

MADISON STATE HOSPITAL
Facility Fact Sheet
SFY 2012

Madison State Hospital (MSH) celebrated its Centennial Anniversary in August 2010. In 2005, the hospital moved into its state-of-the-art treatment facility overlooking the Ohio River. The design blended historic restoration, renovation, and new construction. With the exceptional innovation in design, daylight and views, recycling, and energy efficiency, MSH was one of the first psychiatric hospitals in the country to gain certification for “Leadership in Energy and Environmental Design”.

The entire 150-bed hospital maintains Center for Medicare and Medicaid (CMS) Certification and Joint Commission Gold Seal Accreditation. Since 2007, MSH served in national leadership roles in the piloting and implementation of The Joint Commission’s new Core Measures for inpatient psychiatric hospitals. The Core Measures became effective in 2011. MSH continues as a state and national leader in healthcare technology, evidenced based clinical practices, cost containment strategies, data-driven decision making, reduction in staff overtime, and elimination of excessive use of medications.

The hospital serves adults struggling with the most severe mental health challenges. Every patient works with a specialty trained psychiatric physician who leads a multi-disciplinary team of licensed nurses, psychologists, social service specialists, rehabilitation therapists, behavioral clinicians, and behavioral health recovery attendants. Services for medical specialty care, dental care, dietary counseling, physical therapy, occupational therapy, speech therapy, audiology services, and pastoral counseling are readily available. Unit names, such as Progress Road, Harmony Lane, and Hope Trail reflect our philosophy of recovery based psychiatric treatment.

- **Adult Psychiatric Services:** 120 Beds.
 - Harmony Lane – 15 Bed Unit for males with high acuity and persistent psychiatric care needs.
 - Healing Heights – 12 Bed Coed Unit for individuals with a co-occurring high acuity psychiatric and medical care needs that are manageable in a freestanding psychiatric hospital.
 - Journey Way – 15 Bed Unit for females with high acuity psychiatric care needs.
 - Progress Road – 15 Bed Unit for males with high acuity psychiatric care needs.
 - Success Road – 15 Bed Unit for females with high acuity psychiatric care needs.
 - Recovery Road – 15 Bed Unit for males with high acuity psychiatric care needs.
 - Victory Lane – 15 Bed Unit for males with high acuity psychiatric care needs.
 - Wisdom Way – 18 Bed Unit for geriatric males with high acuity psychiatric care needs.

- **Adult Intellectually Disabled/Developmentally Disabled (ID/DD) Services:** 30 Beds.
 - Hope Trail – 15 Bed Unit for males dually diagnosed with ID/DD and co-occurring high acuity psychiatric care needs.
 - Serenity Way – 15 Bed Coed Unit for individuals that are dually diagnosed with ID/DD and co-occurring high acuity psychiatric care needs.

Beginning its second century of service, Madison State Hospital maintains its vital role to the citizens of Indiana. The multi-colored mission pin worn by every employee portrays our commitment to seeing beyond simply one's mental health challenges. But, rather to seek each individual's true potential. Madison State Hospital remains dedicated to setting the standards of contemporary specialized psychiatric care.
