Child Mental Health Wraparound new HAB and FST provider training

The Division of Mental Health and Addiction has redesigned training for new providers of Habilitation and Training and Support for the Unpaid Caregiver (FST) services for the Child Mental Health Wraparound benefit. Successful completion of the new training is required for all individuals and agencies seeking authorization as a provider of HAB and FST.

The training is a self-directed study of the current [CMHW provider module](#). New applicants will be given an electronic copy of the module upon approval of their résumé* and will be invited to attend a testing event. Testing will include a morning session from 9 a.m. to noon, and an afternoon session from 1 p.m. to 4 p.m. Attendees will only attend one of these sessions.

At the session, DMHA youth team staff will give attendees a paper test that covers the module. All questions will be true/false or multiple choice. Providers may bring and use the module during the test. Electronic versions of the manual may be accessed using a tablet or laptop. Cell phones will not be permitted. A passing score of 100% must be achieved. During beta testing of the exam, those who had studied the module prior to taking the exam finished in under two hours. Those who had not studied, finished in 3-4 hours.

DMHA is looking for provider agencies willing to host these events around the state. If your agency would like to host a testing event, please contact us at DMHAyouthservices@fssa.in.gov to make arrangements.

Due to health precautions because of the COVID-19 pandemic, testing events will be limited in attendance, with proper physical distancing, and masks will be required.

Interested applicants may begin submitting their résumés now. Previously submitted résumés will not be reviewed.

*For information on the application process, including experience requirements and the submission of résumés, please consult the [CMHW provider module](#), Section 13: Service Providers.
