Subject: MEMORANDUM  
Interim Guidance on the Delivery of WIOA Title I Adult and Dislocated Worker Services  
and the Impact on Participation and Exit Dates  

Purpose  
This interim guidance discusses the career and training services for Workforce Innovation and Opportunity Act (WIOA) Title I adult and dislocated workers; the point at which delivery of certain services requires an individual to be eligible and enrolled as a participant; and the Department of Workforce Development’s (DWD’s) requirement for common participation and exit dates for all DOL-funded programs. The points at which an individual becomes a participant and exits are important because performance accountability is based only on outcomes for participants.

Content  
Indiana’s WorkOne system is the basic delivery system for workforce development services funded through WIOA. WIOA clarifies that adults and dislocated workers receiving services in the WorkOne centers must have access to services that are needed to assist the individual to meet his or her job search goals. Unlike the Workforce Investment Act (WIA), WIOA Title I does not require a fixed sequence of services; that is, job seekers is not required to engage in certain unassisted services before
engaging in staff-assisted services and is not required to engage in specific staff-assisted services for a given period of time before being enrolled in training.\(^1\)

WIOA consolidates the Core and Intensive services required by WIA into a single category of Career Services. Career Services are broken down into three subcategories: basic, individualized and follow-up.

1. **Basic Career Services.** Basic career services must be made available to all job seekers and include services such as employment services, labor market information, job listings, informational workshops, self-service, and information on partner programs.

2. **Individualized Career Services.** Individualized career services involve more intensive staff time. USDOL has proposed that the ES staff may also provide individualized career services and that Wagner-Peyser funds can be used to provide any of the individualized services defined in proposed § 678.430(b) and sec. 134(c)(2)(A)(xii) of WIOA as outlined in the chart below. Individuals must be determined eligible for WIOA Title I adult or dislocated worker programs to receive individualized services. Eligibility includes the consideration at Section 194(1) that specifies Title I programs shall provide services to those who are most in need of and who can benefit from such services.

3. **Follow-up Activities.** Follow-up includes:

   - Counseling regarding the workplace, for participants in adult or dislocated worker workforce investment activities who are placed in unsubsidized employment, for up to 12 months after the first day of employment (rather than for 12 months after exit).

   - Basic self-service and informational career services provided during the 90 days following the close of individualized career services, training, or placement.

Definitions for reportable individual, registrant, and participant are included in Attachment A. Attachment B provides a logic chart for establishing reportable individual, registrant, and participant. See Attachment C for a table that outlines the WIOA Title I Adult /DW and Wagner-Peyser Career Services and WIOA Title I Adult /DW Training Services and optional services in the WorkOne, the funds that may be used to support that service, and the point at which the individual being served becomes a reportable individual, registered individual, or participant of the program.

DOL encourages states that are able to track participant services across DOL-funded programs to utilize a single date of program participation for participants as well as a single date of exit. For example, if an individual becomes a Wagner-Peyser participant in January but is not enrolled in WIOA until March, the date of participation in WIOA would commence in January. DWD’s policy is that the date of participation starts with the first participation in any DOL-funded program, and the date of exit ends with the last date of exit from any partner program. Since common date of participation only applies to DOL-funded programs, adult education, vocational rehabilitation, and other partner programs will have their own participation and exit dates. The common participation date encourages co-enrollment in

\(^1\) However, case files must document participant eligibility for training services and explain how the determination was made – by interview, evaluation, or assessment, career planning, or other service such as an individual employment plan.
DOL-funded programs (Wagner-Peyser, WIOA Title I, and TAA) from the earliest point of contact to best serve the individual with the broadest menu of services possible.

Co-enrollment in non-DOL funded programs is also encouraged to the maximum extent that is appropriate and for which the customer is eligible in order to share costs and services and provide a foundation for shared infrastructure costs. Referral, co-enrollment, shared service costs and shared infrastructure costs will be incorporated into Memoranda of Understanding among the partners and with the Workforce Development Board (WDB). See Attachment D for a chart comparing the points of becoming a reportable individual, registrant, or participant and point of exit among the core programs.

Attachment A
Definitions for Reportable Individual, Registrant, and Participant

The Indiana Department of Workforce Development strives to ensure that the State and each Region meets performance under WIOA. In order to do so, it is important to understand when an individual accessing and exiting the workforce system is counted in performance. Whether an individual is counted in performance is based on the funding stream being accessed.

Reportable Individual

- A “Reportable Individual” is a new term defined in WIOA that applies across all programs (see proposed regulation §361.150). It is a person who has taken action that demonstrates an intent to use program services and who meets specific reporting criteria of the core program, including:
  - Individuals providing identifying information.
  - Individuals who use only self-service; and
  - Individuals who only receive information on services or activities.
- Individuals are adult education reportable individuals when they complete 12 hours in the program.
- Note that unemployment insurance claimants who come to the WorkOne to ask questions about their claim are to be provided “meaningful assistance” and will be reportable individuals. WIOA proposed rule § 678.430 defines “Meaningful assistance” as:
  - Providing assistance on-site using staff who are well-trained in unemployment compensation claims filing and the rights and responsibilities of claimants; or
  - Providing assistance by phone or via other technology, as long as the assistance is provided by trained and available staff and within a reasonable time.

The costs associated with providing this assistance may be paid for by the State’s unemployment insurance program, or the WIOA adult or dislocated worker programs, or some combination thereof. They may also be paid for through Wagner-Peyser as stated in Sec. 7(a)(3)(F) of the Wagner-Peyser Act.

Registrant

- A registrant for Title I is an adult or dislocated worker for whom information has been collected through electronic data transfer, personal interview, or application to support a determination of eligibility. This is the point at which information that is used in performance begins to be collected. See Proposed regulation §680.110. NOTE: The term “registrant” is not contained in the Wagner-Peyser regulations or is it used for youth. “Registrant” is solely a WIOA adult/dislocated worker term.
Participant

- A participant for Title I is an adult or dislocated worker who:
  - Has been determined eligible, AND
  - Has begun receiving a staff-assisted WIOA Title I adult/dislocated worker service other than Basic Career Services.

  This is the point at which an individual is to be included in performance calculations for the primary indicators. See Proposed regulation §680.110.

- A participant for Wagner-Peyser is a reportable individual who received other than Basic Career services. See proposed regulations §§651.10, 677.150.

- A participant for Vocational Rehabilitation is an individual who has an approved and signed Individualized Plan for Employment (IEP) and has begun to receive services. See proposed regulations §361.150.

- A participant for Adult education is an individual who has completed at least 12 contact hours in the Adult Education and Family Literacy Act program as WIOA Title II participants. See proposed regulation §361.150.

Attachment D

Point of Becoming a Reportable Individual, Registrant, and Participant and Point of Exit Comparison Among Core Programs

It is important to understand when a participant has “exited” a program for performance measurement purposes. While WIOA Title I adult and dislocated worker, youth, Wagner-Peyser, and Adult Education all define “exit” the same, vocational rehabilitation has a different definition.

For purposes of WIOA Title I adult and dislocated worker, youth, Wagner-Peyser, and Adult Education performance calculations, EXIT is defined as 90 days without any services other than self-service, informational, or follow-up AND there are no future services planned other than follow-up. Services that may be delivered during the 90 days that do not extend the period of participation include:

- Post-employment follow-up services designed to ensure job retention, wage gains, and career progress such as:
  - Additional career planning and counseling;
  - Contact with the participant's employer
  - Assistance with work-related problems that may arise;
  - Peer support groups;
  - Information about additional educational opportunities;
  - Informational mailings; and
  - Referral to supportive services available in the community; and

- Case management services and any other required administrative caseload management activities that involve regular contact with the participant or employer to obtain information regarding the participant's employment status, educational progress, or need for additional services.

For purposes of Vocational Rehabilitation performance calculations, “exit” occurs when the case is closed because the participant achieved an employment outcome, or the service record is closed because the participant did not achieve an employment outcome or was determined ineligible after receiving services. VR participants who achieved a supported employment outcome in an integrated setting but not competitive integrated employment will not be exited.
