

Notification for Bridge Field Checks

Please send bridge field check notifications to the INDOT Bridge Design Office email, bridgedesignoffice@indot.in.gov. **Please start the email subject line with “FieldChk”. This will assist with routing and response.**

Central Office Bridge Design notification for bridge field checks is as follows.

1. Central Office Bridge Design should be notified a field check for the following
 - All bridge rehabilitation projects
 - New or Replacement projects that include any of the following
 - Historic bridges
 - Complex bridges. See [Design Memo 17-20](#)
 - Non-standard superstructures, e.g., post-tensioned structures, tub girders, cast in place box structures.
 - Non-standard details, e.g., straddle bent piers
 - Proprietary items
 - Accelerated Bridge Construction

2. Central Office Bridge Design does not need to be notified for a field check for Preventative Maintenance projects.
