

601-R-822 GUARDRAIL

(Adopted 05-21-26)

The Standard Specifications are revised as follows:

SECTION 601, BEGIN LINE 141, DELETE AND INSERT AS FOLLOWS:

Assembly and installation or resetting shall be supervised or performed at all times by an installer trained and certified by the unit's manufacturer, and shall be in accordance with the manufacturer's recommendations. ~~The installer shall be included on the Department's list of Qualified Guardrail End Treatment and Impact Attenuator Installers prior to the start of work.~~

The Contractor shall provide documentation certifying that all guardrail end treatment work shall be supervised or performed by a manufacturer-trained and certified installer. These certifications shall comply with the format and information requirements outlined in ITM 804 and shall be submitted prior to the start of work.

SECTION 601, BEGIN LINE 173, DELETE AND INSERT AS FOLLOWS:

Assembly, installation, or resetting of the impact attenuators shall be supervised or performed by an installer trained and certified by the unit's manufacturer and shall be in accordance with the manufacturer's recommendations. ~~The installer shall be included on the Department's list of Qualified Guardrail End Treatment and Impact Attenuator Installers prior to the start of work.~~

The Contractor shall provide documentation certifying that all impact attenuators work, except for the installation of gravel barrel arrays, shall be supervised or performed by a manufacturer-trained and certified installer. These certifications shall comply with the format and information requirements outlined in ITM 804 and shall be submitted prior to the start of work.

Gravel barrel arrays shall be installed in accordance with the manufacturer's recommendations. Installer certification or specialized training from the manufacturer will not be required.
