 - d. Memo 006
 - i. Vivitrol Shots: As a reminder, Recovery Works will reimburse for Vivitrol injections. Providers may claim for this service under Medication. At this time, the time spent giving the injection, may be billed under Medication Training and Support, until otherwise stated.

Vivitrol is NOT available for our participants that have been referred to Recovery Works at 30-days pre-release. Regardless of where the injection happens, if a participant is still incarcerated, the provider is not eligible for Recovery Works reimbursement.
 - ii. Jail ReEntry Services: In early August we shared that we would be rolling out a new Jail ReEntry program by October 1. Unfortunately, our big plans have taken a huge turn of events and we are going to need just a

little bit more time. While we are still pushing to have a plan rolled out in October, we still need to put some final touches on our procedures in order to get things moving in the right direction.

Through this process, we have learned a tremendous amount of information about our county jails and how they operate, as well as some of the problems they are facing on a daily basis. We are looking forward to being able to support them with Recovery Works ReEntry services in the near future.

3. Reminders

a. Training

- i. ANSA Super User at each Agency:
- ii. 4 CEU per year = Criminal Justice + 4 CEU per year = MH/SUD

4. Dialog on the success and challenges

- a. Please come prepared to have a conversation about your current relationship with your County Jail.
- b. Several providers shared how they are currently collaborating with jails in their communities. Some examples are:
 - i. Weekly educational groups
 - ii. Contract with county to provide services inside jail, seeing great results
 - iii. Providing a program called Breaking Chains through a grant
 - iv. Some counties are still having difficulty forming good working relationships with their county jail
