First Steps and IN EI Hub Update	Christina Commons shared her update via Power Point. She highlighted the last 5 years she has been the First Steps director and the accomplishments she and her team have been able to do during that time. Indiana has been awarded \$4.2 million from the American Rescue Plan (ARP) funds. A budget was submitted to OSEP on August 2, 2021. Everyone thanked Christina and the team's efforts during the past 5 years. Rep. Clere asked for the council to look toward the next five years and he looks forward to hearing what Christina and team envision at an upcoming meeting and how the ICC can support the vision.
Legislative Update	Representative Clere talked about SEA-3 (telehealth). Although it is a great bill that accomplished a lot, it did not go as far as we would have liked. The bill included a list of licensed professionals that can offer telehealth and be reimbursed. He stated we need to work to make sure all professionals not listed in SEA-3 can provide and be reimbursed once the state emergency is over. Need to work to get other professionals added.

	We need continued advocacy with legislators to get this on the agenda for the short session that starts in January 2022. This session will run through mid-March.
Setting Targets for upcoming Annual Performance Report	Jessica Tomasino gave a presentation around the need to get stakeholder participation in advising the First Steps state office on setting new targets for the next five years for the APR results Indicators 2, 3, 4, 5, and 6. The Power Point is included.
