#### **LTC Updates:**

- Vaccination Survey for Nursing Homes & Assisted Living Facilities

#### **Vaccination Survey for Nursing Homes & Assisted Living Facilities**

State Health Commissioner Kristina Box, MD, FACOG, has requested that all licensed Comprehensive and Residential Care Facilities provide current information through an online survey. The purpose of the survey is to help the state Department of Health better understand vaccination rates across the state and identify ways to support facilities as they vaccinate their residents and staff.

The team at Probari will email the survey and follow up with calls to leadership at facilities if a completed survey isn't returned. Each facility must complete this survey no later than close of business on Wednesday, March 17.

The survey can also be accessed by clicking this link: [LTC Vaccination IDOH Survey](#)

Please submit only one survey response per facility. Feel free to reach out to Probari at [outreach@probarisystems.com](mailto:outreach@probarisystems.com) or (317) 804-4102 with any questions.
