Re: Notice of Facility Closing Pursuant to the Worker Adjustment and Retraining Notification Act of 1988 (“WARN”)

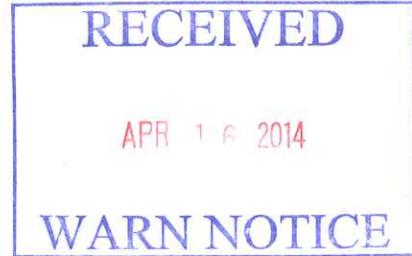

Dear DWD Representative:

This notice is being given to you under the Worker Adjustment and Retraining Notification Act of 1988 (“WARN”). WARN requires employers to give official notice to the certain governmental units or officials of a pending plant closing or mass layoff.

Chesapeake Pharmaceutical and Healthcare Packaging presently operates a printing facility located at 15220 Foundation Avenue, Evansville, IN 47725. The facility produces a variety of printing and packaging products. For various business reasons, the Company plans to permanently close its Evansville facility between June 14 and June 27, 2014, and as a result, 59 employees will be terminated on that date. A list of the job titles affected by this action and the number of affected employees in each job is maintained at the Evansville facility. Although certain employees are represented by Local 571-M of District Council 3 Graphic Communications Conference/International Brotherhood of Teamsters, because the facility is being closed, neither those employees nor the non-bargaining unit employees will have any bumping rights.

Chesapeake Pharmaceutical and Healthcare Packaging regrets that this action is necessary. The Company is developing plans to help ensure an orderly wind-down of its operations, and is meeting with representatives of the union to discuss this situation and its possible effects on bargaining unit employees. The names and addresses of the chief elected union officials appear at the end of this Notice.
