

# **GENERAL NOTES**

1. The curb ramp includes the ramp, flared sides, and warped or rolled edge as indicated by the hatched lines on the details.
2. Curb ramps shall be specified by the appropriate type where there is an existing or proposed sidewalk at street intersections, across driveways, and across alleys. Refer to 604-SWCR-13 and 604-SWCR-14 for curb ramp details at driveways.
- ③ Crosswalk markings placed in conjunction with curb ramp type B shall be located at least 600 mm beyond the outside of the flared sides.
- ④ Curb ramp type E shall be constructed such that the rolled edges are parallel to the direction of pedestrian traffic.

All dimensions are in mm unless otherwise specified.
