

Access for FSSA P-EBT Portal

The IDOE is providing the primary access point to the FSSA P-EBT portal through the LINK Portal. All public local education agencies and accredited non-public school entities may access the secure FSSA P-EBT portal. Other entity types will receive an email invitation for access to the FSSA P-EBT portal.

To access the FSSA P-EBT portal and submit student data, authorized school staff will log in via the IDOE single sign-on platform known as the [LINK Portal](#). Once logged in to the LINK Portal, authorized school staff will see a tile for the FSSA P-EBT Portal. Clicking on the tile will direct authorized staff to an FSSA-hosted site for secure submission of student data.

Authorized school staff must have the staff type (role) of Security Coordinators and/or Data Administrators to access the P-EBT portal tile within the LINK Portal. Staff types (roles) for the LINK portal have been set by the local Security Coordinator for 2020-2021 staff access to various systems including Data Exchange and INTelligrants. To locate your Security Coordinator, please consult with your local administration. If you require further assistance, please contact link@doe.in.gov.

Note: As is common practice, other individuals may be responsible for the collection and compilation of data necessary for P-EBT. The individuals responsible for compiling the necessary data for P-EBT will need to coordinate with an approved Security Coordinator or Data Administrator within their organization to submit the data to FSSA through the P-EBT Portal.

Local Security Coordinators can verify staff types (roles) and make any necessary changes through the Security tile within the LINK portal. Guidance on setting staff types may be found [HERE](#). Information regarding P-EBT benefits including school and student eligibility may be found on the [FSSA: DFR Pandemic EBT website](#).
