

Business & Professional Exchange

Business & Professional Exchange –

A fellowship dedicated to assisting white collar professionals re-enter the labor market has been established for the region.

The Business & Professional Exchange (BPE) provides business and professional staff and middle- and upper-lever managers with a forum to develop re-employment strategies and to network with employers and one another on a weekly basis.

Employers are encouraged to utilize BPE as a potential source for filling their white collar position vacancies. From an HR perspective, BPE is a great place to find qualified and experienced professionals. At any given Monday morning BPE meeting, one could find Electrical Engineers, Human Resource Officers, Project Directors, and Equipment Manufacturer Sales Professionals with international experience managing multi-million dollar accounts.

BPE invites you to check us out. To attend meetings in Lafayette or to distribute or receive additional information, contact the local BPE chapter president, Chris Waymire at cwaymire.lake@gmail.com
