Central Indiana NOFAS – this contract addresses the prevention of fetal alcohol spectrum disorders (FASD) through education, social marketing efforts and support of a FASD prevention collaborative.

Indiana Coalition to Reduce Underage Drinking (ICRUD) – this contract supports the Coalition efforts to address underage drinking in Indiana.

Indiana Collegiate Action Network (ICAN) – this contract supports the Network’s efforts to promote mental wellness and substance abuse prevention among college students.

Intuitive Synergies – this contract provides an infrastructure review of Indiana’s prevention system.

Prevention Insights / Indiana Prevention Resource Center – this contract provides a wide variety of prevention services including evaluation, training, technical assistance, resource and data collection. Prevention Insights also manages data collection and evaluation for the Synar Amendment.

Richard M. Fairbanks Center for Health Policy – this contract provides funding for support of the State Epidemiological Workgroup, and the development of “The Consumption and Consequences of Alcohol, Tobacco and Drugs in Indiana: A State Epidemiological Profile” and topical research briefs.

Synar – this contract supports the data collection and evaluation of Synar tobacco retailer inspections and the youth recruitment for inspections.

Indiana University-Purdue University Indianapolis – this contract supports campus initiatives to address alcohol use by students, including a social norms campaign, use of the Personalized Feedback Intervention (PFI) and development of a mentoring program to address the mental wellness and substance use of the LGBTQ+ student community.

University of Notre Dame – this contract supports campus initiatives to address alcohol and substance use by students, including a social norms campaign, substance-free community activities, educational workshops and development of a play-based intervention board game.

Purdue University – this contract supports campus initiatives to reduce alcohol use and increase mental wellness among students, including Ally Training, a social norms campaign, creation of a Substance-Free Collegiate Community, development of a Mindfulness Room and activities, and provision of educational trainings for the campus LGBTQ+ community.

OTHER FUNDING STREAMS

Alcohol Tobacco Commission (ATC) – this MOU provides funding to the ATC to conduct Tobacco Compliance checks and Survey of Alcohol Compliance checks. These funds are from the Tobacco Master Settlement Agreement.

Strategic Prevention Framework / Partnerships for Success (SPF/PFS) – DMHA administers this Federal discretionary grant to provide prevention programs targeting underage alcohol use and/or prescription drug abuse in ten high-need Indiana counties: Cass, Clark, Floyd, Knox, Lake, Madison, Marion, Porter, Scott and Vanderburgh. This grant also funds additional support for grantees through: Prevention Insights for training and evaluation; ICRUD for education and training on underage alcohol use; Richard M. Fairbanks School of Public Health / SEOW for data collection, analysis and consultation; and Indiana Professional Licensing Agency for training and consultation on Indiana’s Prescription Drug Monitoring Program, INSPECT.
