

Early Hearing Detection & Intervention Program (EHDI)

www.hearing.in.gov
(317) 233-1264

Comprehensive (Level 1) and Limited (Level 2) Audiology Provider Facilities Updated July 2021

This list was compiled from a survey sent to audiologists by the Indiana Early Hearing Detection and Intervention Program (EHDI) to help families and professionals in finding diagnostic audiology testing for infants. The facilities were ranked by equipment available for infant audiologic testing as recommended by the Joint Committee on Infant Hearing (JCIH) and the National Center for Hearing Assessment and Management (NCHAM) and reported by survey responses. Comprehensive (formerly Level 1) facilities have the recommended equipment to provide comprehensive diagnostic audiology services for newborns after they do not pass newborn hearing screenings. Limited (formerly Level 2) facilities also provide diagnostic assessment, but are without one piece of the recommended equipment and therefore provide limited diagnostic audiology services.

**Facilities that provide sedated ABR testing

Comprehensive (Formerly Level 1)

Central Region

Hear Indiana
4740 Kingsway Dr. Suite 33
Indianapolis, IN 46205
