Re: Direct support professionals workforce COVID-19 survey
Date: June 25, 2021

The Institute on Community Integration at The University of Minnesota and the National Alliance for Direct Support Professionals are conducting a 12-month follow-up survey for the national direct support professionals workforce COVID-19 study. This is the third and final survey for this study.

All direct support professionals are welcome and encouraged to participate regardless of whether or not they completed one of the earlier surveys.

The survey is available [by clicking here.](#)

The survey closes on July 1, 2021.

Results from the first two surveys are available [by clicking here.](#) The results of this survey will be published in Sept. 2021 and shared widely. As with the last survey, if a minimum of 200 Indiana-based DSPs participate in the survey, Indiana will be provided state specific data along with the national results.

Questions or comments may be submitted to BQIS.Help@FSSA.IN.gov.
