

- Each measure of length shall be rounded up to the next mile. For instance, a closure of 100 feet shall be considered one mile. A closure of 1 mile and 100 feet shall be considered two miles.
- Each measure of time shall be rounded up to the next unit (15 minutes, hour or Day, as applicable). For instance, if a lane closure occurs for 16 minutes and the unit

increment is 15 minutes, it shall be counted as a 30 minute closure and twice the amount shall be payable.

3. An “occurrence” means a Construction Closure that started and continued past a listed start time, or started during a listed time period and the Design-Build Contractor did not comply with the notice, planning and, as applicable, pre-approval requirements relating Permitted Construction Closures. An occurrence happens once during any listed time period. For instance, if a Construction Closure was not planned in advance and the Design-Build Contractor closes a lane during a listed period, that is one “occurrence” and no other charges apply during that time period. “Occurrence” only applies to nighttime single lane Construction Closures on I-65 Mainline NB or SB.
