Welcome to the continuing education website for cultural competency.

I am Kevin Moore, the Director of the Division of Mental Health and Addiction.

Over the past several years, cultural competency training has been provided in a variety of formats and locations. Our goal this year is to deliver a comprehensive cultural competency program utilizing webinars and video-conferencing. DMHA has partnered with the IU School of Education and resources at IUPUI to implement this program. By employing internet-based technologies, we hope to reach a broad audience throughout the State of Indiana.

You will soon receive information about registering for the Cultural Competency webinars and video-conferences. I encourage all mental health and addiction service providers to register and participate in this program. Please note that CEU's are available for participation.

Mark your calendars to join us in late spring 2013 for the Annual State-wide Cultural Competency Conference that will be held at IUPUI. More details will be announced at a later date.

Thank you for your interest and I look forward to the improvements in behavior healthcare service delivery in Indiana that will result from your participation this important training.
