CONSTRUCTION MEMORANDUM
07-06

TO: District Deputy Commissioners
   District Highway Operation Directors
   District Construction Engineers
   District Testing Engineers
   District Area Engineers
   Project Engineers/Supervisors

FROM: Mark A. Miller, Director
       Division of Construction Management

SUBJECT: IC-730 Request for Approval of Subcontractor

State Form 4351, INDOT form IC-730 "Request for Approval of Subcontractor" has recently been revised and a copy is attached for your information.

Although the look of several fields on the form has been changed the only substantial change is that the column labeled "UNIT PRICE PAID (SUB)" has been deleted. The remaining column labeled "UNIT PRICE BID" is now to be used to record the bid unit price for each item the proposed subcontractor will be performing. If a subcontractor will be performing only a portion of the bid item, it is up to the prime contractor to explain how the total bid unit price is being split out. This explanation can be on the form itself or attached as a separate sheet. The sum of the portions of a split bid item must equal the contract total for the item.

Another change is that a place has been added to track the dollar amount and percent of work being self performed by the prime contractor. This should make it easier to know if a prime has exceeded the allowed sublet percentage. Keep in mind that the percent of work performed is based on the bid unit prices, not the actual dollar amount paid to a subcontractor. Tracking of actual subcontractor payments will be done separately thru a process being developed by the Equal Opportunity and Contract Administration Divisions.

The new form is available in 3 formats:

1. Hard copy pads of forms are available from the Division of Construction Management. Contact Roger Tepner at 317-232-5120 to arrange pickup.
2. A “read-only” PDF version is available on the Commission on Public Records website at http://www.in.gov/icpr/webfile/formsdiv/dot.html. A link to the website is on the INDOT web page under “Publications”. The form can be printed, completed then submitted.

3. An electronically “fillable” PDF version is also available on the Commission on Public Records website at the address above. The form can be completed electronically, printed, signed then submitted.

Contractors should begin using the new form as soon as possible, but the previous form will be acceptable until July 1, 2007 after which only the revised form should be accepted.

Questions concerning use of the new form should be directed to Ron Heustis of the Office of Construction Technical Support at 317-234-2777 or rheustis@indot.in.gov.

**TOTAL AMOUNT**

It is hereby certified that a written subcontract agreement has been made between the Prime Contractor and this proposed Subcontractor, and that said agreement does physically contain all pertinent provisions and requirements of the prime contract.

It is understood that approval of this request shall not relieve the Prime Contractor of any responsibility for the fulfillment of the contract. It is further understood that the total amount of work sublet shall not exceed that percentage allowed by the specifications.

The proposed Subcontractor is required to complete the CERTIFICATION on the reverse side of this request.

**Name of prime contractor**

**Name of subcontractor**

**Signature of prime contractor**

**Date (month, day, year)**

**Signature of subcontractor**

**Date (month, day, year)**

**APPROVAL**

- The proposed subcontractor is prequalified.  
- Prequalification is not required for this type of work.  
- Prequalification is not required for $300,000 or less.

**Recommended by**

**Approved by (Construction Engineer)**

**Date (month, day, year)**

BY MEMO 08-02

BY MEMO 08-02
INSTRUCTIONS FOR COMPLETING FORM IC-730 “REQUEST FOR APPROVAL OF SUBCONTRACTOR”

Form IC-730 is to be prepared and submitted to the District Office. The Contractor shall complete the top half of the form down to and including his/her signature. The information should be typed for clarity in reproduction. The space at the top of the form for the subcontractor’s name should include his/her complete mailing address.

The Request Number should be consecutive, starting with 001, for each request submitted on a contract.

Items of the contract should be sublet in the same manner as they were bid. That is, items bid with quantities, units and unit prices should be sublet in a similar manner; items bid as a lump sum would be sublet as a lump sum. There are exceptions to using the full contract unit price, such as subletting the “placing” of reinforcing steel, concrete bridge deck “finishing,” sawing and sealing joints. Exceptions to using the full lump sum price for an item could be structural steel “erection,” structural steel “painting,” or maintaining traffic “portion.” If a portion of an item is being sublet, sufficient explanation must be placed on the face of the IC-730 (or a separate sheet attached) to explain exactly what “portion” is being done by the proposed subcontractor.

There must be a written subcontract agreement between the Prime Contractor and the Subcontractor. A copy of the subcontract agreement must be on file in the offices of the Prime Contractor and the Subcontractor. On Federal-Aid contracts, a set of the applicable Federal Wage Stipulations, Notice of Requirement for Affirmative Action, EEO Special Provisions, Form PR-1273 (Federal Contract Provisions) and all applicable contract Special Provisions pertaining to the Subcontractor’s operation, must be physically attached to, and become a part of, the agreement. On state funded contracts, the State Wage Provisions and the applicable contract Special Provisions must be part of the agreement. These documents shall be made available for review by appropriate INDOT or FHWA personnel upon request.

On all Federal Aid contracts, Form DBE-2, Statement of Affirmative Action to Solicit Minority Business Enterprise Subcontractors, must be submitted with the request to sublet. Also, EEO Form CM 32-34, signed by the proposed subcontractor, must be attached as well as a copy of the notification to the Department of Labor (OFCCP) when the sublet is $10,000 or more.

On requests to sublet in excess of $300,000 or unearned work of more than $300,000, the subcontractor must be prequalified with the Department. Prequalification is not required for “Construction Engineering”. Even though qualification is not required, a request for approval, regardless of value, must be submitted for all subcontract work on the contract and must be approved prior to the subcontractor starting work.

The proposed subcontractor is required to complete the “Subcontractor’s Certification of Unearned Work” below on ALL sublet requests. The Certification must be signed and dated before the IC-730 is transmitted to the District Office. The subcontractor’s Federal identification number is required. If the subcontractor does not have a Federal identification number, the Social Security number of the company’s owner must be given.

The subcontractor is permitted to complete a Certification and submit it separately. For this use, half-sized forms are available from the District Office. The completed Certification must be sent to the District Office where it will be matched-up with the appropriate IC-730 submitted by the prime contractor.

The original IC-730 must be submitted to the District Construction Office.
