## What is NCI?

The National Core Indicators® (NCI®) program is a voluntary effort by state developmental disability agencies to track their performance using a standardized set of consumer and family/guardian surveys with nationally validated measures. The effort is coordinated by the National Association of State Directors of Developmental Disabilities Services (NASDDDS) and the Human Services Research Institute (HSRI).

In 2019-20 a total of 46 states, the District of Columbia and 22 sub-state entities participated in NCI. Not all participating states do all surveys every year.

## What is the NCI In-Person Survey?

The NCI In-Person Survey is completed with adults with IDD age 18 and older receiving at least one paid service (in addition to case management) from the state DD service system. The survey instrument includes a “Background Information Section”, which gathers data about the consumer from agency records, and an in-person survey that is conducted face-to-face with the person receiving services. The in-person survey is composed of two sections: Section I includes subjective questions that can only be answered by the person receiving services from the state. Section II includes objective, fact-based questions that can be answered by the person or, if needed, a proxy respondent who knows the person well.

## Impact of COVID-19 on 2019-20 Data Collection and Reporting

Due to the COVID-19 Pandemic the 2019-20 In-Person Survey (IPS) survey data collection period was unexpectedly abbreviated with all data collection stopped on April 15, 2020. At the time IPS surveying was ended, states were in many different stages of survey administration. Very few states had completed data collection.

In response, the NCI team modified the criteria for reporting for 2019-20, balancing states’ need for a data report of the 2019-20 data with the utility of to-date reported data for quality monitoring. Ultimately, NCI decided that, **to create a state report on the IPS data for a state this year, we would use a 10% Margin of Error (MoE) threshold.** This means that states will receive a state report if the number of surveys collected prior

to the IPS surveying shut-down reach a threshold of 10% MoE (based on the sample frame number reported in the state work-plan). Previous years of IPS reporting have used a 5% MoE threshold.

Read more about why the MoE is important why NCI will not produce a national In-Person Survey report for 2019-20 and will not produce an NCI Average for the IPS [here](#). Data in these reports ***should not be used to compare to previous years.***

## Sample Information

IN conducted 749 valid surveys, the MoE is 3.51%.

Program(s) included in sample	Funding Source(s)	Total number of adults with ID/DD served in this program or waiver and receiving at least one support in addition to case management
Community Integration and Habilitation Waiver (CIH)	HCBS 1915 9(c)	8,832
Family Supports Waiver	HCBS 1915 9(c)	10,252

**Note: To protect people’s privacy, we do not show the data when fewer than 20 people from a state responded to a question. For items with fewer than 20 respondents the data are shown as ‘n/a’ (though their responses are included in the NCI average).**

## Demographics

This section presents descriptive information of individuals surveyed. Information in this section may have come from state records.

## Choice and Decision-Making<sup>1</sup>

People make choices about their lives and are actively engaged in planning their services and supports.

**Table 29. Choice and Decision-Making**

Question	Person made the choice	Person had some input	Someone else chose	N
Who chose the place where you live? <i>Among those who do not live in the family home.</i>	35%	43%	22%	341
Did you choose the people you live with? <i>Among those who do not live in the family home.</i>	49%	36%	15%	342
Do you choose (or pick) your staff?	27%	62%	11%	684
Who decides your daily schedule?	66%	27%	7%	736
Who decides how you spend your free time?	84%	14%	2%	737
Do you choose what you buy with your spending money?	66%	27%	7%	730
Who chose (or picked) your day program or workshop? <i>Among those who go to a day program or workshop.</i>	32%	44%	24%	338
Who chose the place where you work? <i>Among those with a paid community job.</i>	55%	43%	2%	133

**Table 30. Choice and Decision-Making (continued)**

Question	Yes	No	N
Can you change your case manager/service coordinator if you want to?	90%	10%	708
Do you have enough choice about your daily schedule?	97%	3%	704
Do you have enough choice about what to do in your free time?	97%	3%	698

<sup>1</sup> In previous years, measures that fell within the Choice and Decision-making domain were risk-adjusted. NCI did not conduct risk-adjustment for reporting in 2019-20.

**Table 31. Choice and Decision-Making Scales<sup>2</sup>**

Scale	Mean	N	Std. Deviation
Life Decisions Scale	86%	716	29%
Everyday Choices Scale	95%	745	16%

---

<sup>2</sup>The Life Decisions Scale and the Everyday Choices scales were calculated by adding and averaging Choice items. The Life Decisions includes choice of: residence, work, day activity, staff, and roommates. The Everyday Choices scale includes choice of: daily schedule, how to spend money, and free time activities.

## Work

*People have paid jobs in community-based settings or have otherwise meaningful day activities.*

### **NCI reports on four types of paid community jobs:**

1. Individual job without publicly funded supports—an individual job in which the person does not receive state or other funded supports;
2. Individual job with publicly funded supports— an individual job in which the person receives state or other funded supports;
3. Group-supported—a job that takes part in a community setting but is done with a group of individuals with disabilities (e.g., work crew). Group-supported jobs may or may not receive publicly funded supports; and
4. Community job in a business that primarily hires people with disabilities—a job where the employees with disabilities interact with the non-disabled population; this job is not in a traditional sheltered workshop and is NOT an enclave. This type was added to our definition of ‘paid community job’ in 2017-18.

**Table 32. Has a paid community job; individual, group and/or in a business that primarily hires people with disabilities**

*Information may have been obtained through state records*

Question	Yes	N
