

INDIANA DEPARTMENT OF TRANSPORTATION

Driving Indiana's Economic Growth

Design Memorandum No. 22-11

July 7, 2022

TO: All Design, Operations, and District Personnel, and Consultants

FROM: /s/ Elizabeth Mouser
Elizabeth Mouser
Highway Engineering Director

SUBJECT: Pre-Bid Meeting Information

EFFECTIVE: Lettings on or after October 1, 2022

Pre-bid meeting notification and sign-in sheet templates have been created to ensure consistent information is provided to bidders and Contract Administration personnel when a pre-bid meeting is held prior to letting. The INDOT project manager in conjunction with district Construction will determine if a pre-bid meeting will be held and whether it is mandatory or optional.

Where a pre-bid meeting will be held, the designer should complete the pre-bid meeting notification form and upload it to ERMS with the Final Tracings package. The project manager must coordinate with the Contract Administration Planner prior to submitting the pre-bid information. The information will be added to the contract information book. For contract lettings prior to October 1st that include a pre-bid meeting, designers should work with their project manager to ensure the notification and meeting minutes have sufficient information.

After the pre-bid meeting, the meeting minutes and sign-in sheet must be uploaded to ERMS and posted with the contract document additional information so that it can be referenced by bidders.

The Final Tracings Checklist and Project File Naming Conventions documents have been revised to reflect this requirement. Those documents and a pre-bid template are available from Department's Editable Documents webpage at <https://www.in.gov/dot/div/contracts/design/dmforms/>, under Design Submittal. An example Pre-Bid Meeting Notification form is included for reference on the following page.

For questions related to this design memo please contact the Contract Administration Division Planner, Susan Languell at slanguell@indot.in.gov.
