The Bureau of Developmental Disabilities Services and the Bureau of Quality Improvement Services are committed to working collaboratively with case managers and providers. In support of BDDS mission "To connect people with disabilities and their families to resources and supports to live their best life," BQIS conducted a web-based training on June 30, 2021, on person-centered risk assessment and planning.

The training included the roles and expectations of providers, case managers, individuals, and families in completing a comprehensive risk assessment and the development of risk mitigation plans as well as resources to support the process.

The recorded training and resources are available on the [BQIS website](#).

If you have questions or would like to share feedback on the tools, please contact us at [BQIS.Help@fssa.IN.gov](mailto:BQIS.Help@fssa.IN.gov).

We look forward to continuing to empower individuals to live, love, learn, work, play and pursue their dreams!
