Introduction

The Indiana Family and Social Services Administration was established to consolidate and better integrate the delivery of human services by state government. FSSA is dedicated to helping Hoosiers live productive, safe and healthy lives. This guide is designed to help providers and community- and faith-based organizations connect those who are in need with services we provide. It contains information about programs provided and administered by FSSA and a few other state agencies, and gives direction on how Hoosiers qualify to receive assistance from a variety of programs. With greater understanding and awareness of the services FSSA provides, providers, advocates and faith- and humanitarian-based organizations can better employ these services to help rescue Hoosiers in crisis and improve the quality of life for all in our state.

FSSA is a health care and social service agency. Listed on the next page are the care divisions in FSSA that administer services to over 2 million Hoosiers and a brief description of the division’s role.
Division of Aging: Supports the development of alternatives to nursing home care and coordinates services through the INconnect Alliance state-wide network.

Division of Disability and Rehabilitative Services: Manages the delivery of services to children and adults with intellectual and developmental disabilities.

Division of Family Resources: Receives applications and determines eligibility for Medicaid, Supplemental Nutrition Assistance Program, Temporary Assistance for Needy Families and Refugee Cash Assistance.

Office of Medicaid Policy and Planning: Administers health coverage programs, including the Healthy Indiana Plan and other Indiana Medicaid programs.

Division of Mental Health and Addiction: Collaborates with a network of mental health care providers. DMHA operates six psychiatric hospitals and funds addiction prevention and treatment programs.
Using this guide

This guide has been organized into nine general areas of need to help you locate services. A description of specific services, eligibility and how to apply to receive assistance can be found in areas of need.

General Areas of Need:

- “Early Care & Education”
- “Employment”
- “Financial Services”
- “Food / Nutrition”
- “Health Coverage”
- “Home- & Community-Based Services for the Aged, Blind and Disabled”
- “Mental Health / Addictions”
- “Transportation Benefits”
- “Housing”

Refugee Services

Indiana Refugee Services provides assistance and services to refugees, asylees, specific Afghan populations, Cuban and Haitian entrants, special immigrant visa holders, certain Amerasian immigrants, victims of human trafficking and survivors of torture (referred to collectively as “refugees”). Indiana Refugee Services monitors program planning and provision of services and provides technical assistance to ensure compliance with federal and state regulations governing the delivery of refugee assistance and services, including cash and medical assistance.

Indiana Refugee Services ensures that refugees are provided assistance and services through state-administered programs that enable them to become employed, economically self-sufficient and integrated members of society as soon as possible after their arrival in the United States.

To address specific health challenges of refugees, Indiana Refugee Services also provides guidance, resources and oversight for initial medical screenings and mental health consultation.

Inquiries about the Indiana Refugee Services program can be directed to 855-673-0193, ext. 5831 or 5838.

Indiana 211

Indiana 211 is a free service that connects Hoosiers with help and answers from the thousands of health and human service agencies and resources in their local communities—quickly, easily and confidentially.

IN211’s team is comprised of experienced, responsive and compassionate community navigators who are skilled at actively listening and identifying needs and providing referrals that best meet those needs. Go to in.gov/fssa/indiana-211 for more information.

The information in this guide is correct as of April 1, 2022. For the most up-to-date information, refer to www.fssa.in.gov.

Early Care & Education
Child Care Finder

Child Care Finder is an innovative website to help Hoosier families find child care and early education providers throughout the state. Families can search licensed providers, registered ministries and exempt providers by numerous important parameters, including location, type of provider, hours, licensing status and whether or not the provider participates in Paths to QUALITY™. They can also find inspection reports and any validated complaints or enforcement/actions for each provider they search.

Visit www.childcarefinder.in.gov for more information.

Child Care Resource and Referral

Choosing child care is one of the most important decisions families make, but all too often they must rely on word-of-mouth. Local Child Care Resource and Referral agencies help parents take the guesswork out of choosing care by providing:

- Referrals to local child care providers
- Information on state licensing requirements
- Information on availability of child care subsidies

Child Care Resource and Referrals provide guidance by phone, in person and in other ways, such as online forms, that are tailored to each individual family.

Child Care Resource and Referrals support families to raise healthy children by:

- Talking with parents one-on-one
- Understanding the delicate balance of family life, particularly for low-income families
- Understanding that finding high-quality child care is just a first step to raising happy, healthy children
- By offering workshops, hotlines and newsletters
- Reaching out to parents with trusted, local information that enables them to make informed choices

Visit www.in.gov/fssa/carefinder and select “Changes to child care resource & referral” to find more information about your local Child Care Resource and Referral agency.

Child Care and Development Fund

The Child Care and Development Fund helps low-income families obtain child care so they can work, attend training or continue their education. The purpose of CCDF is to provide low-income families with the financial resources to locate and afford quality child care as well as increase the availability of these programs.

How does someone qualify for the Child Care and Development Fund?

To qualify for the Child Care and Development Fund, applicants must meet certain nonfinancial and financial requirements. Nonfinancial requirements include state residency, working or going to school, citizenship of the child receiving CCDF assistance and choosing a CCDF-eligible provider. Financial criteria include gross monthly income limits.

How does someone know if a child is eligible to receive Child Care and Development Fund benefits?

- The child receiving services must be a U.S. citizen or qualified alien.
- The child may qualify up to age 13.
- Children with special needs may qualify up to the age of 18 years old.

127% of the 2022 federal poverty level

The information in this guide is correct as of April 1, 2022. For the most up-to-date information, refer to www.fssa.in.gov.
What are the income limits?
Eligibility for the Child Care and Development Fund is based on the total gross monthly income of the household. Gross monthly income is total income before taxes or any deductions. To be eligible, a family’s income must be at or below 127% of the federal poverty level. Once on the CCDF program, a family’s gross income cannot exceed 85% of the state median income to remain eligible.

Who is a Child Care and Development Fund-eligible provider?
A Child Care and Development Fund-eligible provider is defined as a provider, either licensed or exempt from being licensed by law, who has met all applicable CCDF provider eligibility standards and has completed the application process.

Eligible providers may include:
- Licensed facilities and homes
- Unlicensed registered day care ministries
- Legally license-exempt child care facilities and homes
- Legally license-exempt relative care (grandparent, great grandparent, aunt and/or uncle of the eligible child)
- Legally license-exempt in-home care

How does someone apply for Child Care and Development Fund benefits?
Applicants must contact a local Child Care and Development Fund eligibility office. A map of eligibility offices and contact information are found at www.in.gov/fssa/carefinder/files/CCDF_Eligibility_Office_Map.pdf.

Who counts in the Child Care and Development Fund applicant’s household (family)?
A Child Care and Development Fund household is one or more custodial adults and children related by blood or law, or other person standing in loco parentis, which means “in place of a parent,” residing in the same CCDF household. Where custodial adults over the age of 18 (other than spouses or biological parents of the children needing services) reside together, each is considered a separate CCDF household. Wards of the local office of the Department of Child Services, foster children on Title IV-E, are the legal responsibility of DCS and not the CCDF household in which the child has been placed.
What is a copayment or copay?
A copayment or “copay” is a weekly fee for child care based on the amount of the Child Care and Development Fund household’s income that exceeds the federal poverty guidelines and the year of CCDF participation. If the household’s countable income exceeds the federal poverty level, the individual will have a copay payable directly to the child care provider.

How does an applicant find a Child Care and Development Fund-eligible provider?
For help finding a Child Care and Development Fund-eligible provider, contact the Brighter Futures Indiana Call Center at 800-299-1627 for a free child care referral, or contact your local Child Care Resource and Referral Agency.

What happens at the applicant’s interview appointment?
The Child Care and Development Fund eligibility specialist will ask questions about the persons living in the applicant’s home, income and other pertinent information needed to determine eligibility. The applicant will be given or mailed a form listing all needed information to bring to the appointment. Applicants will be notified during the appointment if they are eligible.

# First Steps

**Mission:** To partner with Hoosier families whose young children are experiencing developmental delays and connect them with services that help them promote their child’s development.

**Vision:** All Indiana families have a strong foundation to advocate for their infants and toddlers so they grow and flourish to their highest potential.

**Values:** Family-centered, routines-based, relationship-based, holistic, individualized and culturally competent.

## Who is eligible for First Steps services?

First Steps early intervention services are for families with children under the age of 3 who are experiencing a developmental delay.

A child must exhibit a delay of 25% in one area of development or a 20% delay in two or more areas of development. These areas are:

- Cognitive development
- Communication development
- Physical development (gross motor, fine motor)
- Social/emotional development
- Adaptive/self-help skills

Or have a diagnosed physical or medical condition that makes it likely that they will develop a delay, such as:

- Chromosomal abnormalities or genetic disorders
- Neurological disorders
- Congenital disorders
- Sensory impairments, including vision and hearing
- Severe toxic exposure (pre- and post-natal exposure)
- Neurological abnormality in the newborn period
- Low birth weight (1500 grams/3.1 pounds)
- Severe attachment disorders

## Are there fees associated with being enrolled in the program?

There is never a fee for eligibility evaluation or service coordination. First Steps bills private and public insurance for ongoing services. Depending on family income and insurance coverage, families may be responsible for cost participation fees associated with ongoing services.
What services are available through the program?

Early intervention services are specifically designed to support the developmental needs of the child and family. Services are provided within the natural routines and environments of the child and family and involve the primary caregiver. Services that may be offered through the program are:

- Assistive technology
- Audiology
- Developmental therapy
- Nutrition
- Occupational therapy
- Physical therapy
- Psychological services
- Service coordination
- Social work services
- Speech therapy
- Transportation*
- Vision

*Transportation is offered only when needed to access early intervention services

If you encounter any terms or program names you do not understand, refer to the FSSA glossary of terms on page 128 or at www.in.gov/fssa/resource-guide/fssa-glossary-of-terms/.

How does someone refer a child for First Steps?

Anyone can make a referral to First Steps. To make a referral, select “Make a referral” in the Family Information box on the First Steps home page at www.firststeps.in.gov to see an interactive map and a list of First Steps System Point of Entry offices. For more information, you may also call 800-545-7763 or email us at firststepsweb@fssa.in.gov.

Head Start and Early Head Start

Head Start is a federal program that promotes the school readiness of children age 5 and under from low-income families by enhancing their cognitive, social and emotional development. Head Start programs provide a learning environment that supports children’s growth in many areas such as language, literacy and social and emotional development. Head Start emphasizes the role of parents as their child’s first and most important teacher. These programs help build relationships with families that support family well-being and many other important areas.

Early Head Start programs serve infants, toddlers, birth to age 3, and pregnant women and their families who have incomes below the federal poverty level. Early Head Start programs were established in recognition of the mounting evidence that the earliest years matter a great deal to a child’s growth and development. For more information on Head Start and Early Head Start grantees in your community, please visit www.in.gov/fssa/carefinder and select “Head Start / Early Head Start” in the “Programs / Services” box.
Who is served by Head Start and Early Head Start?

- Children with disabilities; regardless of income, 10% of a program’s seats are reserved for children with disabilities
- Children from families whose income is below the Federal Poverty Level
- Children from homeless families
- Children from families who receive public assistance such as Temporary Assistance for Needy Families or Supplemental Security Income
- Children in foster care, regardless of income
- Early Head Start services are also available for pregnant women with incomes below the Federal Poverty Level

On My Way Pre-K

On My Way Pre-K is Indiana’s first state-funded pre-kindergarten program. On My Way Pre-K provides grants to eligible children for qualified early education services delivered via high-quality providers that are enrolled as approved On My Way Pre-K providers.

How does an applicant know if a child qualifies for an On My Way Pre-K grant?

To qualify for the On My Way Pre-K grant, an applicant’s child must be 4 years old, but not yet 5 years old by August 1 of the grant year and must be entering kindergarten during the following school year. The child must meet eligibility requirements.

What are the income limits?

An eligible child must live in a household with an income below 127% of the federal poverty level. Parents or guardians living in the household must be working, going to school, attending job training or looking for a job. If funding remains, there may be a limited number of vouchers available for children who live in households with incomes up to 185% of the federal poverty level. These children must also have:

- A parent or guardian living in the household who is working, going to school, attending job training or looking for a job. OR
- A parent/guardian who receives Social Security Disability Insurance or Supplemental Security Income (also known as SSDI or SSI) benefits.

This table is updated yearly prior to enrollment. For the most up-to-date information, refer to www.fssa.in.gov.

What is an On My Way Pre-K provider?
Families receiving a grant may choose from any approved On My Way Pre-K program enrolled with the Office of Early Childhood and Out-of-School Learning. On My Way Pre-K programs have demonstrated a commitment to high-quality early education and can be found in public and private schools, Head Start centers, licensed centers, licensed child care homes and faith-based registered ministries. All programs must also meet Child Care and Development Fund Eligibility requirements.

- Community-based programs including Head Start, licensed centers, licensed family homes and registered ministries must be rated at Level 3 or Level 4 on Paths to QUALITY.
- Public schools including charter schools must be rated Level 3 or Level 4 on Paths to QUALITY for Public Schools.
- Private or nonpublic schools must be accredited by a regionally or nationally approved state board of education accrediting body.

How does someone qualify?
All families must meet financial need, residency and age requirements, and be working, attending an education or job training program or looking for a job to complete a family application. There are also grants available for those
not working and where Social Security Income/Social Security Disability Income falls within eligibility criteria above. Once a grant is awarded, families must then verify eligibility by completing an appointment with a local eligibility office and by choosing an eligible provider.

How does an applicant apply for an On My Way Pre-K grant for their child?

- Applicants can go online at www.onmywayprek.org during the enrollment period each year.
- Visit the local eligibility office located within the county in which the family resides.

Who counts in my household (family) income?

A household is considered one or more custodial adults and children related by blood or law receiving the grant residing in the same household. Income requirements are waived for foster children of licensed foster parents.

How does someone find an eligible provider?

For help finding an approved On My Way Pre-K-eligible provider, applicants can contact their local Child Care Resource and Referral Agency. Eligible providers are also listed online at www.onmywayprek.org or www.in.gov/fssa/childcarefinder/.

Does an applicant have to be working or have a service need to be eligible?

Yes, applicants need to working or attending an educational or job training program or looking for a job to be eligible for an On My Way Pre-K grant. Some individuals who are receiving SSI or SSDI may also be eligible under limited eligibility criteria.

Who can help me with the On My Way Pre-K process?

On My Way Pre-K project managers are available to help families answer questions about On My Way Pre-K applications, eligibility and to help prepare for the families enrollment appointment. Please visit www.navigate.onmywayprek.org to be connected with your county’s project manager.

What happens at the interview appointment?

The intake agent will ask questions about the individuals living in the applicant’s home, income and other pertinent information needed to determine eligibility. The applicant will be provided a form listing all needed information to bring to the appointment. Applicants will be notified during the appointment if they are eligible. On My Way Pre-K eligibility offices are the same as Child Care Development Fund agencies and can be found found at www.in.gov/fssa/carefinder/files/CCDF_Eligibility_Office_Map.pdf.
Paths to QUALITY™

Research shows that high quality early learning experiences prepare children for future success in school, work and life. From birth through age 5 is the most important time for growth of the human brain. A child’s brain develops in response to the child’s experiences by building neurological networks in reaction to the environment.

A child’s experiences in an early childhood program can significantly contribute to that brain development and the future success of the child. High quality early childhood programs are essential not only to Hoosier children, but also to their families and to the communities in which they live.

Paths to QUALITY™ is Indiana’s statewide rating system for early childhood and education programs. It is a free resource to help families make informed decisions and to help early childhood and education programs improve their quality. There are four levels of quality that can be achieved by participating programs. Each level builds on the foundation of the previous one, resulting in significant quality improvements at each stage and in national accreditation at the highest level. The system validates early childhood programs for ongoing efforts to achieve higher standards of quality and provides incentives and awards for success. The four levels address:

- **Level 1**: Health and safety needs of children met.
- **Level 2**: Environment supports children's learning.
- **Level 3**: Planned curriculum guides child development and school readiness.
- **Level 4**: National accreditation (the highest indicator of quality) is achieved.

For more information about Paths to QUALITY™, visit [www.in.gov/fssa/pathstoquality](http://www.in.gov/fssa/pathstoquality).
Employment
Employment

**Blind and Visually Impaired Services**

Indiana Blind and Visually Impaired Services provides statewide assistance and services to enable the achievement of vocational and personal independence by the citizens of Indiana with blindness and visual impairment. BVIS is a program within the Bureau of Rehabilitation Services that encompasses the Randolph-Sheppard Business Enterprise Program, the Older Independent Blind Program and the Blind Registry. Individuals may be referred by Vocational Rehabilitation Services or can be self-referred. For additional information about blind services resources in Indiana, please go to [www.bvis.in.gov](http://www.bvis.in.gov), send an email to [BVIS@fssa.in.gov](mailto:BVIS@fssa.in.gov), or contact the Blind and Visually Impaired Services program manager at 800-545-7763.

**Indiana Manpower Placement and Comprehensive Training**

Indiana Manpower Placement and Comprehensive Training provides services designed to help recipients of Supplemental Nutrition Assistance Program and Temporary Assistance for Needy Families achieve economic self-sufficiency through:

- Education
- Training
- Job search
- Job placement activities

Indiana Manpower Placement and Comprehensive Training contracts with a service provider to implement job search, job development and placement activities in every county in Indiana. IMPACT services are a component of Indiana’s employment and training programs for SNAP and TANF.

**How does someone qualify for Indiana Manpower Placement and Comprehensive Training?**

A person may be eligible for Indiana Manpower Placement and Comprehensive Training if he or she is currently receiving Supplemental Nutrition Assistance Program benefits or applying for and/or receiving Temporary Assistance for Needy Families benefits. The Division of Family Resources local offices in each of Indiana’s 92 counties have the responsibility for determining eligibility for IMPACT services for SNAP and TANF recipients.

**How does someone apply for Indiana Manpower Placement and Comprehensive Training?**

Indiana Manpower Placement and Comprehensive Training services are dependent upon the client being a recipient of Supplemental Nutrition Assistance Program benefits or an applicant for/recipient of Temporary Assistance for Needy Families benefits. In some circumstances, clients are automatically scheduled for an IMPACT appointment. Individuals who are SNAP recipients may volunteer for IMPACT services at any time by notifying a Division of Family Resources local office in person or via telephone at 800-403-0864.

Randolph-Sheppard Business Enterprise Program

The Indiana Randolph-Sheppard Business Enterprise Program provides entrepreneurial opportunities for individuals receiving Vocational Rehabilitation Services who are legally blind. Blind entrepreneurs manage a wide variety of food service operations including cafeterias, coffee shops, vending machine locations and highway area vending sites. Through this program, individuals who are blind receive training and opportunities to become productive, tax-paying citizens and independent business owners. The Randolph-Sheppard Business Enterprise Program is for individuals who are eligible participants of Vocational Rehabilitation Services and meet a specific set of eligibility criteria.

For more information regarding resources for the Business Enterprise Program, including the eligibility criteria and frequently asked questions, please visit the webpage at www.in.gov/fssa/ddrs or contact the Blind and Visually Impaired Services program manager at 800-545-7763.

Vocational Rehabilitation Services

Indiana Vocational Rehabilitation Service is a program within the Bureau of Rehabilitation Services that helps people with disabilities prepare for, obtain and retain employment. Individuals in the program work closely with a vocational rehabilitation counselor. Through active participation in their rehabilitation, people with disabilities achieve a greater level of independence in their workplace and living environments.

How does someone qualify for Vocational Rehabilitation Services?

An applicant is eligible if all of the following criteria are met:

- He or she has a physical or mental impairment;
- The physical or mental impairment constitutes or results in a substantial impediment to employment;
The individual requires vocational rehabilitation services to prepare for, secure, retain, advance in or regain employment consistent with his or her strengths, resources, priorities, concerns, abilities, capabilities, interests and informed choice; and

The individual can benefit from VR services in terms of an employment outcome.

How are Vocational Rehabilitation Services financed?
There is no charge for Vocational Rehabilitation Services; however, some services require VR to explore other funding options. For some post-secondary expenses, for example, students and their parents/guardians are first required to file a Free Application for Federal Student Aid. Students will use any federal student aid they may be eligible for to help pay for certain costs (e.g., tuition and books).

What are the income/asset/resource limits?
Vocational Rehabilitation Services does not have any income/asset/resource limits.

What services are available?
Vocational Rehabilitation Services may include, but are not limited to, the following:

- Vocational counseling and guidance
- Transition services for students with disabilities to help make the transition from school to work
- Job placement assistance, including supported employment
- Training for a job, including vocational school, college/university and on-the-job training
- Assistive technology, including devices like speech-to-text software
- Physical and mental restoration services
- Rehabilitation technology (e.g., adaptive devices, vehicle modifications)
- Personal assistance services
- Establishing self-employment as an employment outcome

How does someone apply for Vocational Rehabilitation Services?
Applicants should contact or visit a local Vocational Rehabilitation Services office to discuss the application and eligibility process or call Vocational Rehabilitation Services at 800-545-7763. Office locations are provided at www.vrs.in.gov.

Applicants may view a short video titled “Working with Indiana Vocational Rehabilitation Services” at www.vrs.in.gov that outlines VR and how to apply.
What are Pre-employment Transition Services?

Vocational Rehabilitation also serves students with disabilities through Pre-Employment Transition Services. A student with a disability is defined as a student in secondary school between the ages of 14 through the school year in which the student becomes 22, who is eligible for, and receiving, special education or related services under Part B of the Individuals with Disabilities Education Act, or is an individual with a disability for purposes of Section 504 of the Rehabilitation Act. These services supplement what the school provides and increase access to career planning, work experience and job readiness training to support seamless movement from high school to employment or post-secondary education and training. Students with disabilities between the ages of 14–22 who are enrolled in post-secondary training may also be eligible to access Pre-ETS.

Pre-ETS includes the following activities:
- Job exploration counseling
- Work-based learning experiences
- Counseling on post-secondary opportunities
- Workplace readiness training
- Instruction in self-advocacy

More information can be found at Pre-Employment Transition Services or by sending an email to fssa.pre-ets@fssa.in.gov.

WorkOne Career Centers

In addition to services provided by FSSA, the Indiana Department of Workforce Development offers a variety of services through our WorkOne Career Centers to Hoosiers looking to get back in the workforce or change jobs. WorkOne Career Center staff can help you find a new or better job, choose a career or access training to get you the skills needed to succeed in today’s economy.

Some of the WorkOne Career Center services are listed below. To find your nearest WorkOne Career Center, visit www.in.gov/dwd/WorkOne/locations.html or call 800-891-6499.

IndianaCareerConnect.com
To find a job that matches your skills and experience, search IndianaCareerConnect.com.

Indiana High School Equivalency
The Indiana High School Equivalency (formerly GED) is an alternative for earning a high school diploma. Workers who have a high school diploma or HSE earn over $10,000 more per year than those who do not. IN.gov/dwd/HSE.htm

INDemand Jobs
This tool uses a demand indicator to rank all jobs in Indiana based on future growth and wages. Whether searching for your first job, changing jobs or re-entering the workforce, INDemandJobs.com will help direct your career search.

IN Reality
This interactive tool allows Hoosiers to explore career choices based on earning potential. Hoosierdata.IN.gov/inreality

Indiana Career Explorer
Indiana Career Explorer is an online tool that provides all the resources you will need to explore careers or find a new career and college options. IndianaCareerExplorer.com

Next Level Jobs
For jobseekers, Next Level Jobs provides free training to Hoosiers for some of the state’s most in-demand, high-paying jobs in rapidly growing industries. Tuition-free certificates can be earned in these sectors: Advanced Manufacturing, Building & Construction, IT & Business Services, Health & Life Sciences and Transportation & Logistics. Enroll now at NextLevelJobs.org.

Veteran Services
Services provided to Hoosier veterans at WorkOne Career Centers include direct job placement, resume, training and interview coaching. IN.gov/dwd/2424.htm.
Office of Work-Based Learning and Apprenticeship

The Office of Work-Based Learning and Apprenticeship serves to develop and implement a framework of various work-based learning pathways for both youth and adult populations. The office concentrates on three objectives:

- Coordinate efforts and partner with the U.S. Department of Labor to expand registered apprenticeships in the state of Indiana.
- Develop and implement a framework of work-based learning pathways with a focus on the state’s key economic sectors and regional high-wage, high-demand occupations.
- Build public-private partnerships statewide to increase business and industry engagement with education systems based on local economic needs.

Who is the program for?

OWBLA is best suited to work with employers and education providers interested in building work-based learning programs to establish and fill their workforce pipeline. Individuals interested in registered apprenticeships or other work-based learning opportunities should contact their local Work One Center and/or visit [www.apprenticeship.gov](http://www.apprenticeship.gov).

How does someone qualify for the program?

Registered apprenticeship and State Earn and Learn programs are approved and/or certified by the U.S. Department of Labor Office of Apprenticeship and the OWBLA based on program development and standards. Individuals interested in participating in the programs will need to contact the entity that maintains “ownership” of the program, which is typically an education provider or business.

How do I apply/enroll in the program?

Employers and education providers should view our website at [www.INwbl.com](http://www.INwbl.com) for additional information and email wbl@dwd.in.gov to be connected with a regional director best suited to address your needs.
Financial Services
Financial Services

Burial Assistance Program

The Burial Assistance Program was established by the state of Indiana to assist with burial costs for those who are eligible in specific categories of Medicaid.

Who is the program for?

Burial assistance is available to those that were Medicaid recipients for the aged, blind and disabled at the time of their death or had applied for benefits prior to death and are later found categorically eligible for burial assistance. The categories of Medicaid eligible for Burial Assistance are MA A, MA B, MA D, MASI, MA R and MADW.

How does someone apply/enroll in the program?

Funeral homes and cemetery representatives file all appropriate documentation within 90 days from date of recipient’s death to the state’s burial claims office. All approved assistance funds are paid directly to the funeral homes’ and cemeteries’ vendor accounts.

Where should burial providers call to verify Medicaid eligibility to file a claim?

Call 800-403-0864, Prompt #7. A case number and category of Medicaid will be provided.

Where should inquiries and claim submissions be sent?

- Phone: 317-234-1412
- Fax: 317-234-5075
- Email: Indianaburialclaims@fssa.in.gov
- More information can be found at www.in.gov/fssa/dfr/. On the left-hand navigation menu, select “Burial Assistance Program.”

Homeownership programs

The Indiana Housing and Community Development Authority is proud to make the process of buying a home a reality for thousands of Hoosier families. We offer programs that assist Hoosiers with making down payments, getting low interest rate loans and offering a tax credit. In every county across Indiana, there are lenders on hand to help with all the programs we offer. An overview of the current programs may be found here: www.in.gov/ihcda/4430.htm.

Who is the program for?

Residents of Indiana who are seeking to purchase a home.
How does someone qualify for the program?
Basic program guidelines may be found here: www.in.gov/ihcda/4065.htm.

How does someone apply/enroll in the program?
Contact a participating lender to begin the process: https://online.ihcda.in.gov/AuthorityOnline/participatinglenders/participatinglenders.aspx.

**Individual Development Account program**

Indiana's Individual Development Account program is a matched saving opportunity. Every dollar a participant saves is matched, at a minimum for $3 for every $1 saved to help them reach their goals, including homeownership, higher education and small-business start-up through matched-savings incentives and financial education. Participants in the program are eligible to receive up to $4,500 in state and federal match funds towards one of the eligible asset goals mentioned above. Qualified participants set savings goals and make regular savings deposits. More information on the Individual Development Account may be found on our website at www.in.gov/ihcda/4072.htm.

Who is the program for?
The Individual Development Account program is for Hoosiers with low-to-moderate income.

How does someone qualify for the program?
To qualify for the Individual Development Account program, applicants must meet income and eligibility requirements.

How does someone apply/enroll in the program?
To apply/enroll in the Individual Development Account program, contact the program administrator for your county, as noted here: www.in.gov/ihcda/files/Public%20IDA%20Contact%20List%202019.xlsx.

**Temporary Assistance for Needy Families**

Temporary Assistance for Needy Families is a program that provides cash assistance and services to assist families with children under age 18. The underlying goal of the TANF program is to help recipient families achieve or return to economic self-sufficiency.

How does someone qualify for Temporary Assistance for Needy Families?
To qualify for Temporary Assistance for Needy Families, children under the age of 18 and their specified relative (e.g., their parent, grandparent, aunt or
uncle) with whom they are living must meet certain nonfinancial and financial requirements. Nonfinancial requirements include state residency, citizenship status, child support participation and Indiana Manpower Placement and Comprehensive Training work registration.

Financial criteria include income limits and an asset test. A family may not possess assets valued in excess of $1,000 at the time application for assistance is made. The family’s home and surrounding lot, household goods and personal belongings are not counted as assets in determining Temporary Assistance for Needy Families eligibility.

What are the income limits?
Temporary Assistance for Needy Families has two income limits, gross income and net income. Gross income is total income before taxes or deductions. Net income is determined by subtracting certain allowable deductions from the gross income. Below is a chart of income limits and maximum allotments, or they can be found at [www.dfrbenefits.in.gov](http://www.dfrbenefits.in.gov). Mouse over “TANF (Cash Assistance)” on the left hand side of the page, and then click on “About TANF” for the most current income limits.

What are the responsibilities of the applicant or recipient of Temporary Assistance for Needy Families cash assistance?
The applicant or recipient must provide accurate and complete information regarding the child(ren), parent(s) and all other household members whose income and needs will be assessed in order to determine eligibility.

- Individuals must provide Social Security numbers, meet state residency, citizenship status, employment and child support assignment requirements.
- Some adult Temporary Assistance for Needy Families recipients must participate in Indiana Manpower Placement and Comprehensive Training, Indiana’s employment and training program. They are required to attend applicant job search orientation and complete 20 days of applicant job search activities.
- The applicant or recipient must report any changes in circumstances within 10 days of the date the changes occurred.

How does someone apply for or manage their current Temporary Assistance for Needy Families benefits?
- Applicants may apply online at [www.fssabenefits.in.gov](http://www.fssabenefits.in.gov).
- Applicants may call or fax 800-403-0864.
- Visit a local Division of Family Resources office. They can locate a DFR office at [www.dfrbenefits.in.gov](http://www.dfrbenefits.in.gov) or by calling 800-403-0864.

Addresses of the Division of Family Resources offices are listed on page 44.

Food / Nutrition
Community and Home Options to Institutional Care for the Elderly and Disabled

The Community and Home Options to Institutional Care for the Elderly and Disabled program provides home- and community-based services to assist individuals in maintaining their independence in their own home or community for as long as is safely possible. More details about services available under this program are found on page 78.

Older Americans Act programs

The Older Americans Act provides community-based services and opportunities for older individuals and their families. Older Americans Act programs generally only require that recipients be over the age of 60. More details about services available under this program are found on page 97.

Supplemental Nutrition Assistance Program

The Supplemental Nutrition Assistance Program, previously known as “food stamps,” provides food assistance to low-income individuals. It is a federal aid program administered by the Food and Nutrition Service of the U.S. Department of Agriculture; however, benefits are distributed at the state level. SNAP helps low-income individuals and families buy the food they need for good health. Interested parties apply for benefits by completing a state application form online, in-person or via mail. Benefits are provided on an electronic card that is used like a debit card and accepted at most grocery stores.

How does someone qualify for the Supplemental Nutrition Assistance Program?

To qualify for the Supplemental Nutrition Assistance Program, applicants must meet certain nonfinancial and financial requirements. Nonfinancial criteria include state residency and citizenship status. Financial criteria include income and asset limits.

What are the income limits?

The Supplemental Nutrition Assistance Program has two income limits, gross income and net income. Gross income is total income before taxes or deductions. Net income is determined by subtracting certain allowable deductions from the gross income. For specific dollar figures, see the chart of monthly income limits and maximum monthly allotments on page 52.

The information in this guide is correct as of April 1, 2022. For the most up-to-date information, refer to www.fssa.in.gov.

What are the asset/resource limits?
The asset/resource limits are $5,000 per household for most households. Assets include bank accounts, cash, real estate, personal property, vehicles, etc. The household’s home and surrounding lot, household goods, personal belongings and life insurance policies are not counted as assets in determining SNAP eligibility.

What can a participant buy with Supplemental Nutrition Assistance Program benefits?
Supplemental Nutrition Assistance Program benefits can be used like cash to buy food items at any store, supermarket or co-op approved by the USDA. Items that can be purchased with SNAP are determined by the USDA, not the state of Indiana. SNAP can be used to purchase any foods meant for human consumption, as well as seeds and plants that produce food.

Will Supplemental Nutrition Assistance Program benefits provide all of an applicant’s household’s food needs?
Supplemental Nutrition Assistance Program benefits are not intended to purchase all of a household’s meals for the month. The assistance group’s budget is compared against the Thrifty Food Plan to determine the final benefit amount. Assistance groups do not necessarily qualify for the maxi-
mum SNAP benefit for their group size. Benefits are intended to supplement the household’s other income to help purchase healthy meals during the month. Eligible households are issued SNAP monthly based on the Thrifty Food Plan, which is a model diet plan established by the National Academy of Sciences and supported by the U.S. Department of Agriculture.

**How does someone apply for or manage their current SNAP benefits?**

- Applicants can apply online at [www.fssabenefits.in.gov](http://www.fssabenefits.in.gov).
- Applicants can call or fax **800-403-0864**.
- Applicants can visit a local Division of Family Resources office or find a local DFR office at [DFRBenefits.in.gov](http://DFRBenefits.in.gov).

**How long does it take to get benefits?**

The Division of Family Resources office has 30 days to make a decision on an applicant’s case. However, if the person meets certain criteria, he or she may be determined to be eligible for expedited service, which means a decision will be made on the application within seven days of applying.

**Can a recipient get expedited Supplemental Nutrition Assistance Program benefits today?**

When an application is turned in, it is reviewed for expedited service. It is important for applicants to complete the expedited questions on the application so that they can be considered for this service.

**To qualify for expedited benefits an applicant must:**

- Have less than $150 in gross monthly income and liquid resources (cash/checking/savings) of $100 or less in the month of the application.
- Have monthly rent/mortgage and utilities that cost more than the applicant’s gross monthly income and liquid resources.

If applicants qualify for expedited benefits, they will receive them by the seventh day after applying. Benefits are NEVER received the same day as the application.

**What does an applicant have to provide when he or she applies?**

Applicants will be asked to provide their name, address and signature. At the interview, the dates of birth and Social Security numbers for all persons living in their household must be provided. In addition, they will need to verify the income received by each household member. There may also be other information requested depending on each household’s specific situation.
What happens at the interview appointment?
The worker will ask questions about the persons living in the home, income, resources and other information needed to determine eligibility. Applicants will be given or mailed a form listing all needed information with a deadline date. They must get the information to the local office or document center before the deadline date. They will be mailed a notice regarding eligibility after the case has been processed and eligibility has been determined. The notice lists appeal rights should the applicant disagree with the decision.

Can someone receive Supplemental Nutrition Assistance Program benefits if he or she is getting unemployment?
Yes. Individuals who receive unemployment benefits may still qualify for Supplemental Nutrition Assistance Program benefits.

Can someone receive Supplemental Nutrition Assistance Program benefits if he or she gets Supplemental Security Income, disability related Medicaid or other disability or insurance benefits?
Yes, if the applicant’s income is within the established guidelines. Applicants must pass a net income test to qualify for Supplemental Nutrition Assistance Program benefits.

Can applicants get Supplemental Nutrition Assistance Program benefits if they have a felony drug conviction?
As of Jan. 1, 2020, individuals who have been convicted of a drug felony may be eligible for SNAP if they meet certain conditions. Individuals who are compliant with post-conviction supervision (such as probation or parole) or who are no longer subject to supervision and are not in violation of supervision may be eligible for SNAP if all other eligibility factors are met.

How does someone spend Supplemental Nutrition Assistance Program benefits?
Once it is determined that applicants are eligible for Supplemental Nutrition Assistance Program benefits, a “Hoosier Works” card is sent to the mailing address provided. Applicants should normally receive the card within three to five days. If an applicant has previously received SNAP benefits under his or her name, he or she will not be mailed a new Hoosier Works card. The benefits will be put on the old card. If the old card is lost or damaged, applicants will need to call 877-768-5098 to obtain a new card. The card is utilized like a debit card.
Women, Infants and Children

The Indiana State Department of Health offers a nutrition program called Women, Infants and Children, which is nationally recognized as an effective means for improving access to nutritious foods that helps pregnant women, new mothers, infants and children under the age of five eat well and stay healthy. The Indiana WIC program operates a statewide network of 124 clinics that offer services in every county and provides families:

- Supplemental healthy foods designed by qualified nutritionists;
- Nutrition education and counseling;
- Electronic Benefits Transfer eWIC card to buy healthy foods;
- Nutrition and health screening and assessment;
- Breastfeeding promotion and support, including breastfeeding moms receiving more nutritious foods;
- Referrals to other Indiana health, family and social services

WIC benefits may be used at WIC-approved stores in your community to purchase fresh and frozen fruits and vegetables, baby food, milk, cereal, yogurt, juice, eggs, cheese, peanut butter, beans, tofu, whole wheat bread, brown rice, whole wheat tortillas, corn tortillas and baby formula. WIC benefits are easy to use and administered using an Electronic Benefits Transfer card called the eWIC card.

For more information, including eligibility requirements and how to apply, refer to www.wic.in.gov, call 800-522-0874, email inwic@isdh.in.gov or contact the Indiana Women, Infants and Children program clinic nearest you. Families already receiving Medicaid, SNAP or TANF are income eligible for the WIC program. Find us on Twitter @IndianaWIC.
Health Coverage
Indiana offers several health coverage options to qualified low-income individuals and families, individuals with disabilities and the elderly with limited financial resources. Each program is designed to meet the medical needs of that specific group of individuals. Each program uses a different set of measures to determine if a person qualifies for that program.

How does someone qualify for Indiana Health Coverage Programs?

To qualify, applicants must meet four main eligibility criteria:

**Income/Household size**
This applies to both earned income (example: wages from a job) and unearned income (example: Social Security disability payments). Income limits that are adjusted to account for the number of household members. Visit the “Am I Eligible” page by visiting [www.in.gov/medicaid/members/apply-for-medicaid/am-i-eligible-for-medicaid/](http://www.in.gov/medicaid/members/apply-for-medicaid/am-i-eligible-for-medicaid/). You may also check for current income limits or see if you qualify online at the Division of Family Resources Benefits Portal by visiting [https://fssabenefits.in.gov](https://fssabenefits.in.gov) and additional information may also be found on the Indiana Medicaid website, at [www.indianamedicaid.com](http://www.indianamedicaid.com).

**Age**
Certain programs are designed for people in specific age groups.

**Financial resources/assets**
Different programs count different resources/assets. Resources/assets are not counted for the following groups: children, pregnant women, members with only family planning services, former foster children up to age 26 and Healthy Indiana Plan members.

**Medical needs**
Specific medical needs may determine eligibility and which program can best serve your needs.

How does someone apply for or manage Indiana Health Coverage Programs?

- To learn about the different programs, applicants can visit [www.indianamedicaid.com](http://www.indianamedicaid.com).
- Applicants can apply online at [www.dfrbenefits.in.gov](http://www.dfrbenefits.in.gov).
- Applicants can call or fax 800-403-0864.
- Applicants can visit a local Division of Family Resources office. A directory of DFR offices is found on page 44 of this guide or online at [www.dfrbenefits.in.gov](http://www.dfrbenefits.in.gov).
What information does an applicant need to know/take with them to apply for Indiana Health Coverage Programs?

Applicants will need the following information for each person in the household:

- Names and dates of birth
- Social Security numbers
- Income from jobs or training
- Benefits each person gets now (or received within the past three months), such as Social Security, Supplemental Security Income, veteran’s benefits or child support
- Amount of money in each person’s checking account, savings accounts or other resources
- Any other health coverage and/or medical benefits each person currently has

How long will it take someone to get coverage?

Depending on the program applicants apply for, it may take approximately 45–90 days from the date the application is submitted to find out eligibility.

How long does someone keep his or her benefits?

Eligibility for any Indiana Health Coverage Program will typically need to be renewed each year. If eligibility cannot be renewed through the automated process, recipients will be contacted by mail when it is time for enrollment renewal. It is important for recipients to respond to all mail they receive regarding coverage. If enrollment occurs on time, there will be no break in program services. If recipients do not re-enroll, there may be a break in coverage or even lost coverage.

If a recipient has a change of address, phone number, income or resources, it is critical that he or she promptly informs the local Division of Family Resources office by calling 800-403-0864.

Can someone have Medicare and Medicaid at the same time?

Yes. A person can be eligible for both Medicaid and Medicare and receive benefits from both programs at the same time.

Breast and Cervical Cancer Program

The Indiana Breast and Cervical Cancer Program is the Hoosier implementation of the National Breast and Cervical Cancer Early Detection Program. The BCCP provides access to breast and cervical cancer screenings, diagnostic testing and treatment for underserved and underinsured women who qualify for services.

The NBCCEDP functions through cooperative agreements with the Centers for Disease Control and Prevention and state and territorial health depart-
ments, tribes and organizations. The BCCP receives funds from both the NBCCEDP and from the state of Indiana.

Through the BCCP, female Indiana residents may qualify for free breast and cervical cancer screenings and diagnostic tests. The BCCP is capable of qualifying women diagnosed with breast and cervical cancer for health coverage through Indiana Medicaid through its Option 3. The coverage remains active during cancer treatment and terminates at its conclusion.

For additional information about the BCCP, visit www.in.gov/isdh/24967.htm.

**Federal Health Insurance Marketplace**

If a person’s income is too high to qualify for Medicaid or the Healthy Indiana Plan, he or she may be able to find health insurance through the federal Health Insurance Marketplace. Depending on income and household size, he or she may qualify for a tax credit that can help pay the cost of the health insurance.

Applicants may receive more information about the federal Health Insurance Marketplace by:
- Calling 800-318-2596
- Visiting www.healthcare.gov

**Healthy Indiana Plan**

The Healthy Indiana Plan is an affordable health insurance program from the state of Indiana for uninsured adult Hoosiers. The Healthy Indiana Plan pays for medical expenses and provides incentives for members to be more health conscious. The Healthy Indiana Plan provides coverage for qualified low-income Hoosiers ages 19 to 64, who are interested in participating in a low-cost, consumer-driven health care program.

The Healthy Indiana Plan uses a proven, consumer-driven approach that was pioneered in Indiana. The program continues to build upon the framework and successes of the original Healthy Indiana Plan that started in 2008.

The Healthy Indiana Plan has two coverage options, HIP Plus and HIP Basic.

**HIP Plus**

The preferred plan selection for all members is HIP Plus, which offers the best value for members. HIP Plus has comprehensive benefits including vision, dental and chiropractic services. The member pays an affordable monthly POWER Account contribution based on income. The amount is between $1 and $20 per month. There is no copayment required for receiving services with one exception: using the emergency room where there is no true emergency.
HIP Basic

HIP Basic is the fallback option for members with household income less than or equal to 100% of the federal poverty level who do not make their POWER Account contributions. The benefits are reduced. The essential health benefits are covered but not vision, dental or chiropractic services. The member is also required to make a copayment each time he or she receives a health care service, such as going to the doctor, filling a prescription or staying in the hospital. These payments may range from $4 to $8 per doctor visit or prescription filled and may be as high as $75 per hospital stay. HIP Basic can be much more expensive than HIP Plus.

How does someone qualify for the Healthy Indiana Plan?

To qualify for the Healthy Indiana Plan, applicants must be between the ages of 19–64 and meet the following eligibility requirements:

- Hoosiers with incomes in 2022 up to $18,764 annually for an individual, $25,276 for a couple or $38,300 for a family of four are generally eligible to participate in HIP. You can find up-to-date income limits under “Am I Eligible” at www.hip.in.gov.
- Individuals who are not eligible for Medicare or other Medicaid categories.

Eligibility threshold is not rounded.

The information in this guide is correct as of April 1, 2022.
For the most up-to-date information, refer to www.hip.in.gov.
What are the responsibilities of a Healthy Indiana Plan member?

In the Healthy Indiana Plan program, the first $2,500 of medical expenses for covered benefits are paid with a special savings account called a Personal Wellness and Responsibility Account. The state will pay most of this amount, but each member is also required to make a monthly contribution toward their health coverage into their POWER Account. The member contribution is based on income and will be between $1 and $20, but may be higher for members that smoke. The minimum contribution is $1 per month.

Managing the POWER Account and seeking preventive care can reduce the member’s future costs. If the applicant’s annual health care expenses are less than $2,500 per year, he or she may reduce the monthly payment for the next year. Members can also have their monthly payment reduced even more if they complete preventive health services. If their annual health care expenses are more than $2,500, the first $2,500 is covered by their POWER Account, and additional health services are fully covered at no additional cost to the members.

What are the Healthy Indiana Plan health plans?

There are four managed care entities (health plans) that manage the benefits and POWER Accounts of Healthy Indiana Plan members. They are Anthem Blue Cross and Blue Shield, CareSource Indiana, Managed Health Services and MDwise.

What are the benefits of HIP Plus?

The HIP Plus program provides comprehensive benefits including vision, dental and chiropractic services for a low, predictable monthly cost. With HIP Plus, members won’t have to pay every time they visit a doctor or fill a prescription. HIP Plus allows members to make a monthly contribution to their POWER Account based on their income. If both the member and spouse are enrolled in HIP Plus, the monthly contribution amount will be split between the two. The only other cost for health care in HIP Plus is a payment of $8 if members visit the Emergency Room when they do not have an emergency health condition.

Can the member receive help paying for the required contribution?

Yes, in the Healthy Indiana Plan, third parties such as employers, nonprofits and friends or family can contribute any amount up to the full contribution amount. In addition, the health plans may implement a rewards program that allows members to “earn” additional dollars in their POWER Accounts. Total contributions may not exceed the members’ required contribution to their POWER Accounts.

How does someone find a provider? Can he or she keep the same doctor?

Healthy Indiana Plan members should call their health plan (Anthem, CareSource, MDwise or MHS) or go online to research which providers are in that health plan’s network. Members can also call 877-GET-HIP-9 and ask.
Members new to HIP will want to make sure they choose a health plan that includes their doctor. They can call 877-GET-HIP-9 to discuss options.

**Hoosier Care Connect**

Hoosier Care Connect is a coordinated care program primarily serving Hoosiers age 65 and over, or with blindness or a disability who live in the community and are not eligible for Medicare or for home- and community-based waiver services. Children who are wards of the state, are in the Adoption Assistance Program, as well as those who are current and former foster children can opt into Hoosier Care Connect rather than receive traditional Medicaid. In Hoosier Care Connect, a person enrolls with a health plan that provides most of their Medicaid-covered benefits. A health plan, also called a managed care entity, is a group of doctors, pharmacies and hospitals that work together to help an individual get the health services he or she needs.

**What is covered by Hoosier Care Connect?**

Hoosier Care Connect provides standard benefits including coverage for medical expenses such as doctor visits, hospital care, therapies, medications, prescriptions and medical equipment. The benefits also include preventative care, such as regular check-ups, and mental health and substance abuse treatment. Hoosier Care Connect also has benefits for members with certain health care conditions like heart disease, asthma, diabetes or a disabling condition. Various health plans may offer additional services.

**Services that do not need a doctor’s referral:**

- Dental care
- Podiatry care (foot care)
- Chiropractic care
- Vision/eye care (except surgery)
- Mental health services
- Substance abuse services
- Transportation services

If members need any other special service or need to see another type of medical professional, they need to talk with their doctor to get a referral. Some services will require their doctor or other specialty provider to request prior authorization before the service can be delivered. It is up to the provider to request the prior authorization.

**How does someone choose a health plan and a health care provider?**

When applicants enroll in Hoosier Care Connect, they will select a health plan. Each health plan has a network of health care providers including primary care doctors, specialists, home health providers, pharmacies, therapists, etc.

It is important for applicants to know which health plans their doctor or doctors participate in. For most health care services, applicants must use the health care providers who are in their health plan.
The health plan choices are:
- Anthem
- Managed Health Services
- United Healthcare

How do applicants know if they are eligible?
The Eligibility Guide, found under the “Apply for Coverage” tab at in.gov/medicaid/members, is a resource tool that can provide eligibility information to assist individuals in knowing if they are more likely or less likely to qualify for any Medicaid benefits. It is not a final determination. The only way to know eligibility is to apply.

Hoosier Healthwise
Hoosier Healthwise is the state of Indiana’s health care program for children and some pregnant women with low income. Based on family income, children up to age 19 may be eligible for coverage. Hoosier Healthwise covers medical care like doctor visits, prescription medicine, mental health care, dental care, hospitalizations, surgeries, family planning and transportation to medical appointments at little or no cost to the member or the member’s family.

How does someone qualify for Hoosier Healthwise?
To qualify for Hoosier Healthwise, applicants must meet the following eligibility criteria:

Income/Household Size
Income limits are adjusted to account for the number of household members. Types of income include earned (example: wages from a job), unearned income (example: Social Security Disability payments) and countable income (e.g., taxable income plus certain Social Security Income and lump sum income. Supplemental Security Income, veterans benefits and child support are not counted). Visit the “Am I Eligible” guide at www.indianamedicaid.com (first click “members”) for current income limits.

Age
Eligibility criteria can be based on age. Certain programs are designed for people in specific age groups.

How do applicants know if they are eligible?
The Eligibility Guide, found under the “Apply for Coverage” tab at www.in.gov/medicaid/members, is a resource tool that can provide eligibility information to assist individuals in understanding if they are more likely or less likely to qualify for any Medicaid benefits. It is not a final determination. The only way to know eligibility is to apply.
What is covered by Hoosier Healthwise?

Hoosier Healthwise provides standard benefits including coverage for medical expenses such as doctor visits, hospital care, therapies, medications, prescriptions and medical equipment. The benefits also include preventive care, such as well-baby and well-child care and regular check-ups, and mental health and substance abuse treatment. Hoosier Healthwise also has benefits for children with special health care needs like asthma or diabetes. Various health plans may offer additional services.

How does someone choose a health plan and a health care provider?

When applicants enroll in Hoosier Healthwise, they will select a health plan. Each health plan has a network of health care providers including primary care doctors, specialists, home health care providers, pharmacies, therapists etc. It is important for applicants to know which health plans their doctor or doctors participate in. For most health care services, applicants must use the health care providers who are in their health plan. Members are assigned a primary medical provider to manage their health care.

The health plan choices are:

- Anthem
- CareSource
- Managed Health Services
- MDwise

Services that do not need a doctor’s referral:

- Dental care
- Podiatry care (foot care)
- Chiropractic care
- Vision/eye care (except surgery)
- Mental health services
- Substance abuse services
- Transportation services
- Family planning services
- Immunizations

If members need any other special service or need to see another type of medical professional, they need to talk with their doctor to get a referral. Some services will require their doctor or other specialty provider to request a prior authorization before the service can be delivered. It is up to the provider to request the prior authorization.

HoosierRx

Indiana’s state pharmaceutical assistance program, HoosierRx, can help pay the monthly Part D premium, up to $70 per month, for members enrolled in a Medicare Part D plan working with HoosierRx.
Who qualifies for HoosierRx?
To qualify for the HoosierRx program, an individual must be an Indiana resident, 65 years old or older, have a yearly income of $19,380 or less for a single person, or $26,100 or less for a married couple living together. The individual(s) must have applied for the “Medicare Extra Help” through Social Security to pay for their Medicare Part D plan and have received either a “Notice of Award” or “Notice of Denial” from Social Security regarding the “Medicare Extra Help.” The Social Security “Notice of Denial” must state that resources are above the limit established by law. The Social Security “Notice of Award” must state that a person is receiving partial extra help subsidy to help pay for the Medicare Part D premium. A person receiving the full extra help subsidy is not eligible for HoosierRx.

The information in this guide is correct as of April 1, 2022. For the most up-to-date information, refer to www.fssa.in.gov.

How does someone apply for HoosierRx?
A person who thinks they meet the eligibility requirements above should call a HoosierRx representative at 866-267-4679 or visit the HoosierRx website at www.in.gov/medicaid/members/194.htm.

Companies offering prescription drug plans working with HoosierRx include:
- AARP/UnitedHealthcare
- CIGNA
- EnvisionRx
- First Health
- Indiana University Health Plans (with Part D coverage)
- SilverScript
- WellCare

Medicare Savings Program
The Medicare Savings Program is a Medicaid program that helps support Medicare out-of-pocket expenses for individuals. There are different categories within the Medicare Savings Program, and benefits vary. All categories offer payment for Medicare Part B premiums, and the most generous category also covers Medicare Part A and B deductibles, copayments and coinsurance for eligible beneficiaries. For more information call toll-free at 800-452-4800.
Traditional Medicaid

Some Medicaid enrollees are served through a fee-for-service delivery system where health care providers are paid for each service (like an office visit, test or procedure).

Traditional Medicaid is mostly limited to those in long-term care facilities, those dually enrolled in Medicare and Medicaid, and individuals receiving home- and community-based services waivers.
Home- & Community-Based Services for the Aged, Blind and Disabled
The Indiana Family and Social Services Administration administers various programs, including waiver programs, which help people facing permanent or temporary life challenges at various stages of life. The goal of many of these programs is to allow individuals who meet criteria to receive services within their homes and communities as opposed to being institutionalized. These programs and waivers are described in this section.

**Adult Protective Services**

The Adult Protective Services program was established to receive and investigate reports regarding adults within the state of Indiana who may be endangered and, as appropriate, to coordinate a proper response to protect endangered adults who are victims of abuse, neglect or exploitation. APS field investigators operate out of the offices of county prosecutors throughout the state. If the APS unit has reason to believe that an individual who is 18 years or older is an endangered adult, the unit shall investigate the complaint or cause the complaint to be investigated by law enforcement or other agency and make a determination as to whether the individual reported is an endangered adult.

**Who is considered an endangered adult?**

An endangered adult is defined as an individual who is:

- At least 18 years old
- Incapacitated by any of the following:
  - Mental illness
  - Developmental/Intellectual disability
  - Dementia
  - Habitual drunkenness
  - Excessive drug use

  and

- Harmed or threatened with harm as a result of any of the following:
  - Battery
  - Neglect

  > Other physical or mental incapacity preventing the person from managing or directing the management of his or her property or providing or directing the provision of self care

  > Exploitation of the individual’s personal services or property

**What is battery, neglect or exploitation?**

Indiana is a mandatory report state, meaning everyone is required by law to report cases of suspected neglect, battery or exploitation of an endangered adult to an APS unit or law enforcement. All reports are secured and kept confidential.

- **Battery:** Knowingly or intentionally touching a person in a rude, insolent or angry manner; or in a rude, insolent or angry manner placing any bodily fluid or waste on another person
• **Neglect/Self-Neglect:** The intentional withholding of essential care or service or the inability of an individual to care for himself or herself; abandonment and confinement of an individual is also considered neglect

• **Exploitation:** The intentional misuse of a person’s property, person or services for financial gain; includes, but is not limited to, sexual misuse as well as the use of the endangered adult’s labor without pay

Adult Protective Services
unit service areas
What should I do if I suspect an adult is endangered?

All persons are required by law to report all cases of suspected battery, neglect or exploitation of a vulnerable adult. A report may be made by calling the APS statewide toll-free number at 800-992-6978, calling the nearest APS office or law enforcement agency or by submitting an online report.

Local offices and contact information can be found on page 72.

Aged and Disabled Medicaid Waiver

The Aged and Disabled waiver provides an alternative to nursing facility admission for adults and persons of all ages with a disability. The waiver is designed to provide services for people who would otherwise require care in a nursing facility. Waiver services can be used to help people remain in their own homes, as well as help people living in nursing facilities return to community settings such as their own homes, apartments, assisted living or adult family care settings.

How does someone qualify for the Aged and Disabled waiver program?

To qualify for the Aged and Disabled waiver, applicants must qualify for full coverage Medicaid and have needs that would otherwise require nursing facility level of care.

What are the income limits?

Applicants should refer to current Medicaid income limits. However, a special income limit is applied to Aged and Disabled waiver recipients when Medicaid eligibility is determined.

- Financial eligibility
  - > 300% of Supplemental Security Income,
  - > Parental income and resources disregarded for children under 18, and
  - > Spousal impoverishment protections similar to those for nursing homes

Visit the “Am I Eligible” guide at www.indianamedicaid.com (click on “Members” first) for current income limits.
What are the asset/resource limits?
The resource standard is $2,000 for a single individual and $3,000 for a married couple. However, for certain married couples, if one spouse is receiving a home- and community-based services waiver and the other spouse is not and continues to live in the community, then spousal impoverishment provisions apply in which there are additional resource protections for the community spouse.

How does someone apply for the Aged and Disabled waiver?
If you are interested in learning more about the Aged and Disabled waiver, contact your local INconnect Alliance member at 800-713-9023. A complete listing of INconnect Alliance members is also available on page 86 or you can visit the INconnect Alliance website at www.INconnectAlliance.org.

What services are available?
Case management services are provided to every Aged and Disabled waiver recipient. Other services available under the Aged and Disabled waiver include:

- Adult day services
- Adult family care
- Assisted living
- Attendant care
- Home modifications
- Health care coordination
- Homemaker
- Home-delivered meals
- Nutritional supplements
- Personal emergency response systems
- Respite
- Specialized medical equipment
- Structured family care
- Transportation
- Vehicle modifications

Centers for Independent Living
Independent Living philosophy emphasizes consumer control, the idea that people with disabilities are the best experts on their own needs, having crucial and valuable perspective to contribute and deserving of equal opportunity to decide how to live, work and take part in their communities, particularly in reference to services that powerfully affect their day-to-day lives and access to independence. Centers for Independent Living are consumer-controlled, cross-disability, nonresidential, private, nonprofit agencies that are designed and operated within local communities by individuals with disabilities. Each center is unique but operates under the same five core services.

Core services include:

- Peer support
- Information and referral
- Individual and systems advocacy
- Independent living skills training
- Services that facilitate transition from nursing homes and other institutions to the community, provide assistance to those at risk of entering institutions and facilitate transition of youth to postsecondary life.

Community and Home Options to Institutional Care for the Elderly and Disabled

The Community and Home Options to Institutional Care for the Elderly and Disabled program is administered through Indiana’s 15 Area Agencies on Aging (serving 16 planning and service areas). The CHOICE program provides home- and community-based services to assist individuals in maintaining their independence in their own homes or communities for as long as is safely possible.

How does one qualify for the Community and Home Options to Institutional Care for the Elderly and Disabled program?

Community and Home Options to Institutional Care for the Elderly and Disabled applicants must be at least 60 years of age or be any age and have a disability due to a mental or physical impairment. Applicants must also be found to be at risk of losing their independence, usually indicated by difficulties with activities of daily living, such as bathing, dressing, walking, transferring or medications set-ups, etc.

Community and Home Options to Institutional Care for the Elderly and Disabled funds may not be used if other funding such as Medicare or Medicaid is available to meet the individual’s needs.

What are the income limits?

There are no income limits for the Community and Home Options to Institutional Care for the Elderly and Disabled program. However, there is a cost-sharing formula, and applicants with higher incomes may be asked to pay for a portion of their services.

What are the asset/resource limits?

An individual may not have assets that exceed $250,000. In determining assets, an additional $20,000 in countable assets will be excluded from the total. There is a cost-sharing formula based on countable assets and individuals may be asked to pay for a portion of their services.

The resource standard for a single individual is $2,000 and for a married couple it is $3,000. However, for certain married couples, if one spouse is receiving a home- and community-based services waiver and the other spouse is not and continues to live in the community, then spousal impoverishment provisions apply in which there are additional resource protections for the community spouse.

How does someone apply for the Community and Home Options to Institutional Care for the Elderly and Disabled program?

If you are interested in learning more about the Community and Home Options to Institutional Care for the Elderly and Disabled program, contact
What services are available?

Services available under the Community and Home Options to Institutional Care for the Elderly and Disabled program include:

- Adult day services
- Attendant care
- Case management
- Environmental modification
- Handy chore
- Homemaker
- Home-delivered meals
- Home health aide
- Personal emergency response systems
- Pest control
- Respite
- Skilled nursing
- Specialized medical equipment
- Transportation
- Vehicle modifications

Community Integration and Habilitation waiver

The Community Integration and Habilitation waiver helps children and adults with intellectual and developmental disabilities live successfully in their home. This is one of two waivers administered by the Bureau of Developmental Disabilities Services.

How does someone qualify for the Community Integration and Habilitation waiver?

To qualify, a child or adult must have been diagnosed with an intellectual disability, developmental disability or related condition prior to the age of 22 years and the condition must be expected to continue indefinitely.

The individual must exhibit substantial functional limitations in at least three of the six major life areas. Those areas include self-care, learning, self-direction, capacity for independent living, understanding and use of language, and mobility.

In addition, the individual must also meet priority criteria. Those priority criteria are as follows:

- Individuals transitioning to the community from a nursing facility, extensive support needs facility and state operated facility
- Individuals determined to no longer need/receive active treatment in Supervised Group Living
- Individuals transitioning from 100% state-funded services
- Individuals aging out of Department of Education, Department of Child Services or Supervised Group Living
- Individuals requesting to leave a large private Intermediate Care Facility for Individuals with Intellectual Disabilities
• Death of a primary caregiver where there is no other caregiver available
• Caregiver over the age of 80 years when there is no other caregiver available
• Evidence of abuse or neglect in current institutional or Supervised Group Living placement
• Extraordinary health and safety risk as reviewed and approved by the division director

How does someone apply for a Community Integration and Habilitation waiver?

An individual or his/her guardian may apply for the Community Integration and Habilitation waiver by contacting their local Bureau of Developmental Disabilities Services office for an application packet. A complete list and contact information for the district offices is available on page 81.

What services are available on the Community Integration and Habilitation waiver?

- Adult day services
- Behavioral support services
- Case management
- Community transition
- Day habilitation
- Remote supports
- Environmental modifications
- Extended services
- Family and caregiver training
- Intensive behavioral intervention (age 21 and over)
- Music therapy
- Occupational therapy (age 21 and over)
- Personal emergency response system
- Physical therapy (age 21 and over)
- Prevocational services
- Psychological therapy (age 21 and over)
- Recreational therapy
- Rent and food for unrelated live-in caregiver
- Residential habilitation and support
- Respite
- Specialized medical equipment and supplies
- Speech/language therapy (age 21 and over)
- Structured family caregiving
- Transportation
- Wellness coordination
- Workplace assistance

If you encounter any terms or program names you do not understand, refer to the Indiana Family and Social Services Administration glossary of terms on page 128 or at www.in.gov/fssa/resource-guide/fssa-glossary-of-terms/.

Deaf & Hard of Hearing Services

Deaf & Hard of Hearing Services is a program within the Bureau of Rehabilitation Services. DHHS provides assistance, consultation and education on resources to individuals and their families regarding the needs and rights of individuals who are deaf or hard of hearing, as defined in the Americans with Disabilities Act and various other laws. DHHS provides grant funding to local
community agencies throughout the state to provide case management services through the Increasing Independence Program. Fluent American Sign Language case managers provide community support services to individuals who are deaf or hard of hearing to ensure improved independence. DHHS staff also provide community education and advocacy throughout the state. Additionally, DHHS provides oversight of the Indiana Interpreters Certification, Interpreter Continuing Education Credits and interpreter grievance process. DHHS also manages the state employee discount hearing aid program.

For more information about Deaf & Hard of Hearing Services, interested parties can email dhhshelp@fssa.in.gov or write to the address below:

Bureau of Developmental Disabilities Services districts
The Family Caregiver Program, part of the Older Americans Act, acknowledges and encourages the role caregivers play in the nation’s home- and community-based services system. These services are provided through Indiana’s 15 Area Agencies on Aging. These 15 Area Agencies on Aging (serving 16 planning and service areas) comprise the INconnect Alliance. The Family Caregiver Program can provide services to individuals caring for loved ones 60 years of age and older or to older relatives (not parents) age 55 and older caring for a child or older relatives (including parents) age 55 and older caring for an individual with a disability between the ages of 18 and 59. Additionally, the program can support adult family members or other informal caregivers age 18 and older providing care to individuals of any age with Alzheimer’s disease and related disorders. However, funding is extremely limited so services are not always available in every area of the state to cover all service options for eligible individuals who are in need of assistance.

What are the income limits?
There are no income limits for the Family Caregiver Program. Participants are asked to make voluntary contributions, as they are able.

What are the asset/resource limits?
There are no asset/resource limits for the Family Caregiver Program. Participants are asked to make voluntary contributions as they are able.

What services are available?
Services available under the Family Caregiver Program include:

- **Individual counseling/training/support groups:** Services or activities that assist the caregiver in the areas of health, nutrition, financial literacy, decision-making and problem solving. These can include counseling provided by a licensed professional or support groups that allow caregivers to discuss their attitudes, feelings and problems with other individual(s) to achieve greater understanding of their situation, role and problems that arise with caregiving. It can also include training and education for the caregiver to assist them in acquiring knowledge and skills that allow them to provide better care.

- **Respite:** Providing the caregivers temporary, short-term breaks from their caregiving responsibilities.

- **Supplemental services:** Home- and community-based services provided, on a limited basis, to complement the care provided by caregivers can include home modifications, assistive technologies, emergency response systems and incontinence supplies.
• **Access assistance**: One-on-one contacts to provide outreach and information to caregivers on available long-term services and supports can include case management services.

• **Information services**: Generally consisting of trainings for groups of caregivers and presentations on long-term services and supports.

**How does someone apply for the Family Caregiver program?**

If you are interested in learning more about the Family Caregiver program, contact your local INconnect member at **800-713-9023**. A complete listing of INconnect Alliance members is available on page 86 or you can visit the INconnect Alliance website at [www.INconnectAlliance.org](http://www.INconnectAlliance.org).

**Family Supports waiver**

The Family Supports waiver helps children and adults with intellectual and developmental disabilities live successfully in their home. This is one of two waivers administered by the Bureau of Developmental Disabilities Services.

**What are the eligibility criteria for the Family Supports waiver and how does someone apply?**

To qualify, a child or adult must have been diagnosed with an intellectual disability, developmental disability, or related condition prior to the age of 22 years, and the condition must be expected to continue indefinitely.

The individual must meet level of care. Level of care is determined by assessing six major life areas. Those areas include self-care, learning, self-direction, capacity for independent living, understanding and use of language, and mobility. The individual must exhibit substantial functional limitations in at least three of the six major life areas.

An individual or his/her guardian may apply for the Family Supports waiver by contacting their local Bureau of Developmental Disabilities Services office for an application packet. A list of the local BDDS offices can be found on page 81.

**What happens after the packet and application are turned in?**

An intake specialist from the applicant’s local Bureau of Developmental Disabilities Services office will contact him or her to schedule a time to complete the preliminary level of care.

**When will waiver services begin?**

It is the policy of the Bureau of Developmental Disabilities Services that individuals may be placed on a single statewide waiting list after applying for waiver services and meeting Level of Care criteria. Individuals will be targeted in the order they applied for services, from the oldest date of application to the newest.
The following priority criteria allows individuals to obtain the Family Support waiver without waiting:

- Adults ages 18 through 24 who have aged out of, graduated from or have permanently separated from their school setting
- A child of an active member or veteran of the armed forces of the United States or the National Guard

**What services are available through the Family Supports waiver?**

The Family Supports waiver is administered by the Bureau of Developmental Disabilities Services and provides services to individuals with developmental disabilities that are designed to enable them to live as independently as possible in their home or community setting appropriate to their needs.

**Available services include:**

- Adult day services
- Behavioral support services
- Case management
- Day habilitation
- Extended services
- Family and caregiver training
- Intensive behavioral intervention (age 21 and over)
- Music therapy
- Occupational therapy (age 21 and over)
- Participant assistance and care
- Personal emergency response system
- Physical therapy (age 21 and over)
- Prevocational services
- Psychological therapy (age 21 and over)
- Recreational therapy
- Respite
- Remote supports
- Specialized medical equipment and supplies
- Speech/language therapy (age 21 and over)
- Transportation
- Workplace assistance

If you encounter any terms or program names you do not understand, refer to the Indiana Family and Social Services Administration glossary of terms on page 126 or at www.in.gov/fssa/4999.htm.

**First Steps**

First Steps is the state’s early intervention program. The First Steps program ensures that all Indiana families with infants and toddlers birth through age 3 experiencing developmental delays or disabilities have access to early intervention services. Please go to page 19 for more information about First Steps.

**INconnect Alliance**

The INconnect Alliance is a statewide network of 15 Area Agencies on Aging (serving 16 planning and service areas). Currently, Aging and Disability Resource Centers are housed at the Area Agencies on Aging. Alliance mem-
bers receive thousands of calls from Hoosiers seeking information and support for themselves or loved ones. They provide information or referral to other resources; they assess needs and match individuals with community resources, and they are the entry point for Indiana’s programs of long-term services and supports for persons who are elderly or who have physical disabilities. The goal of the INconnect Alliance is to connect persons to resources, supports and services that allow them to remain as independent as possible within their homes and communities. For more information about the INconnect Alliance, visit www.INconnectAlliance.org or call 800-713-9023.

## Indiana Long-Term Care Ombudsman

The Indiana Long-Term Care Ombudsman Program advocates for residents of long-term care facilities, which includes nursing facilities and licensed assisted living facilities. Our primary purpose is to promote and protect the resident rights guaranteed to residents under federal and state law. We are resident-directed.

We achieve this mission with a network of local offices across the state, which recruit, train and manage a corps of certified ombudsmen. Staff and volunteer ombudsmen visit facilities throughout the state to ensure residents’ rights are being upheld.

We are here for you—residents, family members, friends and anyone interested in the welfare of long-term care residents. Our services are free and confidential.

### What does a long-term care ombudsman do?

Certified long-term care ombudsmen are trained to receive complaints and assist residents to resolve problems in situations involving quality of care, use of chemical or physical restraints, transfer and discharge, abuse and other aspects of resident rights.

Your ombudsman will:

- Advocate for your rights as a resident living in a long-term care facility
- Resolve concerns about your quality of life and quality of care received
- Work with you, your family or friends and facility staff to meet your needs
- Negotiate on your behalf
- Provide education on how to self-advocate
- Provide education about long-term care facilities as well as other service options in the community
- Help you establish a resident or family council

### Who can contact the long-term care ombudsman?

- Residents of nursing homes and licensed assisted living facilities
- Relatives and friends of residents in long-term care facilities
- Administrators and employees of long-term care facilities
- Anyone concerned about the welfare of residents of long-term care facilities
- The community at large
Reasons why people call us:

- Problems with care—call lights not being answered, problems with medication being administered, poor hygiene, etc.
- Violations of rights—privacy issues, loss of dignity issues, poor staff attitudes, emotional and verbal abuses, etc.
- Problems with transfers and discharges—improperly discharged, service fees not disclosed, refused readmission, Medicaid discrimination, etc.

Residents’ rights

When a person moves into a long-term care facility, they retain all their rights as a private citizen, plus, under federal and state law, they gain numerous other rights as a resident of the facility. Some of these rights, in abbreviated form, are listed below:

- Right to be informed about and exercise their rights
- Right to know about services and financial charges
- Right to participate in planning their care and treatment
- Right to refuse treatment
- Right to confidentiality of records
- Right to privacy
- Right to control their finances
- Right to freedom from abuse, neglect and exploitation
- Right to freedom from chemical and physical restraints
- Right to express grievances without fear of retaliation
- Rights pertaining to admissions, transfers and discharges, including the right to appeal
- Right to communicate freely with persons of their choice

How to file a complaint

If you or someone you care about lives in a nursing home, a licensed residential care facility (assisted living) or an adult family care home, you have the right to file a complaint regarding your concerns about the quality of life or care for yourself or your loved one.

There are several ways you may express your concerns:

- Talk directly to staff and/or leadership at the facility.
- File a written grievance with the facility.
- Voice your concerns at the facility resident council meeting or family council meeting.
• Call the Indiana Department of Health Complaint Line at 800-246-8909.
• Contact your state or local long-term care ombudsman at 800-622-4484, email at LongTermCareOmbudsman@ombudsman.IN.gov or submit your complaint on our website.

If you decide to file a complaint with the LTC Ombudsman Program, here is what you can expect:

• The information we receive is confidential.
• You have the right to remain anonymous.
• The LTC Ombudsman Program staff will review your complaint within two to three business days of receipt of the complaint.
• If you provide your contact information, a representative of the LTC Ombudsman Program may contact you for additional information.
• The LTC Ombudsman representative will follow up with the resident because we are “resident-directed.”
• If the resident or resident’s representative requests and grants permission to receive help from the program, an Ombudsman will assist the resident or their representative to try to resolve their concerns.

When communicating your complaint to the LTC Ombudsman Program, be sure to provide the following information:

• The name of the resident(s)
• Your name and contact information (unless you prefer to remain anonymous).
• The name and city where the facility is located
• Specific details about the nature of your concern

Money Follows the Person

The Money Follows the Person program is funded through a grant from the U.S. Centers for Medicare and Medicaid Services. The MFP program was developed to help states move individuals from institutional settings to home- and community-based settings. Indiana was approved for the MFP program in 2007. Since then, Indiana has focused on assisting eligible persons to leave institutional care by providing services for individuals to live safely in their communities.

How does someone qualify for Money Follows the Person?

An applicant must be living in an institution to be eligible for Indiana’s Money Follows the Person program. To apply, a person must meet specific institutional placement criteria. The criteria vary depending on the qualifying institution in which the person is currently residing. The applicant must be a resident of a qualifying institution for at least 90 consecutive days. In addition to the placement requirements, a person wishing to participate in Indiana’s MFP program must also meet all of the following conditions:

- They must have needs that can be met safely through services available in the community.
- They must be an Indiana Medicaid-eligible recipient for at least one day prior to discharge from the institution.
- They must meet the minimum requirements for a funding source that is currently partnering with Indiana’s MFP program (e.g., Aged and Disabled Medicaid waiver, Traumatic Brain Injury Medicaid waiver).

What are the income limits?

Applicants should refer to current Medicaid income limits. However, a Special Income Limit is applied to Money Follows the Person recipients when Medicaid eligibility is determined.

Visit the “Am I Eligible?” guide at www.indianamedicaid.com (click “Members” first) for current income limits.

What are the asset/resource limits?

The resource standard for a single individual is $2,000 and for a married couple it is $3,000. However, for certain married couples, if one spouse is receiving a home- and community-based services waiver and the other spouse is not and continues to live in the community, then spousal impoverishment provisions apply in which there are additional resource protections for the community spouse.

What services are available?

Case management services and transition services are provided to every Money Follows the Person recipient. Other available services vary based on
those provided by the partner program to which the individual will transfer at the end of his or her 365 days in the MFP program.

**How does someone apply for the Money Follows the Person program?**

Applicants can apply through their local INconnect Alliance member (a complete listing of INconnect Alliance members is available on page 86).

### Older Americans Act programs

The Older Americans Act provides community-based services and opportunities for older individuals and their families. Supportive services and senior center programs are provided through Indiana’s Area Agencies on Aging. These 15 Area Agencies on Aging (serving 16 planning and service areas) comprise the INconnect Alliance.

**How does someone qualify for Older Americans Act programs?**

Older Americans Act programs generally require only that recipients be over the age of 60. However, funding is extremely limited, so services are not always available to cover all service options for eligible individuals in need of assistance.

**What are the income limits?**

There are no income limits for Older Americans Act programs. Participants are asked to make voluntary contributions as they are able.

**What are the asset/resource limits?**

There are no asset/resource limits for Older Americans Act programs. Participants are asked to make voluntary contributions as they are able.

**How does someone apply for Older Americans Act programs?**

If you are interested in learning more about the Older Americans Act programs, contact your local INconnect Alliance member at **800-713-9023**. A complete listing of INconnect Alliance members is available on page 86 or you can visit the INconnect Alliance website at [www.INconnectAlliance.org](http://www.INconnectAlliance.org).

**What services are available?**

**Services available under the Older Americans Act include:**

- Adult day services
- Attendant care
- Caregiver support services
- Case management
- Congregate meals
- Environmental modifications
- Homemaker
- Home-delivered meals
- Information and assistance
- Legal assistance
Older Independent Blind program

The Indiana Older Independent Blind program expands independent living services for people who are age 55 and older and have a severe visual impairment. Through a grant from the U.S. Department of Education’s Independent Living Services for Older Individuals Who Are Blind program, the Bureau of Rehabilitation Services and Blind and Visually Impaired Services partner with statewide community programs to administer a wide array of services for older individuals who are blind or visually impaired. Services may include assistance in correcting or modifying visual disabilities, to include providing optical vision aids, in-home training, orientation and mobility training, Braille instruction, adaptive skills training, information and referral, peer counseling and other appropriate services designed to assist the individual with daily living activities.

For a list of Older Independent Blind community programs by county of coverage and additional information about the Older Independent Blind program, please visit the program website at www.in.gov/fssa/ddrs/rehabilitation-employment/blind-and-visualy-impaired/older-independent-blind-program/ or contact the Blind and Visually Impaired Services program manager at 800-545-7763.

Older Independent Blind community programs and a list of counties they serve:

- **accessABILITY** – Counties: Boone, Hamilton, Hendricks, Marion, Hancock, Morgan, Johnson, Shelby
- **Bosma Enterprises** – Counties: All Indiana counties
- **Future Choices Inc.** – Counties: Grant, Howard, Tipton, Madison, Delaware, Randolph, Blackford
- **Independent Living Center of Eastern Indiana** – Counties: Dearborn, Henry, Wayne, Rush, Fayette, Union, Decatur, Franklin, Jennings, Ripley, Jefferson, Ohio, Switzerland
- **League for the Blind and Disabled Inc.** – Counties: St. Joseph, Elkhart, LaGrange, Steuben, Marshall, Kosciusko, Whitley, Noble, Dekalb, Allen, Huntington, Wells, Adams, Jay
- **The WILL Center** – Counties: Vermillion, Parke, Putnam, Vigo, Clay, Owen, Sullivan, Greene, Knox, Daviess, Martin, Pike, Gibson
Supervised Group Living

Supervised Group Living, also known as “group homes,” is a residential option available to eligible individuals with intellectual or developmental disabilities. Typically, there are five to eight individuals in one SGL setting. The setting and services provided in a Supervised Group Living placement can vary depending on the individual’s age, support needs and interests.

What are the eligibility criteria for group home placement?

To qualify for SGL placement, an individual must have been diagnosed with an intellectual disability, developmental disability, or related condition prior to the age of 22 years and the condition must be expected to continue indefinitely.

The individual must meet level of care criteria. Level of care is determined by assessing six major life areas. Those areas include self-care, learning, self-direction, capacity for independent living, understanding and use of language, and mobility. The individual must exhibit substantial functional limitations in at least three of the six areas. An individual may NOT receive home- and community-based waiver services while in SGL placement.

How does someone apply?

An individual should contact their local Bureau of Developmental Disabilities Services District Office. The district offices can provide the application and provide assistance in finding additional services the individual may be eligible to receive.

A list of the local BDDS district offices can be found on page 81.

Traumatic Brain Injury Medicaid waiver

The Traumatic Brain Injury waiver provides home- and community-based services to individuals who have suffered a traumatic brain injury and who, without such services, would require institutional care.

How does one qualify for the Traumatic Brain Injury waiver?

To qualify for the Traumatic Brain Injury waiver, applicants must have a traumatic brain injury diagnosis, qualify for full coverage Medicaid, and either require nursing facility level of care or qualify for placement in an intellectual disability intermediate care facility.

What are the income limits?

Applicants should refer to current Medicaid income limits. However, a special income limit is applied to TBI Waiver recipients when Medicaid eligibility is determined.
• Financial eligibility
  > 300% of Supplemental Security Income
  > Parental income and resources disregarded for children under age 18

Visit the “Am I Eligible?” guide at www.indianamedicaid.com (click “Members” first) for current income limits.

What are the asset/resource limits?
The resource standard for a single individual is $2,000 and for a married couple it is $3,000. However, for certain married couples, if one spouse is receiving a home- and community-based services waiver and the other spouse is not and continues to live in the community, then spousal impoverishment provisions apply in which there are additional resource protections for the community spouse.

How does someone apply for the Traumatic Brain Injury waiver?
If you are interested in learning more about the Traumatic Brain Injury waiver, contact your local INconnect Alliance member at 800-713-9023. A complete listing of INconnect Alliance members is available on page 86 or you can visit the INconnect Alliance website at www.INconnectAlliance.org.

What services are available?
Case management services are provided to every Traumatic Brain Injury Waiver recipient.

Other services available under the Traumatic Brain Injury Waiver include:

• Adult day services
• Adult family care
• Assisted living
• Attendant care
• Behavior management
• Home modifications
• Health care coordination
• Homemaker
• Home-delivered meals
• Nutritional supplements
• Personal emergency response systems
• Respite
• Residential-based habilitation
• Specialized medical equipment
• Structured day program
• Supported employment
• Transportation
• Vehicle modifications

If you encounter any terms or program names you do not understand, refer to the Indiana Family and Social Services Administration glossary of terms on page 128 or at www.in.gov/fssa/resource-guide/fssa-glossary-of-terms/.
Mental Health / Addictions
Mental Health / Addictions

Addiction recovery
The Division of Mental Health and Addiction offers many services designed to aid with addiction recovery. These services are available for adults, youth, women who are pregnant, women with dependent children, people with problems at home or at work, and people with legal troubles. Services are available for people with limited or no resources.

What is an addiction?
Thousands of Hoosiers are deeply affected by addiction every day. Family, friends and coworkers may be heartbroken by this illness. Whether a person is addicted to alcohol, prescription medication, tobacco, marijuana, illegal drugs or gambling, the result is the same. People become less and less happy with more and more attempts to regain the artificial pleasure produced by the substance, thought or behavior. As a person continues to try to regain that initial experience, the chemicals trick the body into imitating naturally occurring brain processes that allow our minds and bodies to work. Addiction is actually caused by the human body’s ability to adapt to the presence of these substances and still continue to function.

Addiction is NOT taking or doing anything. Addiction is the inability to stop and not start again despite consequences. Addiction may be the only illness, the result of another mental illness or co-occur with a mental illness. Regardless of cause and effect, people can and do recover, and regain lives of joy and purpose.

Recovery from addiction is the return of that ability to stop and stay stopped.

How does someone get help with an addiction?
Since the Division of Mental Health and Addiction programs and services are designed for all Hoosiers in need, and since each has various requirements and is for a variety of needs, the best way to begin is to call a confidential and free counselor to assist you in finding help at 800-662-4357.

You may also find help in your area by going online to www.in.gov/fssa/addiction and clicking “Find Addiction Treatment in Indiana,” https://findtreatment.samhsa.gov/ or by calling 2-1-1.

Adult Mental Health Habilitation
Adult Mental Health Habilitation is a program designed to help Hoosiers with serious mental illness maintain or sustain skills to live successfully in their communities.

What is Adult Mental Health Habilitation?
The Adult Mental Health Habilitation program is an option for consumers with long-term behavioral health needs who may benefit more from a habilitative approach to treatment rather than a traditional rehabilitative approach.
Habilitative services help people maintain or sustain their current level of functioning. Rehabilitative services help people regain a level of functioning that they once had but lost.

AMHH is designed for people who have attempted to regain a prior level of functioning and have been unsuccessful. AMHH services are designed to help these individuals maintain or sustain current functioning level in order to prevent further regression. AMHH is intended to help people acquire, retain and/or improve the self-help, socialization and adaptive skills necessary to reside successfully in a community setting.

What are Adult Mental Health Habilitation services?

The Adult Mental Health Habilitation program consists of eight services, which are similar to what consumers receive from their behavioral health providers:

- Adult day services
- Home- and community-based habilitation and support
- Respite care
- Therapy and behavioral support services
- Addiction counseling
- Supported community engagement services
- Care coordination
- Medication training and support services

Individuals will work with their case manager to develop treatment goals and then choose from the array of services based on their individual needs to help meet specific behavioral health and community living goals. Individuals receive a predetermined amount of service units to fulfill the combination of these services for the period of time they are enrolled in the Adult Mental Health Habilitation program. This is also referred to as the “package period.”

What will change if I choose Adult Mental Health Habilitation?

The Adult Mental Health Habilitation program is a package of specialized services to help meet the habilitative goals of consumers with long-term behavioral health needs. The services are similar to other programs that offer skills training, therapy, medication support, case management and other services. However, they are specialized in their design to help individuals maintain and sustain their current level of functioning in an attempt to avoid a reduction in functioning level. AMHH services also provide training and support for family members, friends and other unpaid caregivers.

To be eligible, individuals must:

- Be at least 19 years of age
- Have an Adult Needs and Strengths Assessment of three or higher
- Be enrolled in an eligible Medicaid program
- Have a qualifying mental health diagnosis
- Live in a community-based setting
Individuals currently receiving services through a community mental health center can ask their provider for additional information. Individuals who are not currently involved with a CMHC but think they may qualify may contact their local community mental health center or call the Division of Mental Health and Addiction at 317-232-7800 or amhhservices@fssa.in.gov.

Behavioral and Primary Healthcare Coordination

The Behavioral and Primary Healthcare Coordination program consists of the coordination of services to manage the healthcare needs of eligible recipients. This includes logistical support, advocacy and linkage to assist individuals in navigating the health care system. It also incorporates activities that help recipients gain access to needed physical and behavioral health services.

How does someone qualify for Behavioral and Primary Healthcare Coordination services?

The Behavioral and Primary Healthcare Coordination program is intended to assist in the coordination of mental health and primary health needs of the individual. An individual may qualify for the BPHC program if the individual has an eligible BPHC diagnosis and needs help managing his or her health care. To be eligible for BPHC, applicants must be age 19 or older and have a monthly income no higher than 300% of the federal poverty level. If there are children or other qualifying dependents in the individual's household, an individual's income may be higher.

What are the income limits?

An individual must have countable income no higher than 300% of the federal poverty level. Determination of financial eligibility is conducted by the Division of Family Resources.

What are the asset/resource limits?

There are no asset/resource limits.

Where does someone go to apply for Behavioral and Primary Healthcare Coordination?

Interested individuals can apply for Behavioral and Primary Healthcare Coordination at any community mental health center that has been approved by the Division of Mental Health and Addiction.
How does someone apply for Behavioral and Primary Healthcare Coordination?

The community mental health center will meet with the applicant to complete the Behavioral and Primary Healthcare Coordination application. They will ask questions about the applicant’s physical and behavioral health and enter the information provided. Once clinically approved, the application must be approved by the Division of Family Resources. Once all components of the application have been reviewed, the applicant will then receive a letter stating if qualification was met for the program. This letter will give instructions on what rights exist if he or she does not qualify. For any further questions, applicants may contact the Division of Mental Health and Addiction at 317-232-7800 or bphcservice@fssa.in.gov.

Child Mental Health Wraparound

Child Mental Health Wraparound services provide young people identified as having a serious emotional disturbance with intensive, home- and community-based wraparound services that will be provided within a system of care philosophy and consistent with wraparound principles. Services are intended to augment the youth’s existing or recommended behavioral health treatment plan (e.g., Medicaid Rehabilitation Option, Managed Care) and address the following:

- The unique needs of the Child Mental Health Wraparound participant
- A treatment plan built upon the participant and family strengths
- Services and strategies that assist the participant and family in achieving more positive outcomes in their lives

How does someone qualify for Child Mental Health Wraparound services?

Applicants must meet financial and behavioral health guidelines in order to be enrolled in the Child Mental Health Wraparound program. When an applicant completes an Indiana Application for Health Coverage, the Division of Family Resources will determine if he or she qualifies for health coverage. The Division of Mental Health and Addiction will determine if the behavioral health criteria have been met.

1915(i) Child Mental Health Wraparound exclusionary criteria

A youth with any of the criteria below will not qualify for Child Mental Health Wraparound services:

- Primary Substance Use Disorder
- Pervasive Developmental Disorder (Autism Spectrum Disorder)
- Primary Attention Deficit Hyperactivity Disorder
• Imminent risk of harm to self or others. Any youth identified as not able to feasibly receive intensive community-based services without compromising his/her safety, or the safety of others, will be referred to a facility capable of providing the level of intervention or care needed to keep the youth safe.
• Youth resides in an institutional or residential facility

What services will someone receive if eligible for Child Mental Health Wraparound?

Child Mental Health Wraparound services are provided by qualified, Division of Mental Health and Addiction approved, specially trained service providers who engage the participant and family in a unique assessment and treatment planning process characterized by the formation of a child and family wraparound team.

The state’s purpose for providing CMHW services is to serve eligible participants, who have severe emotional disturbances, and enable them to benefit from receiving intensive wraparound services within their homes and communities with natural family/caregiver supports. The CMHW services available to the eligible participant include:
• Wraparound facilitation
• Habilitation
• Respite care
• Family support and training for the unpaid caregiver

How does someone apply for Child Mental Health Wraparound?

For information contact the Division of Mental Health and Addiction at 317-232-7800.

The table below shows the current eligibility requirements for the CMHW program. All of these criteria must be met:

<table>
<thead>
<tr>
<th>Age</th>
<th>Must be between 6 and 17 years old</th>
</tr>
</thead>
<tbody>
<tr>
<td>Financial Criteria</td>
<td>Must be eligible for Indiana Medicaid</td>
</tr>
<tr>
<td>Behavioral Health Criteria</td>
<td>Must have two or more DSM IV-TR diagnoses that are not considered excluded</td>
</tr>
</tbody>
</table>

If you encounter any terms or program names you do not understand, refer to the Indiana Family and Social Services Administration glossary of terms on page 128 or at www.in.gov/fssa/resource-guide/fssa-glossary-of-terms/.
Community Mental Health Centers

If you are looking for assistance for a mental health or addiction issue, there are providers available in every county. Providers can be accessed for children, youth, adults and seniors through a network of community mental health centers.

To locate a CMHC near you, go to www.fssa.in.gov/dmha and click on “Find a Local Service Provider.” Then click your county on the map shown. The list below is also a starting point for connecting to services. For more information, call 317-232-7800.

### Indiana Pregnancy Promise Program

The Indiana Pregnancy Promise Program is a free, voluntary program for pregnant Medicaid members who use opioids or have used opioids in the past. The goals of the Pregnancy Promise Program are for participants to:

- Enter prenatal care
- Access opioid treatment needed to achieve sustained recovery
- Receive ongoing support and follow-up care for the mother and infant during and after pregnancy
- Provide hope and set a strong foundation for the future
Why is the Indiana Pregnancy Promise Program important?

- Opioid use disorder during pregnancy is increasing in Indiana and nationwide
- Treatment of opioid use disorder during pregnancy has a high rate of success
- Treating opioid use during pregnancy reduces the risks of harmful effects to mothers and infants

Who can participate?

The Pregnancy Promise Program is available to pregnant individuals in the state of Indiana. To be eligible, participants must meet the following criteria:

- Pregnant or within 90 days of the end of pregnancy
- Identify as having current or previous opioid use
- Be eligible for or receive Medicaid health coverage

To make a referral for yourself or someone you know, visit www.Pregnancy-Promise.in.gov, email PregnancyPromise@fssa.in.gov, call 317-234-5336 or call toll-free 888-467-2717.

Problem Gambling / Gambling Disorder

What is problem gambling / gambling disorder?

A variety of terms is used to describe gambling issues and addiction. To provide consistency, DMHA will use the following terms when addressing specific gambling criteria:

The term “problem gambling” is used when referring to prevention, education and/or awareness activities.

The term “gambling disorder” is used when referring to gambling addiction and/or treatment services. Similar to an alcohol or drug addiction, a gambling addiction is a progressive disorder that can have negative implications for the addicted individual’s health, family, finances and career.

How does someone qualify for gambling disorder treatment?

To be eligible to receive gambling treatment services from a Division of Mental Health and Addiction-endorsed gambling disorder treatment provider, the following requirements must be met:

- The individual must be a resident of Indiana, and
- The individual is 18 years of age or older and has a qualifying score on the South Oaks Gambling Screen or the individual is 12 to 17 years of age and has a qualifying score on the South Oaks Gambling Screen – Revised Adolescent

>This score must be reflective of gambling behavior over the 12-month period prior to screening.
What types of gambling treatment services are available?

Each individual that is diagnosed with a current gambling disorder is eligible to receive gambling treatment services up to $2,500 per state fiscal year from a Division of Mental Health and Addiction-endorsed gambling disorder treatment provider. Providers are also encouraged to maximize the use of non-state funds and other alternative funding sources, when appropriate. The types of gambling disorder treatment services available include:

- Enrollment / individualized integrated care plan
- Individualized integrated care plan review
- 24-hour crisis intervention
- Case management
- Intensive outpatient treatment
- Outpatient treatment (group)
- Individual counseling

Suicide Prevention

For education and resources regarding suicide prevention in Indiana, please visit [www.in.gov/issp/](http://www.in.gov/issp/). The following resources are available for those in crisis as well:

**Trevor Project**
Trevor Lifeline is a crisis intervention and suicide prevention phone service available 24/7/365 for the LGBTQ+ community. Call 866-488-7386 or text “START” to 678678. You can find more by visiting: [www.thetrevorproject.org/](http://www.thetrevorproject.org/).

**Veteran Mental Health Crisis or Suicide Prevention Help**
Call 800-273-8255, then select 1. If you have hearing loss, call TTY: 800-799-4889. You can find out more by visiting [www.va.gov/health-care/health-needs-conditions/mental-health/suicide-prevention/](http://www.va.gov/health-care/health-needs-conditions/mental-health/suicide-prevention/).

If you or someone you know has ongoing thoughts of death or suicide, or if a suicide attempt has been made, contact a doctor or go to a hospital emergency room immediately or call the National Suicide Prevention Hotline at 800-273-TALK (8255).

A teenager-specific national hotline is available as well: Teen Suicide Hotline at 800-SUICIDE (784-2433). You can also text for help. Just text “IN” to 741741 for suicide prevention.
Transportation Benefits
Indiana Health Coverage Programs

Transportation benefits are covered under Indiana Health Coverage Programs, subject to limitations established for certain benefit packages. Transportation benefits are available to Healthy Indiana Plan members only if in HIP State Plan Plus or HIP State Plan Basic or if offered by their managed care entity. Additionally, transportation benefits are available to other Medicaid members including Hoosier Healthwise, Hoosier Care Connect and traditional Medicaid.

Transportation benefits include a ride from a Medicaid transportation provider to any covered medical service/appointment.

How does someone arrange for transportation?

To receive transportation benefits, a member enrolled in Hoosier Healthwise, Hoosier Care Connect or Healthy Indiana Plan must call their health plan’s transportation broker (similar to a dispatching service) at least 48 hours in advance. The transportation broker arranges rides to and from the medical appointment. There are no mileage or frequency limits (such as annual limits), however prior authorization may be required for longer trips or more than 20 one-way trips per member per year.

Children in Hoosier Healthwise qualify for either Package A or Package C benefits, depending on family income. Hoosier Healthwise Package A covers all transportation at no cost to the member. Hoosier Healthwise Package C only covers emergency transportation with a $10 copayment. Non-emergency transportation is not available to Hoosier Healthwise Package C members.

Traditional Medicaid members may call Southeastrans at least two business days in advance of a trip to schedule non-emergency transportation. To learn more about the nonemergency transportation benefit, Traditional Medicaid members can visit www.in.gov/Medicaid/members. Trips greater than 50 miles or members who have made more than 20 one-way trips during a 12-month period year require prior authorization be obtained.

Aged and Disabled Waiver

The Aged and Disabled waiver provides an alternative to nursing facility admission for adults and persons of all ages with a disability. The waiver is designed to provide services for people who would otherwise require care in a nursing facility. More details about services available under this program are found on page 74.
Community and Home Options to Institutional Care for the Elderly and Disabled

The Community and Home Options to Institutional Care for the Elderly and Disabled program provides home- and community-based services to assist individuals in maintaining their independence in their own home or community for as long as is safely possible. More details about services available under this program are found on page 78.

Older Americans Act programs

The Older Americans Act provides community-based services and opportunities for older individuals and their families. Older Americans Act programs generally only require that recipients be over the age of 60. More details about services available under this program are found on page 97.

Traumatic Brain Injury Medicaid waiver

The Traumatic Brain Injury waiver provides home- and community-based services to individuals who have suffered a traumatic brain injury and who, without such services, would require institutional care. More details about services available under this program are found on page 99.
Housing
The Indiana Housing and Community Development Authority creates housing opportunities, generates and preserves assets and revitalizes neighborhoods by facilitating the collaboration of multiple stakeholders, investing financial and technical resources in development efforts, and helping build capacity of qualified partners throughout Indiana. An overview of IHCDA programs can be found on the following pages.

**Emergency Rental Assistance**

Indiana will be receiving emergency rental assistance funding as part of the new federal COVID-19 Relief Bill. This program helps eligible households impacted by the COVID-19 pandemic by providing rental assistance and other services designed to improve housing stability. Information will be made available on [www.indianahousingnow.org](http://www.indianahousingnow.org). Funding for this program is limited and availability of this program is subject to change at any time. Please check the website listed above for current information about the program.

**Housing Choice Vouchers**

Housing Choice Vouchers (formerly known as Section 8) provide eligible households vouchers to help pay the rent on privately owned homes of their choosing. A family receiving a voucher must pay at least 30% of its monthly adjusted gross income for rent and utilities. The vouchers are generally administered and can be applied for through local public housing authorities. The Indiana Housing and Community Development Authority is one of many independent public housing agencies in the state that provide vouchers. Housing Choice Vouchers are not ideal for immediate or emergency housing needs due to potentially long waitlists. Individuals are encouraged to apply for multiple waitlists. IHCDA serves portions of 81 counties that are not served by other PHAs (such as the Indianapolis Housing Authority and the Gary Housing Authority.)

This website explains IHCDA’s program and service area: [www.in.gov/ihcda/homeowners-and-renters/section-8-housing-choice-vouchers-hcv/](http://www.in.gov/ihcda/homeowners-and-renters/section-8-housing-choice-vouchers-hcv/)

Other affordable housing options can be found at: [www.indianahousingnow.org](http://www.indianahousingnow.org)
Indiana Foreclosure Prevention Network

Struggling to pay your mortgage? The Indiana Foreclosure Prevention Network provides free foreclosure prevention counseling to Hoosiers facing foreclosure. We will work with you and your lender to find a solution to your financial situation. Don’t hesitate. Call 877-GET-HOPE today or visit http://877gethope.org/.

Low-Income Home Energy Assistance Program

The Low-Income Home Energy Assistance Program assists low-income families with the cost of their home energy. The program serves low-income households subject to an energy burden. EAP is available for winter assistance beginning the first week of November through May of each year. To apply for EAP, contact the Local Service Provider in your area.

A complete listing of participating providers is available online at www.in.gov/ihcda/homeowners-and-renters/low-income-home-energy-assistance-program-liheap/.

Neighborhood Assistance Program

The Neighborhood Assistance Program offers up to $2.5 million in state tax credits each state fiscal year for distribution to nonprofit organizations across Indiana. An application is released annually for organizations to apply for credits and participate in the program. Organizations who meet eligibility and reporting requirements may be eligible to receive credits.

Residential Care Assistance Program

The Residential Care Assistance Program provides residential financial assistance to eligible individuals residing in Indiana Department of Health licensed residential care facilities and county homes that have an approved RCAP contract with the Division of Aging. RCAP provides assistance for residents who cannot live in their homes because of age, mental illness or physical disability, but who do not need the level of care provided in a licensed nursing facility. Services include room, board and laundry with minimal administrative direction as well as care coordination provided on behalf of eligible individuals at an approved per diem rate established by the Division of Aging.
How does someone qualify for the Residential Care Assistance Program?

An applicant must be:

- At least 65 years of age, or blind or disabled or diagnosed with a serious mental illness
  - **Aged:** Must be 65 years of age or older
  - **Blind:** The degree of blindness is determined by the Indiana Family and Social Services Administration medical review team based on a visual exam; the client also must be at least 18 years of age
  - **Disabled:** Disability is determined by the Indiana Family and Social Services Administration medical review team based upon social and medical information; the client also must be at least 18 years of age
- A current Medicaid recipient
- Currently residing in a Residential Care Assistance Program facility

What are the income limits?

Applicant’s gross monthly income cannot exceed $1,501.06 if residing in a licensed Residential Care Assistance Program facility. Applicant’s gross monthly income cannot exceed $1,125.41 if residing in a county home.

What are the asset/resource limits?

The asset limits are $2,000 for an individual and $3,000 if living with a spouse.

How does someone apply for the Residential Care Assistance Program?

If you are interested in learning more about the program, contact your local INconnect Alliance member at 800-713-9023. A complete listing of INconnect Alliance members is available on page 86 or you can visit the INconnect Alliance website at www.INconnectAlliance.org.

The Residential Care Assistance Program facility assists the applicant in completing the RCAP application. However, the applicant’s family, guardian or advocate may assist in completion of the application. Complete the RCAP application and provide supporting documentation as indicated in the application. All documentation must be submitted at the same time as the application or the application will be denied by the Division of Family Resources.

Only one application per email can be sent to the Division of Family Resources in order for the application to be considered. Completed applications must be emailed to fssa.apps4rcap@fssa.in.gov. Incomplete applications will not be processed.
Applications can be obtained on the Division of Aging website at www.in.gov/fssa/aging.htm. In the “Information / Resources” box, click “Provider resources” and select “Residential Care Assistance Program.”

**How does someone find a Residential Care Assistance Program provider?**

Contact the RCAP director at rcap.provider@fssa.in.gov or visit the Division of Aging website at www.in.gov/fssa/aging.htm for a list of facilities that are approved Residential Care Assistance Program providers.

### Weatherization Assistance Program

The Weatherization Assistance Program provides energy conservation measures and client education for the permanent long-term benefit of reducing the utility bills of low-income households. The focus of the WAP is to provide energy efficiency improvements to the households served. The program is available to both homeowners and renters. In the case of renters, the landlord must provide permission for the work to be performed and meet the conditions of the local WAP sub-grantee landlord agreement.

To find local weatherization sub-grantees, visit www.in.gov/ihcda/homeowners-and-renters/weatherizationenergy-conservation/.
FSSA Glossary of Terms

The following terms relate to FSSA programs and topics. They are not inclusive, but may provide insight into any terms or programs you encounter on our site or in our Resource Guide with which you are not familiar. If you need clarification on a term, or know of another one that needs to be added, please email Office.Communications@fssa.IN.gov.

**Agency review:** A post-hearing process conducted by the FSSA Office of Hearings and Appeals to determine whether the appeal process was properly conducted.

**Appeals and hearings:** Numerous actions and decisions by the state are subject to appeal. An appeal is processed at a fair hearing before an impartial FSSA administrative law judge.

**Area Agencies on Aging:** There are 16 of these not-for-profit agencies around the state. They provide case management, information and referrals to various services for persons who are aging or developmentally disabled.

**Assistance group:** Persons living together who receive benefits issued through Supplemental Nutrition Assistance Program and/or Temporary Assistance for Needy Families.

**Authorized representative:** A person who has been specifically authorized by an applicant or recipient of health services or other benefits to receive that person's private health information or other confidential information and, if expressly authorized, to act on behalf of the beneficiary or applicant.

**Case manager:** An experienced professional who works with clients and providers to coordinate necessary services to a client.

**Copayment (copay or co-pay):** The amount a beneficiary must pay for health services or prescription drugs as his or her portion of the cost that a health care program plan does not cover.

**Deductible:** The amount a person must pay toward his or her medical expenses before a coverage program such as a health insurance plan begins paying.

**Durable medical equipment:** Any equipment that provides therapeutic benefits to a patient in need because of certain medical conditions and/or illnesses. Examples include wheelchairs and other non-disposable medical equipment.

**Extended care facility:** A licensed health care facility for residential, long-term care.

**Long-term care facility:** A facility that provides a variety of permanent or temporary health and personal needs services over a period of time. Examples are nursing homes and assisted living facilities.

**Low income supplement:** A low income supplement, as it relates to Indiana Medicaid, may include Medicaid monthly financial supplements under any of three Medicare programs: Qualified Medicare Beneficiary, Qualified disabled working individual or Specified low-income Medicare beneficiary.

**Managed care:** An arrangement whereby a single provider or organization oversees the overall care of a patient so as to ensure cost-efficient quality health care to its members.

**Managed care entities:** Organizations that oversee the overall care of a patient so as to ensure cost-efficient quality health care to members.

**Medicaid number:** The unique number assigned to a member who is eligible for Medicaid services. This number can be found on the front of your Medicaid ID card.

**Medicaid transportation:** Patient transportation provided by vendors, whom Indiana Medicaid reimburses, for taking Medicaid members to and from medical service providers.

**Prior authorization:** An authorization required for the delivery of certain services. The medical services contractor and state medical consultants review PAs for medical necessity, reasonableness and other criteria. The PA must be obtained before a service for benefits is provided within a certain time period, except in certain allowed instances.

**RID number:** A recipient identification number is a client identification number and is found on cards issued for services, such as a card for Medicaid, SNAP or TANF services.
