Firm Press Release
[View Product Photos](#)

Blue Buffalo Company, Ltd. is voluntarily recalling a limited production of Blue Kitty Yums Chicken Recipe Cat Treats that may contain low levels of propylene glycol, which is not permitted by the FDA for use in cat food.

Cats reacting to high doses of propylene glycol may exhibit signs of depression and may have a loss of coordination, muscle twitching, and excessive urination and thirst. If your cat has consumed the recalled product and has these symptoms, please contact your veterinarian.

The affected product was distributed nationwide in the US and Canada through pet specialty stores and e-commerce.

The product is packaged in a 2 oz., plastic stand up pouch. Only these specific code dates of this product are involved:

- Blue Kitty Yums Tasty Chicken Recipe, UPC: 859610007820 - Best If Used By: April 24, 2016.
- Blue Kitty Yums Tasty Chicken Recipe, UPC: 859610007820 - Best If Used By: July 24, 2016.

No other BLUE pet foods or treats are involved in this recall.

The FDA tested product in response to a single consumer complaint and found propylene glycol in one bag of our cat treats in the impacted lot. To date we have had no other reports of incidents related to our cat treats. Out of an abundance of caution, we are voluntarily recalling all product manufactured in the same lot as the subject bag.

Consumers who have purchased the product being recalled may return it to the place of purchase for a full refund. Consumers with questions may contact Blue Buffalo at: 888-667-1508 from 8 AM to 5 PM Eastern Time Monday through Friday and the weekend of November 7, 2015 or by email at BlueBuffalo5883@stericycle.com for more information.
