In 915-IAC 3-3-1 List of accepted national conflicts, Vietnam start date August 5 1964. I believe that the federal guide lines has Vietnam start date at May 7 1961

Why do we help just the ones that where in at the time of a war or conflict?

I what case would you pay the applicant? shouldn't it go to the service provider?

Why are you giving a veteran an opportunity to go over the \$2,500, The commission has to make a decision on who gets it and how much. This is why they got into trouble in the first place, make a top limit and stick to it.

In what cases would the commission wave the gross income threshold? again this is a judgement call which you should not do.

If you are going to have the commission to use their judgement for who gets funds or how much I believe at least one or more Commission chairman should have this information so he or she can pass that information to the rest of the chairman.

Thank You for your time
