

2035.15.00 PRE-ADMISSION SCREENING IS PENDING (MED 1)

When pre-admission screening (PAS) is pending on an individual who has entered a nursing facility, ICF/~~MR~~-IID or CRF/DD, it is to be assumed that the individual will be approved, absent evidence to the contrary. A "yes" should be entered on the drop-down menu for Pre-Admission Screening field on the Facility Details page in the Eligibility system. The date is either the date the screening was initiated, if known, or the date the individual entered the facility.

The DFR will not receive a copy of the Form 450B (Physician Certification for Long Term Care Services) when the level of care determination is made. DFR should arrange a procedure with Medicaid facilities so that the facilities will notify the caseworker if a level of care is denied. When a denial is received by the worker, the information on Facility -Details page must be updated accordingly.
