

GOVERNOR PENCE'S ROADMAP SUCCESS

FACT SHEET

JOBS & ECONOMY

Business personal property tax: Can now phase out business personal property tax, a competitive advantage for Indiana, done in a fiscally responsible way

- Allows counties the option of phasing out their business personal property tax by eliminating the tax on new investment
- Allows counties the choice to offer specific companies an extended abatement of the tax
- Establishes a comprehensive study commission to look at business taxation broadly
- Lowers the corporate tax rate from 6.5% in 2016 to 4.9% in 2022, which will give Indiana the 3rd lowest corporate tax rate in the nation, up from 25th
- Will save Hoosier job-creators \$185 million per year when fully implemented

Entrepreneurship: Created new fundraising tools for entrepreneurs

- Aligned state and federal restrictions on selling equity, making it easier for entrepreneurs to raise money
- Made online crowdfunding possible in Indiana, so entrepreneurs can raise capital in smaller amounts from a larger number of individual investors

Road funding: \$400 million for next generation highway expansion was approved during the 2014 legislative session, which allows for new infrastructure projects and new jobs for Hoosiers now

- Beginning in fiscal year 2013, over \$400 million was allocated for new state and local transportation funds
- In this year's recommended budget, we've included another \$300 million in road funding, preserving our role as the Crossroads of America

Regional Cities: Promotes regional economic development to support improved long-term planning and collaboration, and better attract talent and investment

- Proposal creates a fund to invest in regional development plans and provides a means for local communities to participate through regional development authorities

PROGRESS TO DATE

Since January 2013...

*Governor Pence signed over \$600 million in annual tax relief into law

- \$298 million from the 5% income tax reduction
- \$190 million from the reduction of the corporate tax from 6.5% to 4.9%
- \$129 million from the elimination of the death tax
- \$14 million for Indiana's financial institutions

*Created 103,000 private sector jobs

*Unemployment has fallen from 7.9% to 5.8%

*\$800 million in new money dedicated for roads

GOVERNOR PENCE'S ROADMAP SUCCESS

FACT SHEET

EDUCATION & WORKFORCE

Pre-K pilot: First-ever state money for voluntary pre-K education for low-income students

- Nearly 400 children statewide are already benefitting from the On My Way Pre-K program, and 1,500 more will benefit when the pilot is fully implemented.
- Dollars follow the children
- Includes a longitudinal study of effectiveness of pre-K for children in the programs

Charter school network funding: Treats charter operators the same as school districts

- Funding for school corporations is determined at the corporation and not at the school level
- Allows a charter operator with multiple campuses to manage one budget for the entire group of schools, and not per school as under previous law

Adult high schools: Lifts the cap on adult high schools so more Hoosiers can be served by outstanding programs such as the Goodwill Excel Centers

Career and technical education study: New return-on-investment study of how effectively we are using the \$100 million in state funds on career and technical education in Indiana

Turnaround schools: Provides guidance for the end of State Board intervention for “turnaround academies”

- Permits the State Board to return the school to the school corporation, to direct the management team to apply to a charter school authorizer to turn the school into a charter school, or to implement a new intervention
- Allows a turnaround academy that is turned into a charter school to continue to use its facilities

Adult job skills: New program for adults needing to upgrade their skills beyond a high school degree for today's high-wage, high-demand jobs

- Makes 50% of part-time student aid grants and a substantial portion of federal workforce funds available to adults in this program
- Will be performance-based and reward providers for connecting participants to work
- Will be demand-driven as providers will offer training for current jobs in the marketplace

PROGRESS FOR FAMILIES

***Military Family Relief Fund:** 26,000 Hoosier veterans and families now eligible to get help through Military Family Relief Fund, which provides grants for food, housing, utilities, transportation, and medical expenses

***Adoption tax credit:** Created an adoption tax credit up to \$1,000 per adopted child
