Call for Presentations

One Community One Family, Choices Coordinated Care Solutions and Indiana Division of Mental Health and Addiction are pleased to distribute this Request for Presenters form in preparation for the 2017 Indiana Systems of Care Conference. This year’s conference planning committee is excited to announce this opportunity as we in Indiana continually strengthen our state and local Systems of Care by working to Inspire, Engage, Empower and Transform individuals, families and communities.

The Indiana Systems of Care Conference is scheduled for June 20, 2017 at the Marriot Indianapolis East in Indianapolis. “Inspire, Engage, Empower, Transform” was chosen by the conference planning committee as the theme for the 2017 conference. As always, this conference will show a commitment to the development and enhancement of Systems of Care communities throughout Indiana.

This is the 16th annual Indiana System of Care Conference and each year the conference has become more diverse. Over 500 individuals have participated in recent years including System of Care Coordinators, Wraparound Coordinators and Facilitators, administrators, therapists, child care workers, parents, youth, foster parents, guidance counselors, child welfare staff, probation officers, and more. Our goal is to bring together a diverse group of individuals who make up the child/adolescent-serving community, and most importantly including parents and youth, to improve outcomes, network and exchange information, and share best practices, strategies and techniques from the field.

The Indiana System of Care Conference Planning Committee is seeking proposals for workshops that are accessible to providers, parents and youth. The Committee is also seeking not only introductory level workshops, but also intermediate and advanced levels. Workshops must support the basic System of Care principles of family-driven, youth-guided, culturally relevant and community-based. Special consideration will be given to those proposals that include parents/family or youth as presenters. Those submitting proposals are also encouraged to consider the Topics of Interest for this year’s conference as listed below.

Topics of Interest

- Understanding brain development and the impact of trauma
- Social media topics
- Practical strategies for increasing parent involvement
- Educational Rights
- Substance abuse related issues and specifically medically assisted treatment
- Cultural competency
- Dealing with burnout and vicarious trauma
- Early childhood topics
Workshops will be 75 minutes in length. Those interested in submitting a workshop proposal should complete the attached Request for Presenters Form. The Indiana Systems of Care Conference Planning Committee will review all proposals and make the final selections by mid-April. All those who submit a proposal will be notified by e-mail if their proposal was accepted or declined.

Questions or concerns, please contact One Community One Family at ocof@onecommunityonefamily.org or 1-877-967-OCOF.

The Indiana Systems of Care Conference Planning Committee thanks you for your time and consideration.

Sincerely,
