**Why are the Division’s numbers different from those provided by the community mental health center?**

Community Mental Health Centers only submitted data to the Division for those individuals that meet the Division’s income eligibility and diagnostic criteria.
Outcome Data

The Mental Health Statistics Improvement Program (MHSIP) survey is a nationally used survey and measures satisfaction of adults receiving services. This survey was handed out to all individuals receiving services during at least a one week period between September 4 and September 22 in 2017; 268 surveys were completed. Surveys were completed anonymously. Below are the questions asked regarding outcomes of services.
